## Trading

You can trade items and parts with your friends if they also have a copy of BioMotor UNITRON and a Link Cable. Be sure the cable is securely attached to both NeoGeo Pocket units before turning the power on. Do not attach the cable while the power is on and you are playing a game, as this may interfere with the normal operation of the NeoGeo Pocket and cause damage to the game or your NeoGeo Pocket.

### Step 1

With the Link Cable attached, go to the Trade screen from the Works menu. After the cable connection is confirmed, the game will display the Trade Item Selection screen.

### Step 2

After you and your trading partner have both selected items for trade, press the A button to begin the trade. If the trade is successfully completed, the items will exchange ownership—the item you traded will appear in your partner's inventory, and vice-versa.
