ABOUT THE MAN: Mark Lesser

Mark Lesser, programmer of *NHL Hockey '94*

Programmer Mark Lesser hails from New England, where he and his wife Mary Ellin raise two boys. In 1976 Mark programmed and designed the hardware chip for Mattel Football, and later did the same for Mattel Auto Race, one of the first hand-held computer games ever. When asked if he has any hobbies, Mark replied, "Programming games is my hobby." Currently Mark is waiting for his two-year-old to start testing games.

NHL[®] HOCKEY '94

SEGA

EPILEPSY WARNING

PLEASE READ BEFORE USING YOUR SEGA VIDEO GAME SYSTEM OR ALLOWING YOUR CHILDREN TO USE THE SYSTEM

A very small percentage of people have a condition that causes them to experience an epileptic seizure or altered consciousness when exposed to certain light patterns or flashing lights, including those that appear on a television screen and while playing games. Please take the following precautions to minimize any risk:

Prior to use

If you, or anyone in your family, has ever had an epileptic condition or has experienced altered consciousness when exposed to flickering lights, consult your doctor prior to playing.

- Sit at least 2.5 m (8 ft.) away from the television screen.
- If you are tired or have not had much sleep, rest and commence playing only after you are fully rested.
- Make sure that the room in which you are playing is well lit.
- Use the game on as small a television screen as possible (preferably 14" or smaller).

During use

- Rest for at least 10 minutes per hour while playing a video game.
- Parents should supervise their children's use of video games. If you or your child experience any of the following symptoms while playing a video game: dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions IMMEDIATELY discontinue use and consult your doctor.

WARNING TO OWNERS OF PROJECTION TELEVISIONS

Still pictures or images may cause permanent picture-tube damage or mark the phosphor of the CRT (television screen). Avoid repeated or extended use of video games on large-screen projection televisions.

CONTROLS

You control the player standing on the five-pointed star.
Use the **D-Pad** to move your player.

Face Off

- B** Controls/passes puck
- C** Speed burst (body check)
- D-Pad** Controls direction of pass

Offense

- A** Change lines/flip pass/clear puck
- B** Passes puck
- C** Wrist shot (hold for slap shot) or one-timer without puck
- D-Pad** Controls direction of pass/shot and puck handler

Manual Goalie Control

Hold **B** to get goalie control. Using Goalie Control is explained in detail on pages 5-6.

With Puck

- A** Clear puck up ice
- B** Passes
- D-Pad** Controls direction of pass and moves goalie

Without Puck

- A+D-Pad** Dives
- C** Save attempt
- D-Pad** Controls movement of goalie

Defense

- A** Holds/hooks
- B** Poke check/trip/switch to closest player (hold **B** to switch to goalie during manual goalie control)
- C+D-Pad** Speed burst (body check)
- D-Pad** Controls skating direction

Instant Replay

To get to the Instant Replay:

1. Press **START** to get to the Scoreboard Menu.
2. **D-Pad DOWN** to highlight the Instant Replay option.
3. Press **C**

- A** Rewinds
- B** (tap) Freeze frame/
- B** (hold) slow motion
- C** Play/stop
- A+B** Re-centers the camera

Press **START** to bring up the Reverse Angle/Option menu.

Line Changes

- A** Line change/clear puck/select A
- B** Select B
- C** Select C

One-timers

- B** Pass to a teammate
- C** Activate receiving teammate and attempt a goal

Scoreboard Menu

Press **START** to pause the game and bring up the Scoreboard Menu.

D-Pad UP/DOWN to scroll through options and data.

Press **C** to select items from the Scoreboard Menu.

Press **START** to return to the Scoreboard Menu, press **START** again to return to the game.

DEMO MODE

Press **D-Pad** or **A, B, C** button to exit demo game.

Press **START** to pause the game and bring up Scoreboard Menu options.

ABOUT GOALIE CONTROL

Goalie Control is a new feature that allows you to gain control of the goalie even when he doesn't have control of the puck.

To activate Goalie Control:

1. At the Main menu, **D-Pad DOWN** to Goalies.
2. **D-Pad RIGHT** or **LEFT** to set both Goalies on Manual Control.

To control a Goalie, hold the **B** button down until he has the control star under him, then:

- **D-Pad** any direction to move him and to aim a pass.
- **A** dives
- **B** passes
- **C** saves

ABOUT ONE-TIMERS

A One-Timer is a maneuver between two teammates: Player A has the puck, passes to player B, who lets the puck ricochet off his stick in an attempt to score without taking control of the puck. One-timers are more powerful shots, so use them often for power goals.

To attempt a one-timer, press **B** to pass to a teammate, then as soon as the puck is free from the passer, press **C**. Again, the action is very quick.

When there are two users on one team, the pass receiver can press **C** to perform a one-timer.

NEW FEATURES

The features below were added to NHLPA® Hockey '93 to create *NHL Hockey '94*:

- Goalie control
- Shootout game
- Penalty shots
- Bench and board checks
- 3- or 4-player compatible with adapter
- 1992-93 NHL rosters and player ratings
- Variable player ratings for players on hot or cold streaks
- Save player records for each player
- Save user standings and records
- One-timers – special moves by the selected player
- New player stats
- Flip passes
- Reverse-angle replay
- Clear the zone when killing penalties
- Automatic line changes
- Tougher computer defense
- Tougher goalies
- Computer shooter scoring moves
- Player and team cards
- Player profiles with 144 player pictures
- Local organ music – 72 pieces in all
- Team logos at center ice
- New crowd animations
- No fighting or blood
- Period stats
- More kinds of game stats
- Two expansion teams (Anaheim and Florida)

PLAYING NHL® HOCKEY '94

NHL Hockey '94 is a super realistic, fast-action hockey game designed around the actual rules and players in professional hockey. The controls are easy to use, so you can begin playing immediately with just a quick glance at the control summary on page one. But if you want to master the complexities of *NHL Hockey '94*, you should go through the manual. As you get better and better at the game, you can set up increasingly more difficult contests.

STARTING THE GAME

1. Turn OFF the Sega™ Genesis™ console.
NEVER insert or remove a game cartridge when the power is on.

2. Make sure your Controller is plugged into the port labeled Control 1 on the console.
If you're playing against or with a friend, plug his Controller into the port labeled Control 2.
3. Insert the game cartridge into the slot on the Genesis. Press the cartridge down firmly to lock it in place.
4. Turn ON the console.
5. When the *NHL Hockey '94* title screen appears, press **START** to see the Game Set-Up screen.

4-Way Play™

Too many friends, not enough controllers? EA Sports has solved your problem with the all new 4-Way Play four-player controller. Simply plug the 4-Way Play into your Genesis, then plug up to four controllers into the adapter, and you're ready to go.

NOTE: Six-button controller users who are using the 4-Way Play must play in three-button mode.

- To configure your controller to three-button mode:
 1. Turn off the Genesis.
 2. Hold the "Mode" button on every six-button controller that will be used while you turn the Genesis on.

Your six-button controllers are now configured in three-button mode.

Game Set-Up Screen

Options Settings

If you want to get into the game right away, go straight to the section below, Playing for Real.

But if you are starting *NHL Hockey '94* for the first time, you might want to watch an exhibition game.

1. **D-Pad DOWN** to the **Players** line on the **Game Set-Up** screen.
2. **D-Pad LEFT** or **RIGHT** until you see **Demo**.
3. Press **START**. Unless you change the settings, Montreal plays Los Angeles at the Montreal Forum in a regular season game with three 10-minute periods, no penalties, no line changes. User record recording is off, and Goalie Control is set to Manual.
4. Press **START** to see the **Team Matchups** screen. Press **START** again to return to the Scoreboard menu.

Kick back and watch the fast, hard-hitting action.

To get out of Demo mode, press any button except **START**. The Game Set-Up Screen reappears.

Playing for Real

You'll need to use the Game Set-Up screen every time you play. If you just watched the Demo, make sure to change the Players setting back to One-Home, or whatever mode you choose.

If you want to jump right in and wait until later to explore the other options, just press **START** to use the game's default settings. You will be Montreal at home in white, going up against Los Angeles in black in a game with three 10 minute periods. There will be no penalties, no line changes, no user records, and manually controlled goalies.

When you're ready to set up your own game, **D-Pad DOWN** through the options. A gray rectangle appears around the selected option. **D-Pad LEFT** or **RIGHT** to change the setting for that option. Press **START** to begin the game.

Options and Settings

Play Mode

Regular Season Play a regular season game.

Continue Playoffs Return to a playoff series at the point where you left off. This option appears on the menu only after you win a playoff game.

New Playoffs Begin in the first round of the Playoffs, needing only one win to advance.

New Playoffs/Best of 7 Begin in the first round of the Playoffs. Score four victories to advance.

NOTE: Only one playoff series can be saved at a time.

Shootout Choose teams and go one-on-one with the goalie.

Players

Regular Season

One – Home You control Team 1 against the computer as Team 2.

One – Visitor You control Team 2 vs. computer-controlled Team 1.

Two – Teammates You and another person play as Team 1 against the computer as Team 2.

Two – Head to Head You play against another person.

Demo Watch an exhibition game.

NOTE: To use the following settings, you must use the Four-Way Play four-player adapter. DO NOT under any circumstances unplug the adapter with any part of your setup ON.

Three Players To play with three players you must have the Four-Way Play™ four-player adapter. During three player play, Controllers 1 and 3 play as teammates on the Home team, and Controller 2 plays against them on the Visiting Team.

Four Players, Two-on-Two To play with four players you must have the Four-Way Play four-player adapter. During four-player play, Controllers 1 and 3 play as teammates on the Home Team, and Controllers 2 and 4 play against them on the Visiting Team.

Playoffs

Two – Head to Head You play against another person.

One You control Team 1.

Two – Teammates You and another person play as Team 1 against the computer as Team 2.

The Home team is on the right side at the top of the **Game Set-Up** screen, and the Visitor is on the left.

The Home team always wears the light-colored jerseys, and the Visitor wears dark colors.

The Home team faces up-screen in the first period and third periods, down-screen in the second period.

Team 1 Home team in regular season play.

Team 2 Visitor in regular season play.

In both Playoff modes, the player with Controller 1 is Team 1, not necessarily the Home team.

Period Length

Each game consists of three periods, and one or more overtime periods if necessary.

You can set the period length at **5 min., 10 min., or 20 min.**

A **Regular Season** game allows only one overtime period. The overtime period lasts for ten minutes, or until one team scores ("sudden death"). If neither team scores, the game ends in a tie.

Playoff games cannot end in a tie. Players will play as many sudden death overtime periods as necessary to establish a winner. The overtime periods last as long as the period length selected for that game, or until one team scores.

Penalties

On The referees call all the penalties and infractions they see. (See "Penalties" and "Infractions" on pages 23-29.)

On – Except Off-sides The referees call penalties and infractions, except off-sides.

Off The game will not be interrupted by penalties or off-sides. ICING IS ALWAYS CALLED.

Line Changes

On The player/players control their team's line changes. (See "Line Changes" on pages 30-33.)

Off The players do not tire and stay in for the entire game.

Auto Computer changes lines for both teams. Players do not tire.

Goalie Control

Manual You can control your own goalie.

Auto The computer controls your goalie when he doesn't have the puck.

User Records

On Saves your all-time records.

Off Doesn't add to your all-time records.

NOTE: You must have User Records ON, to log records. Only results of winning games are saved.

Once you've set up the game the way you want it, strap on your helmet, put on your gloves, grab your stick and press **START**.

TEAM AND PLAYER STRENGTHS

All the NHL teams are represented in *NHL Hockey '94*. As in real life, some teams are stronger than others. Of course, a team's strength is based on individual player strengths. This is what makes *NHL Hockey '94* so realistic.

Every player in the game has certain strengths and weaknesses, based on the actual strengths and weaknesses of their real performance in the 1992/1993 season.

In general, the center is the best scorer, and the wingmen are also good with the puck. Defensemen are not particularly fast or good with the puck, but they check harder and defend more aggressively than the front line players.

TEAM MATCHUPS SCREEN

Before the game begins, the Matchups screen appears. On this screen, opposing teams and starting players are compared. Team and player ratings range from 25 (bad) to 100 (excellent).

Player Ratings

At the Matchups screen, press **C** to see player ratings of the two teams currently competing. Press **START** to go to the next screen.

THE FACE OFF

In the opening period, the home team's center faces up screen.

The visitor's center faces down screen.

At the top left of the screen you see a close-up window of the two centers and the referee holding the puck in the air.

The referee drops the puck automatically. When the puck hits the ice, it's **live**: When a ref drops the puck, you can:

- Hold the **D-Pad** in direction you want to pass, then press **B**
- **D-Pad FORWARD** and press **C** to capture puck.

As you learn the game you will find that certain centers are tougher than others, and that some are more skillful with the stick. You will want to be aware of your center's particular strengths and weaknesses if you want to make full use of him on face offs.

The skills of every player on every team are ranked. (See "Rosters and Ratings" on pages 54-82.)

SKATING

Center on breakout

Skating skills are fundamental to good hockey. You need to skate well to check hard, to avoid checks and deke the goalies. *NHL Hockey '94* lets you skate like a pro, but makes you pay for your mistakes.

OFFENSE (Your team controls puck) With Controller 1, your puck carrier skates on a solid light blue star with a dark blue outline. The computer's puck carrier skates on a solid light blue star with no outline. If you're using Controller 2, your outline is orange.

DEFENSE (Other team controls puck) If you're using Controller 1, your active player skates on a star outlined in blue. If your using Controller 2, your outline is orange.

- Press **B** to activate player nearest to the puck.

Controlling your momentum is the key to good skating. When you reverse direction your player will skid a little before he actually turns around. Get a feel for this skidding and use it to your advantage by learning to predict how far players will slide before they stop.

To come to a quick stop, press the **D-Pad** in the exact opposite direction the skater is skating.

- Control the direction of your player (and the direction of your passes) with the **D-Pad**.

PASSING

The key to a dominant offense is clean, accurate passing.

- Hold **D-Pad** in the direction you want to pass, press **B**.

If you do not hold the **D-Pad**, the player will pass the puck in the direction he is facing. The best passing method is to press the **B** button, then press down on the **D-Pad**, then release the **B** button. The pass is launched when the **D-Pad** is pressed while the **B** button is down.

When the puck reaches a player, that player usually controls the puck.

An opponent can intercept a pass if he gets to the puck first.

Try to keep track of where players are off-screen.

In general, the center skates up center ice with the two wingmen on either side of him, and the two defensemen behind him on opposite sides.

If the player you control is off-screen, an arrow points to the location of that player.

When playing in either of the **Two Player** modes, the black arrow indicates the Controller 1 player, the orange arrow the Controller 2 player.

If you know where all your teammates are, you can pass quickly (forward, to the side, and behind you) and confuse the defenders.

On medium to long range passes, press **B** immediately after you pass the puck to the target player before the puck arrives; this way you can evade defenders and pick up the puck in the clear.

PLAYING AS TEAMMATES

When **Two Player – Teammates** is selected, two players compete against the computer.

The player with Controller 1 controls the man on the black outlined star and always faces off.

The player with Controller 2 controls the man on the orange outlined star.

The player in control of the puck skates on a solid blue star.

All the controls remain the same.

On defense, when both players press **B**, the player who pressed **B** first becomes the defender closest to the puck. The other player becomes the next closest defender.

If a user-controlled player is about to receive a pass, they can press **C** and perform a one-timer.

Playing with Three or Four Users

EA SPORTS 4-Way Play adapter

To play with three or four users, you must have the EA SPORTS 4-Way Play adapter plugged in to your machine. Reset your machine each time you plug or unplug the four-player adapter. These can be purchased wherever you buy video games, or through our direct sales office at 1-800-245-4525 during regular business hours, Pacific Time.

Three Players

When three players are playing, Controllers 1 and 3 play as teammates on the home team, and Controller 2 plays the visiting team alone.

Four Players

When four players are plugged in, Controllers 1 and 3 play as teammates on the home team, and Controllers 2 and 4 play as teammates on the visiting team.

- Controller 1 has a Dark Blue star
- Controller 2 has a Hot Pink star
- Controller 3 has a Dark Green star
- Controller 4 has a Yellow star

PENALTIES

Penalty box

When the **Penalties** option is **On**, the referees call all the penalties they see.

Different penalties are called in different situations.

You can keep penalties to a minimum by laying off the **C** button on defense. The **C** button gives the player you control an extra burst of speed, so your checks are harder and your collisions more explosive.

Below is a list of the various penalties.

Holding

Illegally grabbing or pinning a player so that he can't move.

Roughing

Unnecessary roughness or causing an injury.

Slashing

Deliberately hitting an opponent with the stick in order to obstruct or intimidate him.

Crosscheck

Lifting the stick off the ice with both hands and using it to check an opponent.

Tripping

Tripping the puck carrier. The referee has to believe there was no attempt to capture the puck.

Hooking

One player's attempt to "hold up" another player with his stick.

Charging

Slamming into another player after two or more deliberate strides in his direction.

Interference

Interference is called only when a player interferes with the opposing goalie in the crease or on his way back to the crease.

Penalty Shots

Penalty shots are awarded when a penalty is committed on the breakaway man (puck carrier that initiates the breakaway). A breakaway happens when an offensive player crosses the blue line before a defensive player. There is a ding sound when a breakaway has occurred.

One player is released from the penalty box when the opposing team scores on a **Power Play**.

If there are more than two players in the box, the player with the least amount of time remaining in his penalty period is released.

Delayed Penalty Call

Referee close-up window

When a penalty is called on a player from the team without the puck, action is not stopped immediately. The referee appears on the screen to whistle the penalty, but play does not stop until a player on the penalized team captures the puck. During that time, the goalie from the team with the puck skates off the ice and is replaced by a forward. As soon as the penalized team captures the puck and play is stopped, the goalie returns. If the offensive team scores before the penalized team captures the puck, the penalty is not called.

Delayed Penalty

No team will have fewer than three players (not including the goalie) on the ice. If a penalty is called on a team with two players in the box, the offending player goes to the box and is replaced. His penalty time does not begin to run down until one of his teammates' penalty periods expires.

INFRACTIONS

Infractions are related to what's called the **ATTACK ZONE**. The Attack Zone is marked by a blue line on your opponent's side of the ice. When you cross this blue line in the direction of your opponent's goal, you have entered the attack zone. Note that your attack zone is the same thing as your opponent's defensive zone.

Icing

Icing is called when a player passes or shoots the puck across the red center line, the opponent's blue line, and the red goal line, but not through the crease.

If a player on the offensive team touches the puck after it has been "iced," the infraction is not called.

Icing is not called on a shot on goal.

Icing is not called on a team that is short-handed because of a penalty. (See "Penalty Killing Lines" on page 33.)

There is no "two-line pass" infraction in *NHL Hockey '94*.

After an icing call, the referee will stop play and set up a face off in the defensive zone of the guilty team.

Off-sides

Number 28 has skated across the blue line with the puck when his teammate was already in the attack zone.

The puck must enter the attack zone before any player on the offensive team enters the attack zone, or else off-sides will be called.

The puck cannot be passed across the blue line to a player waiting in the attack zone.

Once in the attack zone, if the puck crosses the blue line OUT of the attack zone, all offensive players must "clear" (leave) the attack zone before the puck can be brought back across the blue line.

EXAMPLE: You attempt a shot-on-goal in the attack zone. The other team's goalie stops the puck and quickly passes it to a teammate, who brings it up the ice out of the attack zone. As soon as he crosses the blue line, you bodycheck him and steal the puck.

Now you must wait for your teammates to skate out of the attack zone before you can bring the puck back into the attack zone.

A referee window will pop up to warn you that if you cross into the attack zone you will be off-side.

The referees always catch the off-sides infraction (when you have it ON) and stop the action. The puck is faced off behind the blue line.

SCORING

One point is awarded per goal.

- To take a shot on goal, press **C** when you have the puck.
- Use the **D-Pad** to aim puck **LEFT/RIGHT/UP/DOWN**.

There are two different shots: wrist shots and slapshots.

- **Wrist Shot** Press and release **C** quickly.

A wrist shot is slower but more accurate than a slap shot. Wrist shots are most effective when close to the goal.

- **Slap Shot** Hold down **C**.

A slap shot is harder, faster, but less accurate than a wrist shot. Slap shots are most effective further back in the attack zone when the goalie is not set.

The longer you hold down the **C** button, the harder the slap shot.

- **D-Pad UP** to give shot height.
- **D-Pad DOWN** to keep shot low.
- **D-Pad LEFT** or **RIGHT** to shoot into the corner of the net.

Look for a slap shot to bounce off the goalie or the net, grab the rebound, and flick the puck in with a wrist shot.

The hockey net with the nine D-Pad aiming spots

LINE CHANGES

Line Change window

Scoring line 2 fatigued

Hockey is a grueling sport, and players need to rest every so often, especially in long games.

If you want to make line changes, set **Line Changes** to **ON** on the **Game Set-Up** screen.

Fatigue bars on the right side of the line-name show how fresh (or tired) that line is. The longer the bar, the fresher the line.

You can make line changes whenever action is stopped (end of period, penalty, goal, face off, etc.) or whenever you control the puck.

Before each face off, the **Line Change** window will appear on the screen for a few seconds. Press the letter corresponding to the line you want on the ice.

If you don't press a button, the line next to the letter 'A' will take (or remain on) the ice.

Unless a **Power Play** is beginning or ending, the line currently on the ice is listed next to the letter 'A.'

(See "Power Play Lines" on page 32 and "Penalty Killing Lines" on page 33 for more information.)

You can change lines during play only when you control the puck.

- Press **A** to initiate a flip pass and bring up a window of the currently available lines and their fatigue bars.
- In the window, press **A** to select the line next to the letter 'A', **B** for 'B' and **C** for 'C'.

NOTE: If you press A to select line changes during gameplay, your player will dump the puck into the offensive zone.

Each team has seven different lines: Scoring lines 1 and 2 (**Sc1** and **Sc2**), Power Play lines 1 and 2 (**PP1** and **PP2**), Penalty Killing lines 1 and 2 (**PK1** and **PK2**), and a Check line (**Chk**).

Change lines before they use 25 % of their energy to maximize performance of the team. Be careful about changing your line while your puck carrier is in the defensive zone. If your opponent steals the puck, you could be left short-handed on the defensive end while the fresh players are coming onto the ice.

Your fatigue bar may be decreased due to one player who's "dogging it." Go to the **Edit Line** screen to get rid of the player who is out of shape.

Scoring Lines and Checking Line

Sc1 starts every game. You can change to **Sc2** or to the **Chk** line as soon as you have the puck or when a face off occurs.

Scoring lines are fast, agile, and good with the puck.

The **Chk** line is your "big" line, generally slower but harder hitting and better on defense.

Power Play Lines

Power play clock

Whenever one team has at least one more player on the ice than the other team, that team has a **Power Play**. The **Power Play Line (PP1, PP2)** is the group of players that specialize in putting the puck in the net.

Some of the players on the Power Play lines are also on the regular lines (**Sc1, Sc2, Chk**) or the Penalty Killing lines (**PK1, PK2**).

The Line Change box appears automatically before each face off.

- Press **A** when you have the puck to show Line Change box.
- Press **A** or **B** to select **PP1** or **PP2**. If you press neither, the team next to 'A' will take the ice.

For the first **Power Play**, 'A' corresponds to **PP1** and 'B' to **PP2**. In all subsequent power plays, 'A' corresponds to the line most recently on the ice.

It is important to select a line when the **Line Change** window appears, unless you are certain that you want the line next to the letter 'A' to take the ice. Otherwise, you run the risk of inserting a tired line.

- When a power play ends, select from one of the Scoring Lines or the Check Line.

The line most recently used (usually the most fatigued line) is listed next to 'A'. Be sure to select a different line if that line is not at full strength, unless you REALLY want to wear down those tired players.

Penalty Killing Lines

The Penalty Killing Lines are made up of the best players from both Scoring Lines and are your best defense against an opponent's Power Play.

The substitution of Penalty Killing Lines for Scoring and Checking Lines works exactly as described above in Power Play Lines.

SCOREBOARD MENU

The Scoreboard Menu provides a wide range of choices available during play or between periods. All the different options are explained below.

- Press **START** during play to bring up the Scoreboard Menu.

Instant Replay

At any point in the game, or at a break in the action, you can replay the last ten seconds of action.

- Press **START** to pause the game. The Options menu appears.
- **D-Pad DOWN** to **Instant Replay**.
- Press **C**.

The replay is automatically rewound as far as possible. A box appears showing VCR-style control instructions.

- Press **C** to roll replay (normal speed).
- Press **C** or **B** to stop replay.
- Press and hold **B** to play replay (slow motion); release to stop.
- Use **D-Pad** to move the view around the ice.
- Press **A** to rewind to the replay; release to stop. You will see the action in reverse at high speed.
- **D-Pad** any direction to activate "Iso mode". In Iso mode, you can cursor to a player and have the replay follow his actions throughout the replay, or move the cursor around the ice to see the positions of other players at the time of the replay.
- Press **START** to bring up the replay options, then **C** to see the instant replay from the reverse angle.
- Press **START** to return to the Reverse Angle/Option menu.
- Press **START** again to return to the Game.

Change/Remove Goalies

In professional hockey, the same goalie never starts every game. In *NHL Hockey '94*, the goalie is chosen randomly for computer controlled teams in regular season games, when line changes are ON. Otherwise, the first string goalie starts.

Goalies do not tire, but if yours is not performing up to your standards, or if you just feel like giving the other guy a chance to show what he's worth, you can change goalies.

- Press **START** to go to the **Scoreboard** menu.
- **D-Pad DOWN** to Change Goalie and press **C**.
- **D-Pad** to alternate goalie (or to None) and press **C**.
- Press **START** to resume play.

If you remove your goalie (leaving the net undefended) a forward is substituted in to give you an extra player up front for a better chance of scoring.

Manual/Auto Goalie Control

Auto Control

Auto goalie control lets you concentrate more on strategic checking and defense – good for beginners.

Manual Control

Manual goalie control is for more advanced players who are very skilled with defense and are ready for full control. To get control of the goalie, hold **B** until an outlined star appears under him. You have control once the star appears.

No goalie

The computer sometimes removes its goalie in the third period when it is losing and the game is close.

On a delayed penalty call against you, the computer removes its goalie to give itself a brief advantage.

You might want to remove your goalie when you're losing and time is running out. On a delayed penalty call against the computer, the computer automatically removes your goalie and brings in a forward to replace him. This is NOT listed as a Power Play, since there are equal numbers of players on the ice.

Edit Lines

In *NHL Hockey '94*, you can edit a team's lineup and save those edits. The program will store the changes only to one team's lineup at a time, and previously saved lineup edits are automatically deleted when new lineup edits are saved. You may edit lineups before the opening face off, or at any time during the game. When line changes are on, you can edit all seven lines (see "Line Changes" on pages 30-33 for more about the different lines) When line changes are off, you can edit only Scoring Line 1 (this is the only line that's on the ice).

- Press **START** before or during play to bring up the **Scoreboard Menu**.
- Highlight **Edit Lines** and press **C**.
- Use the **D-pad** to highlight the player on the line you wish to remove. The name and jersey number of that player appears in a narrow box above the line up list(s).
- To select a highlighted player, press **C**. A list of substitutes eligible to play that position appears at the top of the screen.

Line editor

- Highlight a player from the eligible substitutes list.
- **D-Pad LEFT/RIGHT** to toggle through the various ratings categories to assess the qualifications of that player. The higher the rating, the better that player is at that particular skill or attribute.
- When you've decided which player you wish to substitute, press **C**.
- Repeat the process for each substitution you wish to make, then press **START**. A menu box appears.

Saving Line Edits

After you edit a line, you have the option of saving it for later use.

NOTE: Remember, whenever you save an edited line, the program automatically deletes the previously saved edited line even if it's a different team's line.

- Highlight **Save Team Line**, and then press **C**.
- Press **START** to call up the menu box; press **START** again to exit the Line Editor and to return to the Scoreboard Menu.
- Press **START** to return to the ice.

Hot and Cold Streaks

The player ratings will vary hot and cold (+/- 10-30% in each category) depending on what kind of streaks the players happen to be on.

Watch Ron Barr's commentary before each game to see who's on hot and cold streaks.

Game Statistics

LOS ANGELES		MONTREAL	
GAME STATISTICS			
LOS ANGELES		MONTREAL	
5	Score	6	
21	Shots	17	
23%	Shooting Pct	35%	
0/1	Power Play	0/1	
0:08	PP Minutes	0:08	
0	PP Shots	0	
0	SH Goals	0	
1/2	Breakaways	0/1	

At any point during the game, you can take a look at the current game statistics.

- Press **START** to bring up the Scoreboard Menu.
- Highlight **Game Stats** and press **C** to bring up the **Game Statistics** screen.

Each team's current game statistics appear beneath the team's name.

Score Number of goals scored.

Shots Number of shots taken on the goal.

Shooting Pct The percentage of shots-on-goal that scored.

Power Play Number of goals scored during power plays/number of power plays. (see "Power Play Lines" on page 32.)

PP Minutes Number of Power Play minutes for each team.

PP Shots Number of shots attempted by each team during a Power Play.

SH Goals Short-Handed goals. Number of goals scored by each team while short-handed.

Breakaways Scores on breakaways/number of breakaways

One-Timers Number of One-Timers that scored/number attempted.

Penalty Shots Penalty shots scored/shots attempted.

Faceoffs Won Number of face offs won.

Body Checks Number of body checks delivered even after the whistle blows.

Penalties Number of Penalties incurred/number of minutes penalized (in the box).

Attack Zone Amount of time spent in the Attack Zone. (See page 27 for more on the Attack Zone.)

Passing Number of passes successfully received/number of passes attempted.

- Press **START** to exit the Game Statistics screen.
- Press **START** again to return to the ice.

Period Statistics

The screenshot shows a 'PERIOD STATS' screen with a table of goals and shots. On the left, there are two team logos: the top one is for the 'KINGS' and the bottom one is for the 'FLAMES'. The table has columns for 'Goals' (1, 2, 3) and 'Total'. Below the table, it says 'For Shots +'.

	Goals			
	1	2	3	Total
KINGS	2	2	1	5
FLAMES	4	0	1	5

You can check period statistics for either team at any time during play.

- Press **START** to bring up the Scoreboard Menu.
- Highlight **Period Stats** and press **C** to bring up the Period Statistics screen with Goal stats displayed.
- **D-Pad RIGHT** to see the Shots stats for the period.
- Press **START** to return to the Scoreboard menu. Press **START** again to return to the ice.

Player Statistics

Player	G	A	Pts	SOG	PIM
1 25 Dampousse	2	1	3	2	0
2 18 Savard	1	0	1	2	0
3 27 Schneider	1	0	1	3	0
4 45 Dionne	1	0	1	1	0
5 5 Ramage	0	0	0	0	0

You can check individual players' game statistics for either team at any time during play.

- Press **START** to bring up the Scoreboard Menu.
- Highlight **Player Stats** and press **C** to bring up the Player Statistics screen.
- Press **A** to bring up the stats for the opposing team.

There are two ways to look at the statistics – by player or by statistic. You may want to look at how well a particular player is doing in general.

- **D-Pad UP/DOWN** to find the player whose stats you wish to see (if that players is not among the first five shown).

G	Goals scored
A	Assists made
Pts	Points earned (Goals + Assists)
SOG	Shots on goal
PIM	Penalties in minutes

Or you can rank the players in order of their performance in the various categories. For example, if you want to see which players have taken the most shots on the goal, select **Shots on Goal**. The player with the most shots on goal will appear at the top of the list, followed by the player with he second most shots on goal, and so on.

- **D-Pad LEFT/RIGHT** to toggle through the different statistics categories.
- Press **START** to return to the Scoreboard Menu.
- Press **START** again to return to the ice.

Player Cards

View Player Cards from the Scoreboard Menu screen which displays the saves and goals of each player, and the saves, goals, and best crowd meter rating of each team. You can also check out these Player Cards for individual player records. Press **A** to change teams.

Record Holders

Up to seven player names (you and your friends) can be saved as Record Holders.

Be sure you have the User Records option in the Main menu set to ON if you want to save user records.

User Records

This displays the standings of up to seven users. Press **A+C** to reset your User Records to zero.

Record Goals

This lists the highest number of goals scored for up to seven users.

NOTE: YOU MUST WIN TO QUALIFY.

Record Saves

This lists the highest number of goalie saves for up to seven users.

NOTE: YOU MUST WIN TO QUALIFY.

Scoring Summary

LOS ANGELES		MONTREAL		
SCORING SUMMARY				
Per	Time	Tm	Goal/Assist	P/S
1	3:44	MTL	18 D. Savard 43 P. Brisebois	
1	4:17	LA	12 J. Carson 21 T. Granato	
1	9:06	LA	21 T. Granato 7 J. Sandstrom 12 J. Carson	
1	9:44	MTL	25 V. Damphousse 23 B. Bellows 24 L. Odelein	

The scoring summary recaps all the goals: the period, the time elapsed in the period, the team, the player who scored the goal (followed by the player(s) who earned assists on the goal, if any), and the penalty situation at the time.

The initials **P/S** stand for 'Penalty Situation'. When no item appears in this space, both teams had an equal number of players on the ice.

The following are abbreviations for the type of penalty during which a goal was scored:

PP	Power Play
PP2	Two player advantage during a Power Play
SH1	Short handed one player
SH2	Short handed by two players
PS	Penalty shot

- Press **START** to bring up the **Scoreboard**.
- Highlight **Scoring Summary** and press **C** to bring up the Scoring Summary screen.
- **D-Pad UP/DOWN** to scroll up/down the screen (if necessary).
- Press **START** to return to the Scoreboard Menu.
- Press **START** to return to the ice.

Penalty Summary

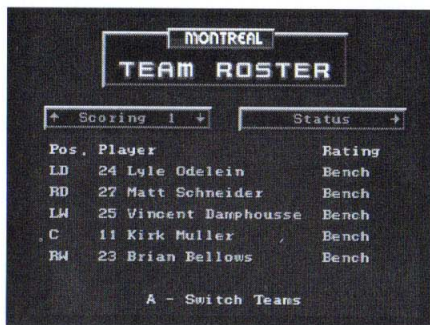

LOS ANGELES		MONTREAL		
PENALTY SUMMARY				
Per	Time	Tm	Player/Penalty	min
1	5:16	LA	4 B. Blake Hooking	2
1	5:24	MTL	23 B. Bellows Cross Check	2

Like the scoring summary, the penalty summary indicates the period in which the penalty was called, the time elapsed, the team whose player committed the penalty, the number and name of the player, beneath which appears the name of the infraction, the length of the penalty in minutes.

- Press **START** to bring up the Scoreboard.
- Highlight **Penalty Summary** and press **C** to bring up the Penalty Summary screen.
- **D-Pad UP/DOWN** to scroll up/down the screen (if necessary).

- Press **START** to return to the Scoreboard Menu.
- Press **START** to return to the ice.

Team Roster

The Team Roster contains all seven lines and the list of the goalies for a particular team.

- Press **START** to bring up the Scoreboard.
- Highlight **Team Roster** and press **C** to bring up the Team Roster screen.

The box on the left displays the name of the lineup shown on the screen. Each player is listed by position, jersey number, and name.

LD	Left Defenseman (shown as D on the ice)
RD	Right Defenseman (shown as D on the ice)
LW	Left Wingers (shown as L on the ice)
C	Center (shown as C on the ice)
RW	Right Wingers (shown as R on the ice)

- **D-Pad UP/DOWN** the change lines.

The box on the right displays the ratings category in which each player is being evaluated.

- **D-Pad LEFT/RIGHT** to scroll through the different ratings categories. Most of the ratings are numerical, the higher the number the better the player at that category.

Goalies

Status On the Ice/On the Bench

Overall The goalie's overall ability

Agility The goalie's agility on the ice.

Speed The goalies speed on the ice.

Glove Hand The hand the goalie catches with

Def. Awareness Goalie's sense of what's going on around his net.

Puck Control Goalie's ability to control the puck

Stick Right Goalie's stick handling to the right side

Stick Left Goalie's stick handling to the left side

Glove Right Goalie's glove handling to the right side

Glove Left Goalie's glove handling to the left side

Weight Goalie's body weight in pounds

Line Players

Status On the Ice/On the Bench/Injured/ Penalized

If a player is in the penalty box, the time in his penalty appears as his status.

If a player is injured, 'Injury' appears as his status. **AP** after injury indicates 'out for the period', while a **G** indicates 'out for the game'.

Overall Player's overall ability

- Energy** Player's current energy level
- Agility** Player's agility on the ice
- Speed** Player's top speed on the ice
- Handed** Player's best shooting side
- Off. Awareness** Player's offensive instinct
- Def. Awareness** Player's defensive instinct
- Shot Power** How hard the player can shoot the puck
- Shot Accuracy** Players' skill in shooting the puck
- Pass Accuracy** Player's accuracy in passing the puck
- Stick Handling** Player's overall skill with the stick
- Weight** Player's body weight in pounds
- Endurance** Player's stamina on the ice
- Aggressiveness** Player's likelihood of being penalized
- Checking** Player's effectiveness as a checker

The Scoreboard Menu provides scores from other games in both playoff and regular season modes.

- Press **START** to bring up the scoreboard.
- Highlight **Other Scores** and press **C** to bring up the Other Scores screen.
- **D-Pad UP/DOWN** to scroll through the list.
- Press **START** to return to the Main Menu.
- Press **START** to return to the ice.

Crowd Meter

LOS ANGELES		MONTREAL	
CROWD METER			
Current Level		75	dB
Average Level		78	dB
Peak Level		90	dB
Arena Record		90	dB
League Record		90	dB

The Crowd Analysis screen displays the statistics on decibels recorded from the crowd's cheering. These include the current decibel level, the average decibel level recorded over the course of the game, and the highest, or 'peak', decibel level since the opening face off. Analysis of the crowd is based on the readings of the Crowd Meter throughout a game.

Don't just blow the Crowd Meter off – the higher the reading, the BETTER the teams play!

If you break the Arena record, gameplay for both teams speeds up (about 10%).

NOTE: To have a new Crowd Meter record saved, You must have User Records turned on (in the Main menu).

- Press **START** to bring up the scoreboard.
- Highlight **Crowd Meter** and press **C** to bring up the Crowd Meter screen.
- **D-Pad UP/DOWN** to scroll up/down the screen (if necessary).
- Press **START** to return to the Main Menu.
- Press **START** to return to the ice.

Timeout

Calling a timeout restores all the lines on both teams to full vitality, and can be used by each team only once during a game. When playing with line changes off, the players do not lose vitality, and so the timeout has no real function. But when playing with line changes on, using the timeout at the right juncture in a game can create a tremendous advantage. Once you use the timeout, it disappears from the Scoreboard Menu.

- Press **START** to bring up the score board.
- Highlight **Timeout** and press **C**.
- Press **START** to return to the ice.

STARS OF THE GAME

At the end of every game, Ron Barr at the EA SPORTS Sports Center selects the stars of the game. Scores, assists, and excellent goal keeping usually qualify a player as a star. But even if your goalie saves 99 of 100 shots on goal, if that one he let get by is a game winner, he hardly feels like a star.

PLAYOFF MODES

When you select **New Playoffs** or **Playoffs/Best of 7**, you're in the playoff tournament.

- If you're playing **against the computer**, you are Team 1.
- If you're playing **two players Head to Head**, the player with Controller 2 is Team 2.

Check to see if you are the Home team or the Visitor. The Home team is on the right at the top of the Game Setup screen in the light-colored jerseys and faces up-screen in the first period.

- Press **START** to see playoff tournament pairings.
- Press **START** again to begin your first game. When the first game is over, the new pairings appear. Only the winners advance.

If you lose in the first round and you want to play that team again, to return to the Game Setup screen and select **New Playoffs**. Then simply select the same match-up and try again.

Playoff Statistics

CHICAGO
PLAYOFF STATS

← Goals →

Player	G	A	Pts	SOG	PIM
1 6 Kucera	1	0	1	4	2
2 7 Chelios	1	0	1	2	2
3 10 Noonan	1	0	1	4	0
4 16 Goulet	1	1	2	6	0
5 27 Reenick	1	0	1	5	0

↓

At the end of every playoff game, your team's updated statistics automatically appear before you move on the next game. The playoff statistics screen can track the combined statistics for all the games (4 best of 7 series) of the tournament.

SAVING THE PLAYOFF TREE

When you win a playoff game you can save your spot on the playoff tree and continue the playoffs later. After the playoff game is finished, you see the Players of the Game screen and then the Highlights from other Games. When all the highlights are replayed, the program will highlight **Exit Game**.

- Press **START** or **C** to save the playoff tree. Your spot on the tree is saved until you replace it with another tree. So you can play regular season games or new playoff games without destroying what you've saved.
- Select **Continue Playoffs** from the Scoreboard Menu to return to your spot on the saved playoff tree.

HIGHLIGHTS

You can look at highlights from other games around the league.

At the end of each period you will see the score of an ongoing or completed game in a box below the Scoreboard Menu.

Press **START** to bypass the scores.

You can check the scores around the league at any time by pausing the game and bringing up the Other Scores screen.

If you want to stop a highlight, press **C**. To get back to your game, press **C** again.

INJURIES

Sometimes a player takes a vicious hit and must leave the ice for a period, sometimes even the whole game. The program automatically replaces the player with the one best suited to play his position.

ROSTERS AND RATINGS

The following tables provide rating categories for all the players in *NHL Hockey '94*. The developers used these qualities to define the depth and skill of each individual player in the game. The two All-Star teams are comprised of the best players in the game.

All ratings are reflected in the gameplay.

ALL STARS EAST

Overall Rating:	91
Home Arena:	Madison Square Garden
Home Ice Advantage:	Low
Road Ice Disadvantage:	Low
Power Play:	Strong
Penalty Killing:	Strong

Goalies	Rating
33 Patrick Roy	94

ELECTRONIC ARTS LIMITED WARRANTY

WARRANTY – Electronic Arts warrants to the original purchaser of this Electronic Arts software product that the medium on which this computer program is recorded is free from defects in materials and workmanship for a period of ninety (90) days from the date of purchase. This Electronic Arts software program is sold "as is," without express or implied warranty of any kind, and Electronic Arts is not liable for any losses or damages of any kind resulting from use of this program. Electronic Arts agrees for a period of ninety (90) days to either repair or replace, at its option, free of charge, any Electronic Arts software product, postage paid, with proof of purchase, at the Electronic Arts Warranty Department. This warranty is not applicable to normal wear and tear. This warranty shall not be applicable and shall be void if the defect in the Electronic Arts software product has arisen through abuse, unreasonable use, mistreatment or neglect.

LIMITATIONS – THIS WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES AND NO OTHER REPRESENTATIONS OR CLAIMS OF ANY NATURE SHALL BE BINDING ON OR OBLIGATE ELECTRONIC ARTS. ANY IMPLIED WARRANTIES APPLICABLE TO THIS SOFTWARE PRODUCT, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED TO THE NINETY (90) DAY PERIOD DESCRIBED ABOVE. IN NO EVENT WILL ELECTRONIC ARTS BE LIABLE FOR ANY SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES RESULTING FROM POSSESSION, USE OR MALFUNCTION OF THIS ELECTRONIC ARTS SOFTWARE PRODUCT.

Some states do not allow limitations as to how long an implied warranty lasts and/or exclusions or limitations of incidental or consequential damages so the above limitations and/or exclusions of liability may not apply to you. This warranty gives you specific rights, and you may also have other rights which vary from state to state.

RETURNS AFTER WARRANTY – To replace defective media after the ninety (90) day warranty period has expired, send the original cartridge to Electronic Arts' address below. Enclose a statement of the defect, your name, your return address, and a check or money order for \$20.00.

EA SPORTS™
P R E S E N T S

PGA TOUR® GOLF II
IF IT'S ON THE TOUR,
IT'S IN THE GAME!
Now with 7 courses
and 5 PGA TOUR
tournaments. Plus
the ultimate big
money shootout: a
new skins challenge
you can play on any
course! Includes
more stats, the all new draw and fade
meter, and a battery back-up.

4-WAY PLAY™

Only from EA SPORTS. 4-Way Play lets four players compete at the same time: 2 on 1, 2 on 2, 3 on 1 or 4 against the computer. Perfect for tournament play! Look for these 4-Way Play tournament series products:

Madden NFL® '94
NHL® '94
Bill Walsh College Football™
EA SPORTS Soccer™

EA SPORTS™
P R E S E N T S

BILL WALSH COLLEGE FOOTBALL™

Bill Walsh and EA SPORTS present the definitive college football game. Choose from 48 teams; the top 24 from '92 and the top 24 since '78, scouted by Bill Walsh and his staff. Real college plays like the triple option and rules like the 25 second clock and 2 point conversion speed up game play and enhance the realism of the college atmosphere. Take either the '92 teams or the all time teams to a national play-off tournament and compete with four players at once with the new EA SPORTS 4 Way Play!

EA SPORTS™

BILL WALSH COLLEGE FOOTBALL

EA SPORTS™

Soccer 94

SOCCER

EA SPORTS presents the most realistic soccer game ever created, featuring a revolutionary perspective that allows players to see the field and their teammates while still being close to the action. Over 1800 player animations including bicycle kicks, slide tackles, diving head shots and lunging goalies. Grab three friends and play with the EA SPORTS 4-Way Play. Go 2 on 1, 2 on 2 or 3 on 1 - even go 4 players against the computer.

BULLS VS BLAZERS AND THE NBA® PLAYOFFS™

The #1 Seller updated for the 1992 season. Real teams, real players, real signature moves from all 16 1992 NBA Playoff teams, plus East and West all-stars. NEW—create your own dream teams from the NBA's best players. NEW—Call defensive plays for tougher "D".

TONY LA RUSSA BASEBALL™

Take command of your favorite major league players and lead them through an entire 162 game season of big league baseball. Compile player stats, check league leaders, even select your own All-Star team on your quest to capture

the league pennant under the guidance of the best manager in baseball, Tony La Russa!
