INTRODUCTION

If you longed for more high-speed driving action, your prayers have been answered. Welcome to a world of fast racing, modified street-mean vehicles and incredible carnage.

WELCOME TO BURNOUT™ 2 - POINT OF IMPACT.

Your aim is to race to the finish line through a series of checkpoints as quickly as possible.

Try a full Championship, unlocking modes and vehicles as you blaze over the asphalt trying to live long enough to be the GP prizewinner.

If you've got a bunch of friends with more courage than sense, you've found the ideal partners for our Multi-Player contests. Ram them off the road in Pursuit, compete to cause the most damage in Crash, or simply beat them to the finish line in Single Race Mode.

You're about to show the world the real meaning of road rage but remember: it's only a game... We do not recommend that you try anything you experience while playing Burnout 2 in real life! Keep it on the screen and off the streets!

- **Drift distance** (distance spent sliding around corners)
- **Wrong-side distance** (distance spent travelling at speed on the wrong-side of the road)
- **Number of near misses** (how close you get to other cars at speed without touching them)
- **Distance spent in the air** (distance spent with all four wheels off the ground)

Your skill in these disciplines contributes both to the rate of increase of your Burn Meter™ and your score.

OFFENSIVE DRIVING 101

Learn how to drive "Burnout" 2 style." It's the only "bad driving" license in the world! In six short lessons we'll teach you all you need to know about driving dangerously at high speeds. Get at least a bronze medal in all lessons to unlock more game modes!

CHAMPIONSHIP

In Championship mode, the player races through a series of GP races, unlocking additional Courses and Modes as they progress. New Courses that are unlocked in Championship Mode then become available in other Game Modes.

There are two main Championship seasons – the Standard Championship and the Custom Series Championship.

Championship Progression – Standard Championship.

You race against three computer opponents. You are ranked on a leader board at the end of each race, 3 points for 1st place, 2 points for 2nd place, 1 point for 3rd place and zero for fourth. The player with the most points accumulated at the end of all the races in a GP wins! You must win a GP to unlock the next one in the series.

There are four GP's in the Standard Championship season, including three point to point races.

There are 3 Pursuit Races to unlock in this season.

There are 4 Face Off Races to unlock in this season.

The final race in the Standard Championship is the Custom Series Qualifier. If you complete this event, you will unlock the Custom Series Championship and earn your first Custom Series vehicle.

CUSTOM SERIES CHAMPIONSHIP

Custom Series vehicles are the specialist, modified, tuned-up counterparts of the seven initial standard vehicles. They are race-tuned, each complete with bodykits, decal sets, tuned engines and improved handling. These are the fastest and most furious cars in the game.

Championship Progression – Custom Series Championship

When the Series is unlocked, the player must compete in a new series of GP races. In these races, the player will race against CPU opponents all driving Custom Series vehicles.

There are 4 GP's in the Custom Series Championship.

There are 3 Pursuit Races to unlock in this season.

SINGLE RACE

In Single Race, players can challenge any unlocked courses. Initially only three Courses are available. More Courses become available after they have been unlocked in Championship Mode. Players always race against three other AI drivers in this mode. This is a great way to hone your driving skills before taking on Championship Mode.

TIME ATTACK

In Time Attack Mode, one player can challenge any unlocked Course in a race against the clock. The player will always race alone in this mode. There are no CPU opponents in this mode.

PURSUIT

This mode is unlocked through Standard Championship progression. In this mode, the player must chase a target vehicle and crash it off the road.

CRASH

Smash your car into the traffic to see how much insurance damage you can rack up!

There are three stages unlocked at the start of the game. Score a Bronze Medal at each stage to unlock more stages.

MULTI PLAYER

In Multi player Mode, two players compete on a split screen. Player One uses the controller inserted into Controller Socket 1. Player Two uses the controller inserted into Controller Socket 2

Each player chooses the car they want to drive on the Select Car screen. Once each player has selected the cars they want to race, the Course Selection screen is

displayed. On this screen, Player One will choose which Course is to be raced.

On a standard (4:3) TV, the screen is split showing Player One at the top and Player Two at the bottom. On a widescreen (16:9) TV, the screen is split showing Player One on the left and Player Two on the right.

MULTI PLAYER SINGLE RACE

Two players can race against two CPU opponents. Any course unlocked in single player progression can be raced.

MULTI PLAYER PURSUIT MODE

Once unlocked, two players can race any unlocked vehicle against any unlocked vehicle on any previously unlocked courses. Player One will always drive the pursuit vehicle. Player Two will always drive the target vehicle. If the target gets rammed ten times, the pursuit is over.

MULTI PLAYER CRASH MODE

Challenge up to FOUR players in a Burnout™ 2 Crash Tournament. Each player gets an attempt at causing the most damage in three specially created crash junctions, which can be selected in groups of three from a total of thirty zones.

The player with the highest total score at the end of the tournament wins! Choice of car, speed and angle of approach can make all the difference! Good luck and make sure your seat belt is securely fastened!
