AGES

AFTER BURNER CLIMAX

The enemy country "Z" has exploited its arsenal of nuclear weapons and announced its threat on world power. Beginning with attacks on a weaker neighboring country, "Z" plans an aggressive nuclear weapon launch on larger forces in approximately 48 hours. After failed peace talks, the United Nations has commanded the secret G.H.O.S.T. squadron to stop enemy plans by land, air and sea.

You have recently graduated to the Brave Fangs Aero Team and have been assigned the Jaguar Flight to defeat the rebels of the skies. Your sole mission: to stop an all out nuclear inferno.

Three Cabinet Configurations:

Climax (Super Deluxe) – simulated cockpit with up, down, side to side motion

Commander (Deluxe) – simulated cockpit with side to side motion

Standard – stationary cockpit cabinet

Commander prototype cabinet shown

New Aircraft with Realistic Weapons - Choose from 3 aircrafts, F-14D Super Tomcat, F-15E Strike Eagle, or F/A-18E Super Hornet, with 4 color variations and loaded with Guns and Missiles.

BGM Mode - Increase intensity with in-flight music.

All New Stages - Fly through 20 new stages including Volcanic Islands, an Iceberg Base and Nuclear Arsenal, plus challenging Secret and Extra stages.

Test Reflexes - with sudden Critical Commands and changing enemy patterns.

Climax Mode - Slow enemy motion in Climax Mode, earned by increased speed or mission success.

Super Deluxe Cabinet prototype sketch. Production may vary

Lindbergh's photorealistic air combat animations and depth.
