FLICKY

A CUNNING GAME OF FOWL PLAY!

Help FLICKY rescue the brood as he wings it through a feather-ruffling adventure of close calls. A strategic touch of the button helps Flicky get a jump on the enemy and move to new heights of excitement. And when the cats close in . . . a few flinging flowerpots will see to it they keep their paws to themselves. An exciting game of video pursuit sure to attract a flock of fans!

WHEN THE CHICKS LEAVE THE NEST . . . IT'S FLICKY TO THE RESCUE!

Why Did The Chickens Cross The Road?

Birds of a feather may flock together . . . but *these* baby chicks—PIOPIO—have wandered off alone and could be up to their beaks in danger! Luckily, Flicky is a smart old bird who knows how to save them. Your job is to steer Flicky to the chicks and help guide them safely back home.

Think Fast On Your Feet Before You Get Into A Flap!

Flicky's good deed for the day could be sidetracked by NYANNYAN—a clatter of arch enemy cats who'd like to sink their claws into Flicky and the helpless flock. The chicks are stranded on different levels on the screen . . . and deadly cats are also scattered. Move your 2-way joystick to maneuver Flicky's direction. And to give him an extra boost, push the jump button and Flicky flies up to a new level!

A Bird In The Hand Is Worth Extra Bonus Points!

Now that you've found the chicks, gather up the brood and head back to the roost. But be on the lookout for NYANNYAN. Enemy cats are on the prowl and can't wait to see some feathers fly. But when it comes to survival, Flicky is no dumb cluck. To ward off the felines and defend his pals, Flicky can pick up flowerpots en route and fling them at attacking cats. When the coast is clear . . . head for Flicky's house and count your chickens. The more rescued . . . the higher the score!
