I-WAY

It took 20 years to develop, but The Override Mainframe Supercomputer goes on-line exactly on schedule. Buried deep below a polar ice cap to keep its megafame brain cool, its processing capability goes beyond any technology ever imagined. Before long, society begins to depend completely on The Override to handle the world information network, nicknamed The I-Way.

Override works for years without a glitch. Then, the problems start. Delays. Information transfer slows to a crawl, then stops. Viruses clog the I-Way, blocking information. Mutated databases create more viruses. Programs can't be written fast enough to stop The Override from what seems like inevitable self-destruction. A quick, powerful anti-virus craft must enter the circuits of the I-Way to destroy the mutant databases and information-clogging viruses.

You've been chosen to command the anti-virus tank through the I-Way. Eliminate the problems and pick up special tools and weapons to help you collect the viruses. Destroying the mutant databases and collecting data pods will allow you to destroy their core and stop the viruses from spreading. But, your enemies won't go away easily. They're programmed to attack anything that could impede their growth.

So, choose your tank, strap on your seatbelt and merge onto the I-Way. You are mankind's only hope.

GETTING STARTED

1. Insert your I-WAR cartridge into the cartridge slot of your Jaguar 64-Bit Interactive Multimedia System.
2. Press the Power button.
3. Press the A, B or C button to skip the title screens and briefing.

4. At the Main screen use the Joypad up and down to choose:

Start a new game

Load a saved game

Defense Viewer: Press B, then press the Joypad left and right to view your enemy's strengths and resources

Options: On the Options Control screen, press up or down on the Joypad to:

Configure A, B, and C buttons --
Select, Fire and Special
Difficulty level -- Easy, Medium
or Hard

Main -- Return to the Main screen

5. Choose 1 player or 2 players.
6. Choose the speed, power and protection of your ship: Light, Medium or Heavy. The heavier your tank, the slower it will move, but the shields will be stronger and you'll have increased weapons capability.

Tank configuration, last mission, volume, controls and high-score information are retained in the cartridge even if you have turned off your Jaguar 64-Bit Interactive Multimedia System.

The cartridge will store up to 100,000 changes. After 100,000 changes have been recorded, no more changes will be retained. To clear the currently saved changes, press *, option, and # while on the Control Options screen.

ENCOUNTERING OBJECTS

On each level (node) you will find database pods, powerups and advanced weapons. These will help you attack The Override Mainframe System Defense Forces and mutant databases, increase your energy and provide for more intelligent fire power. Pick up items by driving over them. While collecting, watch out. Enemies are aggressive and are out to get you. So watch out...they can and will do damage to your craft. When your tank's energy level reaches zero, that's it. You're destroyed.

On each level you'll find a Teleporter pad that, when driven over, will transport you to another challenging field. You must collect all of the required data pods in order to enter and attack the mutant database and go on to the next level. After 20 gruelling levels, you have to destroy the boss database by overloading it with viruses and save humankind.

WEAPONS & TOOLS

Found on various levels to assist in your mission

A.I. Drone

Artificial Intelligence droid that assists in attacking the enemy

Auto Targeting

Makes better use of the cross-hair firing for more accurate shooting

Mark 1 Lasers

Basic single shot, your tank is equipped with Mark 1 Lasers automatically

Mark 2 Lasers

Dual shots for more destructive fire power

Shield Unit

Activates shield around tank for a short period of time

Mine Layer

Lay down mines for the enemies to find

Missile Launcher

A limited number used to guide in for the kill

Plasma Cannon

Chargeable amplified proton shot

Radar

Provides a map of the room so you can see where you and your enemies are

Rear Gun

Switch to rear gun to kill enemies from behind

Switches

Some levels have on and off switches. When activated, they'll help you use

Jumpers and Teleporters, open doors, and allow you to find hidden or hard-to-get data pods. Activate these by shooting them to the on and off positions—green is off, red is on. Some switches don't last long, so act quickly. Use these switches whenever possible, because you never know what you'll find!

WARRANTY

Atari warrants to the original purchaser this product to be free from defects in material and workmanship under normal authorized use for a Warranty Period of ninety (90) days from the date of purchase as evidenced by your receipt. Atari will replace the defective software free of charge. After the expiration of the Warranty Period, you assume the entire cost of all necessary servicing, repair or correction.

The warranty is null and void if the cartridge has been opened and/or any parts were removed or if software or any accessories other than those authorized by Atari are used in connection with this product. Warranty does not cover accidental or intended damage or neglect. If the product displays a fault within the warranty period, the user should return it to his place of purchase, who will follow the required procedure to obtain a replacement.

In no event shall Atari be liable for consequential or incidental damages resulting from the breach of any express or implied warranties. Some states do not allow limitations on how long an implied warranty lasts or exclusion of consequential or incidental damages, so the above limitation or exclusion may not apply to you.
