The Cast of Exile

Sadler

The hero of the game. His one wish is that one day mankind's battles for power will end.

Kindi

The huge instructor of all the rebels in Assassi village. He doesn't mince words - if you can understand what he's saying!

Rumi

A beautiful spy of the rebels at Assassi. Fluent in 8 languages, with a host of deadly acrobatic moves and groovy go-go boots.

Fakhyle

The magician lord of Assassi village. His magic staff plays an important role in Sadler's quest.

Encounters

During your quest, you will contact many different characters. Here are a few of the main ones:

Yuug D'Payne

Lord of the Templar Knights and an ally of the Klispins. He has a secret plan, but what are his motives?

Jofre Ryudel

A minstrel of the Katari sect. His diary holds a key to Sadler's quest.

Ninkan

A mystic from the East. Judged as a troublemaker for his radical teachings, he is cast out from his sanctuary and exiled to a labor camp, where Sadler must spring him.

Modes of Play

Exile is a blend of three different play modes: Strategy, RPG, and Action. In order to finish the game, you must successfully master all three modes of play.

Strategy

When you are between cities, plot your next move on the map.

RPG

Collect information from villagers to aid you in your quest.

Action

Hack 'n' slash your way through foes in intense arcade-style action!

RUN Button	Not used.	Not used.	Not used.
Button (I)	Executes map or menu item selected.	Advances text in dialog box. Enters answers to questions.	Makes Sadler jump. When in the air, pressing DOWN + II makes a stab.
Button (II)	Cancels selected command.	Cancels selected command. When in dialog boxes, holding it down speeds text.	Swings Sadler's sword. If magic is selected, this executes magic spell.

Understanding the Status Bars

Both the RPG and Action modes of play have status bars at the bottom of the screen that indicate Sadler's condition. *Understanding what they mean is crucial to success in the game.*

HP Gauge

This indicates the amount of physical strength Sadler has remaining. When the bar is reduced to nothing, Sadler dies.

AP Gauge

This indicates the amount of attacking power Sadler has. The attack power of Sadler increases with each level gained.

MP Gauge

All magic requires energy to work. This gauge represents the amount of Magic Power Sadler has remaining. Some spells may not be usable even though this indicator has MP remaining because not *enough* power is available to use the spell.

AC Gauge

This gauge indicates the protective power of Sadler's armor. As Sadler's level increases, so does his ability to dodge enemy blows. Therefore, his Armor Class (protective power) increases also by gaining a level.

The Command Menu

By pressing [SELECT], you can call up the command menu. The various choices it presents are explained here:

WEAPON

This allows you to select which weapons and armor in Sadler's inventory he uses. On the weapons screen, the weapons and armor currently in use have an asterisk (*) next to them.

MAGIC

This allows you to select a magic spell to use, either immediately (defensive spells), or when Sadler swings his sword (offensive spells). All magic spells require MP and the Magic Stone of Kamuri.

STATUS

Indicates the status of Sadler in exact numeric terms (instead of the picture bars). Indicates HP, MP, Gold, etc..

TONIC

Tonics allow Sadler to regain strength, heal, and become more powerful in battle. To use a tonic, select it with the cursor and press button I.

ITEM

Lists the items Sadler has acquired on his quest.

BACKUP

This option allows you to save your current game position, or load a previously saved position.

MAP

This option is only selectable in the strategy screen. It displays a map that allows you to choose your next destination.

Exile Stage 1

The stages of *Exile* are composed of many different parts. So, in order to complete each stage, a number of areas must be visited. To demonstrate this, here's a walkthrough of stage 1.

Assassi Village

The village of Assassi is Sadler's starting point. Someone has seen a suspicious person in the desert, and fears for the safety of the village. Sadler leaves to check it out, but the gatekeeper won't let him out. Does he need companions?

Desert

Once in the desert, Sadler finds a strange oasis. Upon closer examination, he finds it's actually a trap. The cave below is crawling with insectoid enemies. But, where is the big guy?

Homis Shrine

Sadler goes to Homis Shrine to find out why Yuug D'Payne summoned him. This is really the beginning of Sadler's adventure, for Yuug has more than one trick up his sleeve...or is he even Yuug?

El-in

To get to Homis Shrine, Sadler must clear a path through El-in, stronghold of the Klispins. The commander of the Klispin Crusaders is out for blood upon hearing rumors of a revolt led by his ally Yuug D'Payne...
