Game Experience May Change During Online Pl

### WARNING: READ BEFORE USING YOUR PLAYSTATION®2 COMPUTER ENTERTAINMENT SYSTEM.

A very small percentage of individuals may experience epileptic seizures when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or while playing video games, including games played on the PlayStation 2 console, may induce an epileptic seizure in these individuals. Certain conditions may induce previously undetected epileptic symptoms even in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition, consult your physician prior to playing. If you experience any of the following symptoms while playing a video game — dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions — IMMEDIATELY discontinue use and consult your physician before resuming play.

#### WARNING TO OWNERS OF PROJECTION TELEVISIONS:

Do not connect your PlayStation 2 console to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

#### **USE OF UNAUTHORIZED PRODUCT:**

The use of software or peripherals not authorized by Sony Computer Entertainment America may damage your console and/or invalidate your warranty. Only official or licensed peripherals should be used in the controller ports or memory card slots.

#### HANDLING YOUR PLAYSTATION 2 FORMAT DISC:

- This disc is intended for use only with PlayStation 2 consoles with the NTSC U/C designation.
- Do not bend it, crush it or submerge it in liquids.
- Do not leave it in direct sunlight or near a radiator or other source of heat.
- Be sure to take an occasional rest break during extended play.
- Keep this compact disc clean. Always hold the disc by the edges and keep it in its protective case when not in use. Clean the disc with a lint-free, soft, dry cloth, wiping in straight lines from center to outer edge. Never use solvents or abrasive cleaners.

Thank you for purchasing OutRun 2006: Coast 2 Coast for PlayStation®2 computer entertainment system. Be sure to read this instruction manual thoroughly before you play.

### CONTROLLER

Set up your PlayStation®2 computer entertainment system according to the instructions in its Instruction Manual. Make sure the MAIN POWER switch (located on the back of the console) is turned ON. Press the RESET button. When the power indicator lights up, press the OPEN button and the disc tray will open. Place the *OUTRUN™ 2006 Coast 2 Coast* disc on the disc tray with the label side facing up. Press the OPEN button again and the disc tray will close. Attach game controllers and other peripherals, as appropriate. Follow on-screen instructions and refer to this manual for information on using the software.

#### MEMORY CARD (8MB) (FOR PLAYSTATION®2)

To save game settings and progress, insert a memory card (8MB)(for PlayStation®2) into MEMORY CARD slot 1 of your PlayStation®2 system. You can load saved game data from the same memory card or any memory card (8MB)(for PlayStation®2) containing previously saved games.

#### **PLAYING THROUGH A ROUTER / FIREWALL**

In order to host or join an OutRun2006: Coast 2 Coast Online network game with a router with NAT (Network Address Translation) or through a firewall, you may need to enable PORT FORWARDING. You will need to Forward UDP port 3658 to the IP address assigned to your PlayStation®2 system. Please consult your Router documentation for further details.

You may need to give your PlayStation®2 system a fixed IP address for PORT FORWARDING to work, as the IP address may change if is automatically assigned by your router. Please consult your PlayStation®2 system documentation for further details on how to set a manual IP address.

Connect the DUALSHOCK®2 analog controller to controller port 1 before starting play. When the vibration function is ON, the controller will vibrate in response to game events. You can reconfigure the controls and toggle the vibration function on/off in the Options Menu (See page 12.)

Note: All controls used in this manual are the default controls.

Note: This game cannot be played using the digital controller.

# SCREEN MODE OPTIONS

### CONNECT TO PSP™ (PLAYSTATION®PORTABLE) SYSTEM VIA USB

*OutRun 2006: Coast 2 Coast* supports 60Hz, 480p and Widescreen screen modes. You can select which mode you would like to use via the Options - Screen Mode menu.

NOTE: 480p is only available when using a component video cable.

### LICENSES

Your license is where you will store your current settings and progress through the game. The first time you play the game, you will be asked to create a license. Subsequently, the game automatically loads the last license selected or you can select to load a different license from the License Select screen. You can save multiple licenses, so different players can all save their progress.

# THE LICENSE SELECT SCREEN

On the License Select screen you will be able to use  $\leftarrow$  and  $\rightarrow$  to scroll through all the available licenses. At the end of the list, there will be a blank license which you can select should you need to create any new licenses.

From this screen you can:

#### **SELECT A LICENSE**

This will load in all the settings and progress relating to the license you have selected.

#### **CREATE A LICENSE**

When creating a license you will be asked to enter the following information:

#### ENTER NAME

Pressing the  $\otimes$  button on this option will display the name entry keyboard. Use these characters to enter your name.

#### **SELECT NATIONALITY**

Choose your nationality by highlighting the appropriate flag and press the  $\otimes$  button.

#### SELECT STARSIGN

Highlight your star sign and press the  $\otimes$  button to display it on your license.

#### DONE

Select this option when you are happy with all the information you have entered.

#### **DELETE A LICENSE**

Should you need to delete any of your licenses, choose this option and press the  $\otimes$  button to confirm.

If you own both the PSP™ system and PlayStation®2 versions of the game, you can transfer a license across to the PSP™ system to play on the move!

Once your license is sent, you will notice a Yin-Yang icon on it. You can continue to play the game on either platform, earning miles and unlocking content. At any point you can then merge the licenses, selecting to send your miles to or from the PSP™ system.

Special bonus content can also be unlocked via this method!

To use this option first ensure you have a memory card (8MB) (for PlayStation®2) in the PlayStation®2 MEMORY CARD slot 1, and a Memory Stick Duo™ inserted in the PSP™ system.

Connect your PSP<sup>™</sup> system to your PlayStation®2 USB connector with a USB cable. Select the 'USB Link-up' on the both systems. Once connected, all operations are conducted via the PlayStation®2.

If you've not yet transferred a license, pick the license you wish to copy across. You can tell if a license is on the PlayStation®2 or PSP™ system by an icon in the lower right corner of the license. Licenses may be copied in either direction.

Once a license has been copied, it will have a Yin-Yang symbol. While connected you can then choose to merge the progress on these licenses, while transferring all miles to either the PlayStation®2, or PSP™ system.

Once you have finished transferring or merging licenses, you can exit the connection by pressing the button on the DUALSHOCK2 analog controller for PlayStation2.

### **ONLINE OUTRUN**

#### TAKE OUTRUN BEYOND THE BOX

Online *OutRun* is a high-speed or broadband Internet gaming community where you can create a permanent gamer identity, setup a Friends List with other players, see when they're online and invite them to play.

#### **CONNECTING ONLINE**

In order to play *OutRun 2006: Coast 2 Coast* online or via the LAN, you will need to have a network adaptor (Ethernet/modem) (for PlayStation®2) connected to your PlayStation®2) and a network configuration file saved to the memory card (8MB) (for PlayStation®2). For online play you will also require a broadband internet connection and a network configuration file saved to the memory card (8MB) (for PlayStation®2). You can use the network adaptor start-up disc that came with your network adaptor (Ethernet/modem) (for PlayStation®2) to setup your network connection. Please refer to the instructions that came with your network adaptor start-up disc.

### DRIFTING

As you approach a sharp corner, take your foot off the gas and immediately press the brake. Now, quickly steer sharply into the turn and push the gas again. Use  $\leftarrow$  and  $\rightarrow$  to tame the drift.

When using Manual transmission, shift down a gear just before the turn, then immediately steer sharply, reselecting the higher gear when required.

#### SWITCHING DRIFT DIRECTION

Sometimes, you'll have to steer while you're in the middle of a power slide. To do this, steer in the opposite direction while drifting, then release and push the gas again.

#### OTHER TIPS

Drifting is not always the quickest way to get around a corner. Instead, try slowing down and taking a better line. This is not always the answer, but sometimes it can be beneficial.

Avoid crashing! Not only will collisions annoy your driving companion but they will also slow you down!
