

BATALYX

by Jeff Minter

A mighty Empire. A darkened Galaxy. Thus was the situation with the combined might of the Irata/Zzyaxian empire enslaving sentient life across known space. Barely a free world glimmered in that evil night. Not many—but to those that believed, enough...

BATALYX is a game system. That is, a collection of six sub-games linked in such a way that the player can, at any time, jump from one game to another. The aim of the player is to do the best he can within each subgame, adding to a common score held between all the games.
