# WELCOME

## CAY NOIR, ISLE OF THE DEAD

The tropical island of *Cay Noir* was once populated by a mysterious race with an advanced knowledge of the processes of Life and Death. The ruins of their villages bear mute testimony to the ancient science that still may be tapped deep in the volcanic caves of the island. Dr. Hellman's breakthrough in resurrecting the dead relied on just such knowledge.

► *Map of Island*

The walled city known facetiously as *Zombietown* is what still remains of the lost race's largest village. Hellman's minions have converted it to their use and it's swarming with bloodthirsty corpses. The critical battle locations in Zombietown are the *entrance gate*, the *swamp*, the *village*, and the magnificent *fortress*, a most difficult 3-part siege to be undertaken only when fully prepared.

The *Graveyard* is your home base. If you don't protect it, zombies will come to raise the dead. The more they raise, the less likely your chances of surviving and getting to Hellman.

There are other locations on the island which will be useful for gathering information and inventory. Go when you feel the need, but watch out for renegade zombies.

**To:** Capt. Daniel Cooper, Spl. Forces

**MESSAGE:** Proceed with strike force to Cay Noir matrix Delta drop zone and commence operation. Search and destroy belligerents, fire at will.

Locate and neutralize Dr. Elgin Hellman. Air strike will proceed at successful conclusion. Anticipate significant and protracted resistance. Enlist aid of locals against hostiles if necessary.

Like yourself, each of your men is supplied with a datapod access card programmed with unique and specific reference and strategic information. Everything you need to know is on those cards, which will be activated upon your arrival.

On a personal note, Danny, don't get peeved about that new Lieutenant I've assigned you. He kicked Saddam's butt all over the place in Desert Storm and he's got that guts-and-glory Special Forces look in his eyes. You need this guy, Danny. If you fail, God help us all. Signed off com: Maj. General Harlan Skowcroft, J.M.C.

# INVENTORY

**ARMOR-PIERCING (AP) BULLETS** can be found throughout the island. Packets of these bullets were air-dropped with you and may be located via your Datapod. AP bullets are more powerful than normal bullets, but supplies are limited.

**DATURA** is a native plant from which Winston concocts special potions. You can choose to have Winston coat your bullets with powerful zombie-killing potion or make you an antidote that will temporarily restore your health. The choice is up to you, so choose the strategy best suited to your needs.

**DATURA-COATED BULLETS** are much more effective against zombies than regular bullets or AP bullets. Use them when you're in trouble and make sure you save an ample supply for battle with your zombie buddies in the fortress.

**HANJA ROOT** is a Datura power enhancer. It further increases the bullet potency.

A **JU - JU STICK** gives you special shielding powers against the onslaught of the Black Magic Men. Ju-Ju sticks protect from the bite of Reapers, Strawmen, and your zombie-ized Special Forces buddies—the screen flashes yellow when a Ju-Ju stick has been used for protection. Ju-Jus are used automatically, as their magic wards off the evil spirits.

**BABA KOO MANBONES** are found around the island. Winston throws them for mystical interpretation. Listen to his advice.

# PAUSE & BATTLE

## BRIEFING

### *Pause*

You can pause the action at any point by pressing the Start Button.

Return to the game by pressing START again.

### *Battle Briefing*

POP-UP SLINGERS exist in all appropriate battlescreens. Hit them early before they can launch their deadly payload of *skulls*, *spiked balls*, *knives* and *grenades*. These objects can also be fired at. If hit, they'll deflect safely away.

HUGE POP-UP ZOMBIES may attack at any time. You can only stop them with *armor-piercing bullets*.

# MAIN CHARACTERS

## *You're The Lieutenant.*

Be all that you can be !

**WINSTON** is a Rastafarian fortune hunter who came to Cay Noir in search of buried treasure. He plans to use it to fulfill his fantasy and buy a Hummer all-terrain vehicle. Well-versed in the rites of Voodoo.

**JULIE** is a struggling journalist. She stumbled across the shocking "Project Manpower" in Washington, and the sordid trail of rumor and innuendo has led her to Cay Noir. Nothing will stand in her way as she stalks the story of a lifetime.

**NECROBIOLOGIST DR. ELGIN R. HELLMAN** headed a top-secret Pentagon research team exploring the controversial fields of near-death experience, cryogenics, vampirism, ethnobiology and morphology. He disappeared from public life when he was drummed out of the Pentagon a few years ago...

**MAGLIANO,**

**FLEMING,**

**DUFFY**

These are the members of your Special Forces strike team..

led by...

**THE CAPTAIN,** Danny Cooper, DSC (Distinguished Service Cross), CMO (Congressional Medal of Honor). One tough S.O.B.

## *The Zombies*

**DED BOYZ** - Street gang famous for their murderous assaults on rival gangs and hapless tourists alike.

**CULT KILLERS** - Crazy hippies who made the front pages with their lurid, ritualistic killing sprees.

**ELECTROPOSSE** - Electrocuted mass murderers whose deeds forever infamized Texas towers, post offices, subway cars and fast food restaurants.

**SERIAL KILLERS** - They could be "the guy next door." Their pleasant demeanors mask an unquenchable thirst for cold, calculated killing...one victim at a time.

**MERCENARIES** - Former Death Squad members, these are the most disciplined of the gangs. Hellman's elite forces.

**RENEGADES** - These unaffiliated derelict dead dudes roam around and may attack at any time. Watch out!

## *Black Magic Men*

**THE SHADOWMEN:** They are shadows that walk just like one of the on-screen zombies. The Shadowmen oscillate between white (Good force) and black (Evil) so you

want to shoot them while they're white. If you shoot a Shadowman while white, he will implode and suck up all the Black Magic around him, destroying any zombies within range. If you shoot a Shadowman while he is black, you will lose health. Shadowmen cause the screen to flash red when hit as dark Shadowmen, blue when light. If shot while transitioning between Good and Evil (gray), the Shadowman will simply die without further effect.

**BLACK MAGIC STRAWMEN:** Wild death totems with Black Magic power. If you shoot a Black Magic Strawman with an uncoated bullet (regular or AP), you lose significant health. If shot with a Datura-coated bullet, he dies like a zombie. If you miss and he bites you while you're in possession of a Ju-Ju Stick, you're left unharmed. If you don't have a Ju-Ju Stick, you lose significant health.

**REAPERS:** Exotic Black Magic zombies with mud-encased heads. A Ju-Ju Stick will help protect you from Reapers.
