STARTING UP: USING THE SEGA SATURN

1. Set up your Sega Saturn system by following the instructions in the Sega Saturn Instruction Manual. Plug in Control Pad 1.

Note: *Legend Of Oasis* is for one player.

2. Place the *Legend Of Oasis* disc, label side up, in the well of the CD tray and close the lid.
3. Turn on the TV or monitor and the Sega Saturn. The Sega Saturn logo appears on screen. If nothing appears, turn the system off and make sure it is set up correctly before turning it on again.
4. If you wish to stop a game in progress and return to the on-screen Control panel, simultaneously press Buttons A, B, C and Start on the Sega Saturn Control Pad. When the game Title screen appears press again to go to the on-screen Control panel.

Important: Your Sega Saturn compact disc contains a security code that allows the disc to be read. Be sure to keep the disc clean and handle it carefully. If your Sega Saturn system has trouble reading the disc, remove the disc and wipe it carefully, starting from the center of the disc and wiping straight out toward the edge.

THE NEXT SPIRIT KING

Leon lives in Oasis, tutored by his foster father Ordan. These days there is not much use for the warrior arts, as Oasis is a land of peace. But Ordan remembers stories of the Ancient time, the time of Reharl and Agito, when all of Oasis was locked in a struggle against evil.

The ancient armlets of gold and silver represent Knowledge and Will. The armlet of gold was held by Reharl, and the armlet of silver was held by Agito. Reharl and Agito battled for many years, in a massive struggle for sovereignty over Oasis.

There is a saying in Oasis that "Nothing lives long but the earth and sky" and Ordan knows that in the life of any person, change is inevitable. And now, his fears for the future of Oasis have become all the greater. Ordan has discovered the Golden Armlet which Reharl used to defeat Agito. And if the

Golden Armlet has been rediscovered, it means the Silver Armlet has too. The war of good and evil never ends, and the next battle begins now....

ADVENTURE SCREENS

MAIN GAME SCREEN

Weapon: The weapon you're currently equipped with.

Magical Power Remaining: This shows the remaining number of Magical charges the weapon currently has (if any).

Keys: The number of Keys you're currently carrying.

Bombs: The number of Bombs you're currently carrying.

Spirit Eye: This indicator has three purposes. If the Eye is open, it means a Spirit is currently travelling with you. If the Eye is flashing, it means your Magic Points (MP) are running low, and if you are preparing to use the Spirit's strongest attack, flashing quickly means the Elemental Spirit is ready to unleash the attack.

Health Monitor: If your Hit Points (HP) fall below half, this indicator begins to flash. The faster it flashes, the lower your HP.

HP Bar: This bar shows the amount of HP you have remaining, indicated in red. As you lose HP, the bar gets shorter. When there is only a small red area to the left, and the Health monitor is flashing quickly, it's time to retreat and recuperate!

MP Bar: This bar shows the amount of MP you have remaining, indicated in blue. As you lose MP, the bar gets shorter. When there is only a small red area to the left, and the Magic Eye is flashing quickly, your Elemental Spirit is about to return to the Spirit realm, and you won't be able to call any Spirit until you restore some of the MP.

Elixirs Held: This area displays the type of Elixir you're currently carrying - if any. (See page 21 for more information on Elixirs.)

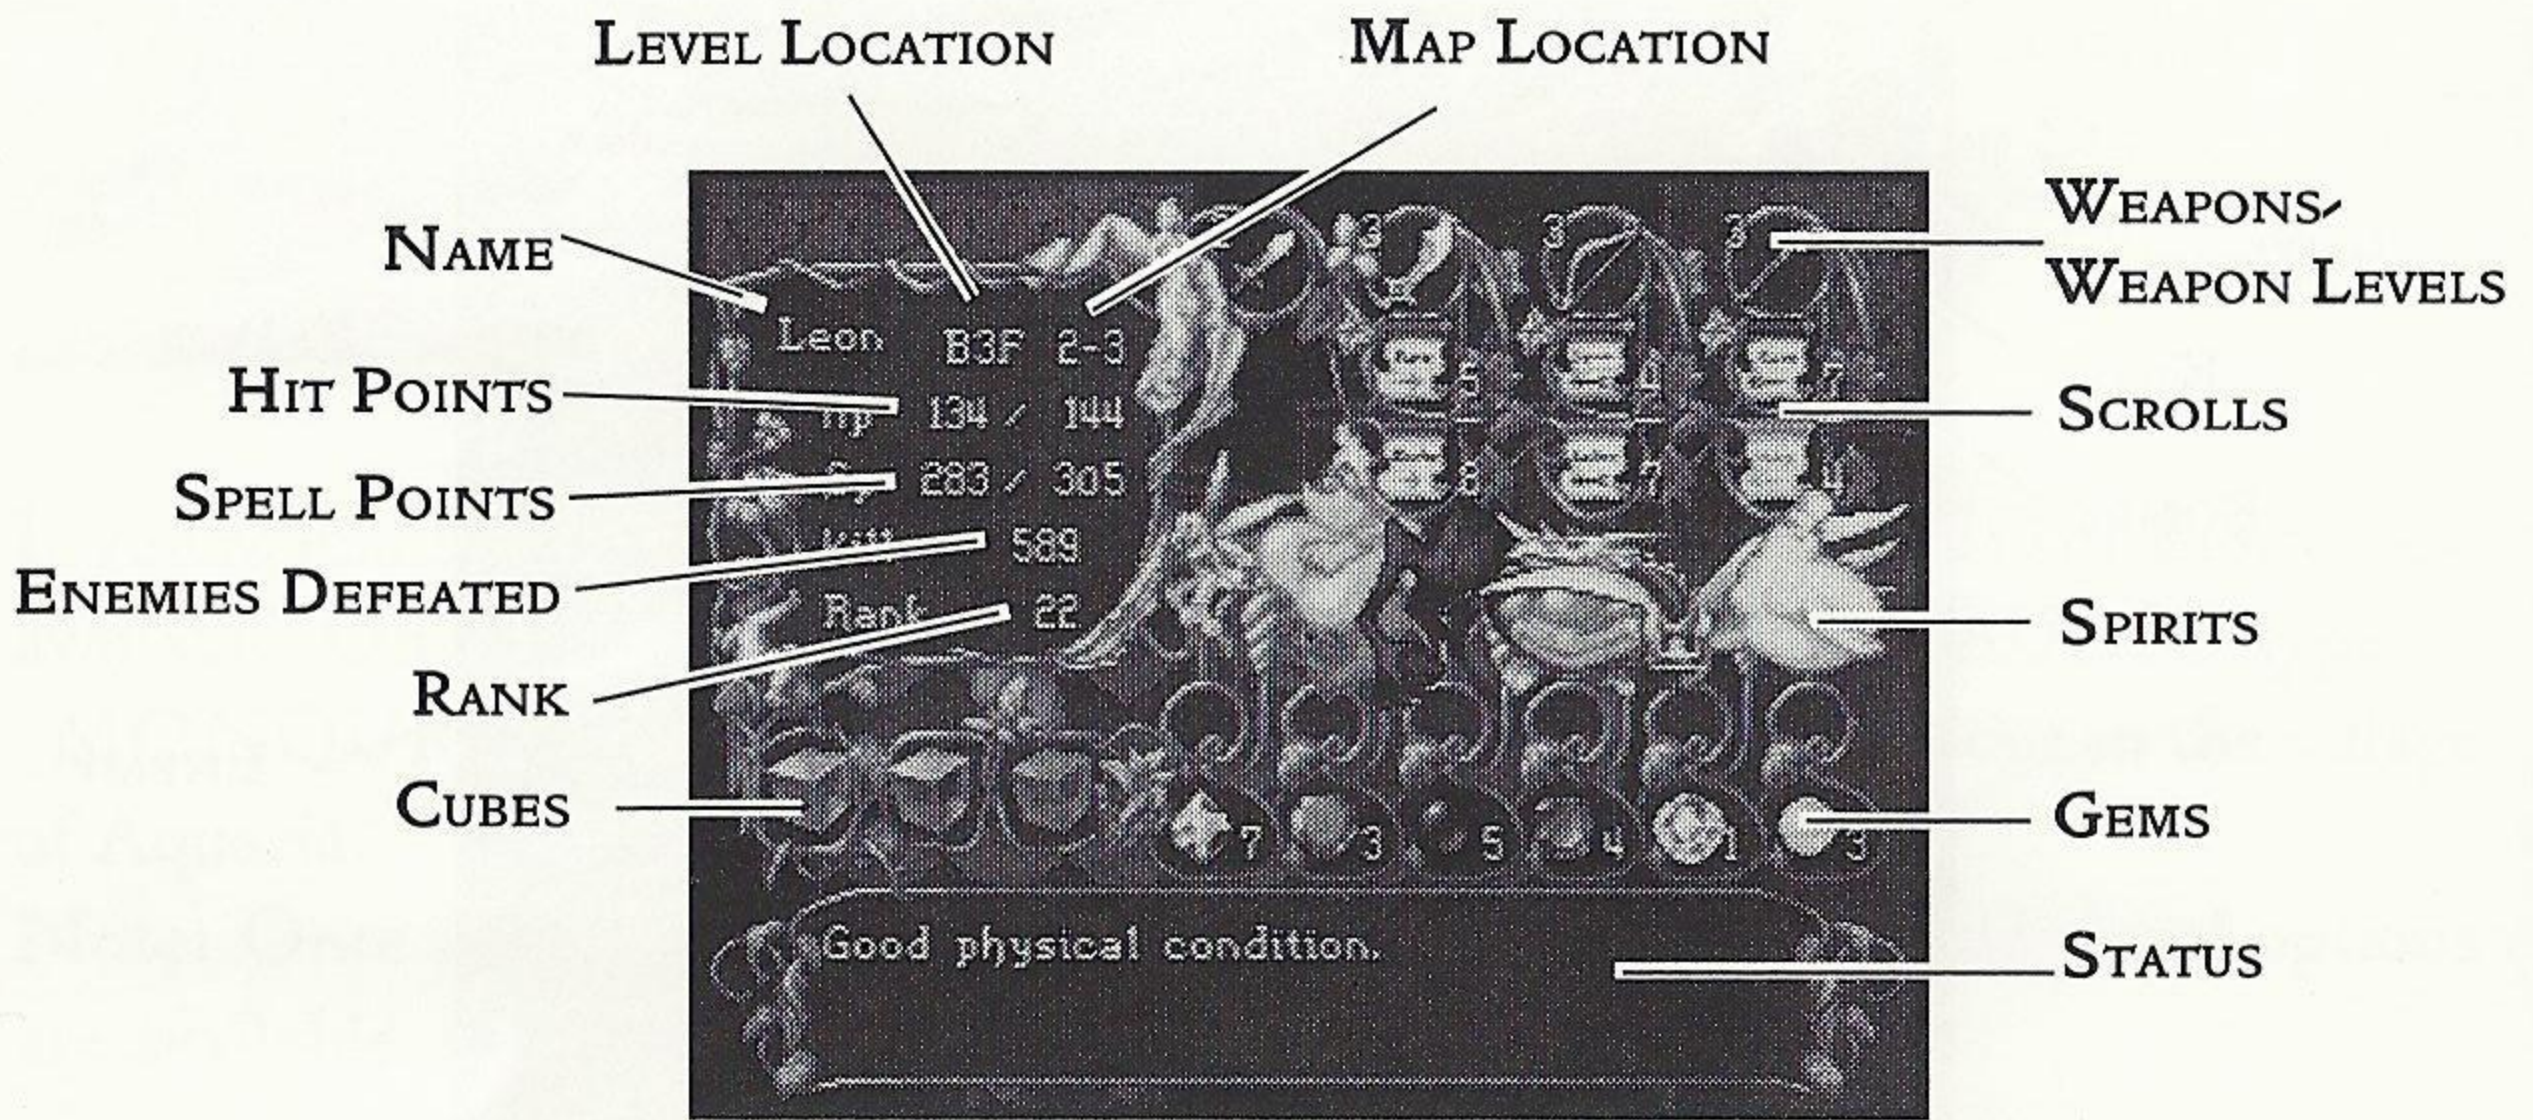

Player: Leon, and the weapon currently equipped. A flashing area around Leon indicates his weapon currently has magical power.

Spirit: The Elemental Spirit currently travelling with Leon.

Enemy: One of the many creatures terrorizing Oasis.

STATS SCREEN

In the Stats screen all information about your current location, health level, special items you're carrying etc., is displayed.

Name: Leon!

Level Location: Your position relative to ground level (underground, in the air, etc.)

Map Location: Which area of Oasis you're currently located.

Hit Points: The number of current HP/ maximum number of HP.

Spell Points: The number of current MP/ maximum number of MP.

Enemies Defeated: The total number of enemies you've defeated so far. This score determines your "Kills" record.

Rank: Your current ability ranking. The higher your ranking, the greater your total number of HP. However the top scores (see page 21) are determined by four factors, and a low ranking is one of them.

Weapons/Weapon Levels: This section of the screen shows the weapons you are currently carrying, and each weapon's level of ability.

Scrolls: These magical scrolls have two functions. In order to be able to empower your weapon with a certain type of magical power, you need at least one of these scrolls. As you gain scrolls, the number of times you can use the magical weapon increases.

Spirits: The Elemental Spirits you've gained are shown in this section.

Cubes: The Cubes you've come across on your journey are displayed here.

Status: This section displays your current condition, and special conditions (size up, power up, etc.) when appropriate.

ELEMENTAL SPIRITS

In ancient times, Reharl used the power of the Spirits to defeat Agito. As the next Spirit King, you need to make allies of the Spirits as well. Each Spirit resides in a shrine, and each shrine is well hidden in Oasis. Your journey takes you through many lands and hazards, but without the spirits, you will not be able to defeat Agito.

After you pass through the Power Ball, you glow with Spirit energy. The glow lasts as long as your weapon is magically empowered.

REHARL STATUES

Once you learn to use your Golden Armlet, the Spirit Ball energy will allow you to hear the wisdom and advice of Reharl himself. Face the statue and press Button A to fire the Spirit Ball, and the Statue begins to glow. Walk up to the statue and press Button B to hear Reharl's advice.

KING OF THE HILL

When you make it through the Adventure, you are asked to enter your name. Enter up to three initials as follows: Move the highlight box to the first character and press Button A or C to enter it. Repeat for the last two characters. If you make a mistake, press Button B to delete the character.

When you want to view your ranking, open the Title Options screen, move the arrow to OPTION with the D-Pad and press Button A or C to open the Option screen. In the Option screen, move the arrow to RANKING with the D-Pad and press Button A or C to open the Ranking screen.

There are four areas in which you may be called the best of the Spirit Kings: TIME (those who made it through the adventure the fastest) RANK (those who made it through the adventure with the least experience), KILLS (those who made it through the adventure defeating the most enemies), and ITEM (those who made it through the adventure having found the most items).

ADVICE FOR THE SPIRIT KING

Making your way through the lands of Oasis is a perilous task. Keep your eyes open for hints, clues and items which may make the journey a little easier.

- The mysteries of Oasis abound, and your Miracle Rod can help unlock some of them. For example: you have heard of the six Spirits. There may be another! You have heard that dead men tell no tales. This is not true. You just have to know how to ask.
- Special herbs show you what is unseen, while others gain you access to places otherwise inaccessible.
- Don't be afraid to journey to places where nothing seems to be. Hidden treasures await the brave of heart.
