WARNING: READ BEFORE USING YOUR SEGA VIDEO GAME SYSTEM.

A very small percentage of individuals may experience epileptic seizures when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or while playing video games may induce an epileptic seizure in these individuals. Certain conditions may induce previously undetected epileptic symptoms even in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition, consult your physician prior to playing. If you experience any of the following symptoms while playing a video game – dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions – IMMEDIATELY discontinue use and consult your physician before resuming play.

HANDLING YOUR SEGA SATURN® COMPACT DISC

- ▶ The Sega Saturn disc is intended for use exclusively with the Sega Saturn® system.

- ▶ Do not bend it, crush it, or submerge it in liquids.

- ▶ Do not leave it in direct sunlight or near a radiator or other source of heat.

- ▶ Be sure to take an occassional recess during extended play, to rest yourself and the Sega Saturn® compact disc.

- ▶ Keep your Sega Saturn® compact disc clean. Always hold by the edges and keep it in its case when not in use. Clean with a lint-free, soft dry cloth – wiping in straight lines from center to edge. Never use solvents or abrasive cleaners.

LEGAL BLURB

The bike wrecks portrayed in this video game would really hurt, probably cause a serious set of broken or torn body parts, and possibly kill you if they happened in real life. Courier Crisis is a game designed to give you the opportunity to do things that you CAN'T DO in real life. Get it?

The city is a DANGEROUS place to ride a bike. Bike tricks are cool. If you wanna fly thru the air on your bike, do it But start out small, with bunny hops over curbs and stuff. In other words, do this at home (bike tricks) but practice first.

Dis'n the cops. Running over peds. That just doesn't fly in real life. This is a GAME! Get it?

EMPLOYMENT CONTRACT

As a bike Courier, your job is to pick up and deliver packages in a timely manner. Start by looking for the guy with the package, and pick it up by riding up to him. You can tell which one he is by the pickup icon (a giant yellow arrow) over his head.
Once you have the package in your sweaty hands, you need to find the drop off guy. He's easy to spot - just look for the giant dollar sign above his head. Ride by him to drop off the package and collect the green.

Each delivery mission is paid only on timely completion. If you finish when your timer's in the green, you get paid full price. Yellow gets you 75% of the full amount, and red gets you 50%. If you can't get the job done before the red's out, you're fired. At that point your time's your own. Do what you want.

DEFAULT CONTROL SUMMARY

You can select alternative control configurations from the Controller Options Screen by selecting the controller icon from the Main Menu, and pressing D-Pad LEFT or RIGHT. The table below shows the default configuration (Configuration A).

PEDAL: A (Double tap for speed burst)

BUNNY HOP: B (Hold down to charge up your bunny hop power; release to jump)

BRAKE: C (Double tap to lock up your brakes for maximum stopping power)

TURN LEFT: D-PAD LEFT

TURN RIGHT: D-PAD RIGHT

SHARP TURN: Z + D-PAD LEFT or RIGHT

WHEELIE: X - Ride wheelies over cars.

PUNCH LEFT: LEFT SHOULDER

PUNCH RIGHT: RIGHT SHOULDER

KICK LEFT: Y + LEFT SHOULDER

KICK RIGHT: Y + RIGHT SHOULDER

RUDE GESTURE: Z + RIGHT SHOULDER or X + LEFT SHOULDER.
Use this to express your feelings. Watch out the cops hate it!

MAIN MENU

The Main Menu offers the following five options. Use D-Pad LEFT/RIGHT to highlight an option. Then use the C BUTTON to select it.

GO: Select this to go to the 'hood selector screen.

See 'Hood Selector, below, for more information on the different neighborhoods.

GT BIKE SHOP: Select this to go to the GT bike shop.

Price: $3325
Cashflow: $320

You can go to the Bike Shop any time the Main Menu is available to you. Once there, you can trade your bike in on a different model. You get full trade-in value on your present bike, so all you have to do is come up with the difference. The cashflow figure tells you the combined value of your trade-in and your available cash.
AUDIO & MUSIC

OPTIONS: Select this to adjust the audio
mix & select music style.

Press D-Pad LEFT and RIGHT to move between the
different options, and press D-Pad UP or DOWN
to raise or lower the volume or to choose a
different musical selection.

MEMORY CHIP: Select this to LOAD/SAVE a game or view credits.

You can save your game onto a memory cartridge or the system memory, so you can stop for some of life's little necessities, such as eating, sleeping or pulling the scabs off your new tattoo. You can save your game at the end of a mission. Press the B button to return to the Main Menu. Next, select the memory chip icon to bring up the Save Game screen and follow the onscreen instructions to save your game. If you do not have a memory cartridge, or your system memory is full, you can use the password (always displayed on the LOAD/SAVE screen) to resume where you left off. Write the password down (do we really have to tell you that?) so you can enter it when it's time to start playing again. Cycle through the letters by using the D-Pad, and press the C BUTTON to select.

Save ➤

To load a saved game, select the memory chip icon from the Main Menu. Saved games are named according to the level achieved. For example, if you finished Level 2 and saved your game, that game would appear as "Level 2" in the Load Game screen.

CONTROLLER OPTIONS: Select this to change the default button configuration.

Follow the on-screen instructions to select one of the alternative keypad configurations.

7

'HOOD SELECTOR
(City Area Selector)

Select the City Area for your next set of delivery
missions. If an area has police tape over the icon,
then it's closed for that level. If there is a
thumbs up icon over the graphic then you've already
successfully played that mission. (You can still
replay it for a better time and more money. See
Restarting a Level later in this manual). You must
complete all the areas in order to progress to a new
level. If you want to do a few practice runs, press
Z + RIGHT SHOULDER to go into the practice level.
To go back to the Main Menu, press the B BUTTON.

CIVIC CENTER: The financial district, the hub of the city. Lots of hills and secret alleyways. Watch out for the cabs, they couldn't care less if they run you down.

CHINA TOWN: Lots of crazy hills, and narrow streets. The maneuverability of a BMX bike is usually best for this area.

WATERFRONT: Watch out for the sheriffs in this beach town - they don't care for your type. There are a lot of fast wide open streets here so the fastest mountain bike you can afford would serve you best. The mongrel beach dogs are killers. Use your kick to whack 'em, or bunny hop over an oncoming car; they'll become grill work in no time.

SKID ROW: This is a BAD part of town. Drive-by shootings take out peds constantly. Vicious packs of junkyard dogs rove the streets. Get in and out as fast as you can. Don't forget the Air 360° time power up for higher levels. It's crucial.
INDUSTRIAL ZONE: Massive radioactive chemical spills in the '80's made this area a little weird. Not to mention the secret Army experiments in the '50's, some say they've been doing DNA experiments with aliens and house cats. Don't play with the fire, you'll burn your fingers.

RESTARTING A LEVEL

You can restart a level from the following menus.
Press **START** at any time during gameplay (or if you've been Fired) to get this menu. Press the C button to restart the level.

If you've been busted or you've wrecked out, you can restart the level by pressing the Start button, then use the Restart option from the Pause Menu, (the C Button).
If you totally thrashed your bike you get this menu.

By selecting Restart you can start the mission afresh without waiting for the game to reload. By selecting Quit you return to the 'Hood Selector, where you can press B BUTTON to go to the Main Menu. From there you can go to the bike shop to buy a different bike, save or load a game, or change your game options.

INGAME SCREEN

The following screen is typical of the screens you will encounter as you play the game. (Hint: it's actually much more fun to play the game than to stare at this screen, but hey, whatever gets you off).

RIDING STYLES

GOIN' FOR SPEED:

You gotta have speed to be a successful courier.
Use the Pedal Button at every opportunity. Too much
speed and you won't be able to hold the bike through
the corners, or you'll come up short on the turn and
pile into the nearest wall.

Use the brakes to scrub off speed before a turn.
Double tapping the Brake Button will lock up the rear
wheel for extra braking power.

BOUNCING:

Bouncing is a technique used by trials bike riders
like Hans Rey. In this technique the rider actually
bounces his bike up and down, making minor adjustments
in order to keep his balance. You can use this method
to hop over or on large objects without having to
catch air off a ramp.

In Courier Crisis, if you're stationary (stopped),
you can hold the Bunny Hop button to charge up for a
bounce hop. The more you bounce the higher you can
go. The length of the Bunny Hop meter also affects
your jump height. If you hold the button too long, and
the hop meter maxes out, you'll lose your balance.
When jumping off ramps, release the bunny hop button
right as you leave the ramp for maximum air time.

PULL'N TRICKS

It is essential to pull tricks at every opportunity. Not only for style's sake but also to earn critical game play power ups. Each trick has an associated power up. For instance, an Air 360° will take time off the mission clock. Indispensable!
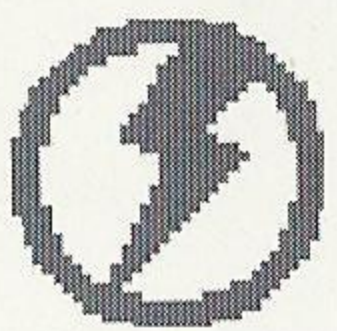

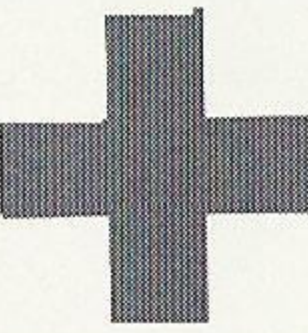

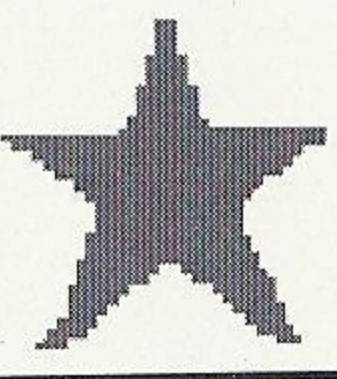

Power Up	Trick to Get Power Up	What it Does	How to Use it
⚡	Table Top	Adds speed burst	Double tap Pedal button
⏱	Air 360°	Decreases mission clock	Immediate
✚	Cross Up	Adds links back to chain (restores bike health)	Immediate
★	Back Flip	Confuses cops for 20 seconds while star blinks beneath mission clock	Immediate
🐰	Spread Eagle	Immediate bunny hop height (no wait for charge up)	Double tap Bunny Hop button

TABLE TOP: D-PAD-UP & LEFT SHOULDER
(D-PAD-UP & RIGHT SHOULDER for backside)

This gives you a speed burst power up. Double tap the
Pedal Button to get an extra burst of pedaling power!

AIR 360°: D-PAD-DOWN & X BUTTON
(D-PAD-DOWN & Z BUTTON for counter-clockwise)

The Air 360° takes crucial seconds off of the mission clock. By
holding the trick buttons you can continue to rotate. A 720° or
greater will take even more time off the clock. You start each
mission with 3 clocks, once those are used up 360's no longer
have an effect on the mission timer (could there be secret ramps
that re-up your clocks???).

CROSS UP: D-PAD-DOWN & LEFT SHOULDER
(D-PAD-DOWN & RIGHT SHOULDER for backside)

Health Power Up: This puts links back on your chain,
or fixes damage on your bike.
SPREAD EAGLE: D-PAD-UP & Y BUTTON

The Spread Eagle will give you Double-Bunny power ups. When a
blue bunny power up icon is displayed on the upper left of the
screen, you can double tap the Bunny Hop button to get an imme-
diate full height bunny hop without waiting for the Bunny Hop
meter to charge.

BACK FLIP: D-PAD-DOWN & Y BUTTON

The Back Flip will temporarily confuse the cops.
This is an easy way to make the cops dumber than they already
are! This has no effect if the cops aren't on your tail.
AIR TIME:

You can hold The Cross Up, Spread Eagle, and Table Top for
as long as you hold the trick combo buttons. This not only
lets you project ultimate expression and style but holding
the trick long enough allows you to get a full supply of
the trick's corresponding power up.

14

MISSION REPLAY

You can replay a mission that you've already fin-
ished to get a better time and more money. If you
replay and get a worse time, you're stuck with the
results from your last attempt.

PLAY IT WITH STYLE

Ya gotta have style. If there's a car in your
way, Wheelie over it instead of dodging around
it. Better yet, bunny hop the whole thing and
pull a trick so you can keep all your power ups
charged up to the max. Besides looking way
cooler, using your power ups will greatly reduce
your time through missions, allowing you to buy
way better bikes sooner.

DIS THA POLICE

Give the cops the fist shake (rude gesture). While
this may irritate them, their sirens clear the
streets of other traffic, making hi-speed a little
less dangerous. Use the backflip to confuse the
cops if they're on your tail.

Technical Support (U.S. & Canada)

Assistance Via World Wide Web

Get up-to-the-minute technical information at the GT Interactive Software web-site, at http://www.gtisonline.com, twenty-four hours a day, seven days a week. Through this site you'll have access to our FAQ documents, (Frequently Asked Questions) which contain our latest product information. You'll have access to our Hints/Cheat Codes area where you can pick up some tips if they're available, an e-mail area where you can leave us your tech support problems and questions, and other areas where you can get valuable information on GT Interactive Software products.

Help Via Telephone In The United States & Canada

For phone assistance, call GT Interactive Software's Tech Support at 970-522-1797. We have an Interactive Voice Response and Faxback system that is available twenty-four hours a day, seven days a week. This console-based product will have automated support ONLY at this phone number, which will include information from our FAQ documents such as gameplay tips, information on Control Keys, possible cheat code combination keys, instructions for finding secret screens and/or additional game levels if these type items exist and are made available for this particular product.

If you encounter what may be determined to be a defective product medium issue such as your game freezing at the beginning or during gameplay, no display, etc., information will also be included on the automated system regarding your product return and replacement options. These are described further below.

Product Return Procedures In The United States & Canada

If you encounter what may be determined to be a defective product medium issue such as those mentioned above, you must call GT Interactive Software's Customer Services number at 888-229-0569. We are available Monday through Friday, 8:00 AM until 5:00 PM (PST). If our technicians cannot pick up your call directly, please leave your complete name and phone number clearly so that we can call you back promptly. No other support services will be available through this number.

In the event our technicians at 888-229-0569 determine that you will need to forward materials directly to us, they will issue you a Return Merchandise Authorization Number. Make sure you include the Return Merchandise Authorization Number supplied you by the technician along with your full name, address and your telephone number within your return in case we need to call you. Any materials not containing this RMA# will be returned to you unprocessed. Your mail should be sent to the following address:

GT Interactive Software Corp.
Attn: Customer Service
