**WARNING: READ BEFORE USING YOUR PlayStation™ GAME CONSOLE.**

A very small percentage of individuals may experience epileptic seizures when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or while playing video games, including games played on the PlayStation game console, may induce an epileptic seizure in these individuals. Certain conditions may induce previously undetected epileptic symptoms even in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition, consult your physician prior to playing. If you experience any of the following symptoms while playing a video game — dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or ear sounds — IMMEDIATELY discontinue use and consult your physician before resuming play.

**WARNING TO OWNERS OF PROJECTION TELEVISIONS:**

Do not connect your PlayStation game console to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

**HANDLING YOUR PlayStation™ DISC**

- This compact disc is intended for use only with the PlayStation™ game console.
- Do not bend it, crush it or submerge it in liquid.
- Do not leave it in direct sunlight or near a radiator or other source of heat.
- Be sure to take an occasional rest break during extended use.
- Keep this compact disc clean. Always hold the disc by the edges and keep it in its protective case when not in use. Clean the disc with a soft, dry cloth, wiping in straight lines from center to outer edge. Never use solvents or abrasives cleaners.

future world

It's full houses. A pin drops. A man falls.

Gravity is the glue which binds us to our planet.

We are about to apply the solvent which will free our species forever.

Flora Belmonte (Director of European AG Research)

speaking at a demonstration of anti-gravity technology, Nevada, April 2005.

the year 7 now?

No time for mistakes. The world is shrinking... like a coin from a glass.

From East to West. From North to South... crossing your shadow and the coils of your mind before you even know you'd fall. Landscapes melting through space. Trees from rock, out from ice. Ships like the the masses of melted paint. Tackling the globe, soundtrack your dreams and your visions.

Never dwell on past days. Leave those deep brown days alone.

Our future has more colors. More speed. More noise. Our future has more...

From jungle to city to the recesses of your mind. Shake your head and free yourself.

Free yourself.

starting the game

To play *Wipeout XL* on your PlayStation<sup>®</sup> game Console

- Set up your PlayStation<sup>®</sup> game Console in accordance with the instruction manual supplied with the system.
- Follow your system directions to open the Disc cover and place the CD into the slot of the drive, ensuring the printed side faces upwards.
- Close the Disc cover. If the unit is switched off, press the POWER button to begin play. If the unit is already on, press the RESET button.

To skip through intro screens, press any button on the Controller.

**WARNING!** Do not insert or remove Controllers, Memory cards or other peripherals during the game.

### Controlling your craft

### HUD display

### MENU

### MAIN MENU

Use the Directional buttons to highlight required options. Press the **X** button to confirm.

**RACE TYPE** - Takes you to the Race Type Menu.

**TEAM** - Takes you to the Team Menu.

**CLASS AND TRACK** - Takes you to the Racing Class Menu.

**START** - Takes you to the start of your chosen race.

**OPTIONS** - Takes you to the Options Menu.

### RACE TYPE MENU

Use the Directional buttons to highlight required race type. Press the **X** button to confirm. Press the **△** button to return to the previous menu.

### ARCADE

Intense racing with weapons\* and Checkpoints against a full field of enemy ships. If your shield energy's running low, you can fly into the pit area to get a power boost. Reach each Checkpoint before your time runs out or it's game over before you've even finished the race. The number of laps depends on the racing class being played.

\* Weapons are optional in arcade mode. You can race without weapons by selecting the Weapons Off option in the Preferences Menu (found within the Options Menu)

### TIME TRIAL

A race against the clock without weapons or enemy craft. A ghost ship will fly a duplicate of your previous best race - the ghost record is lost if another time trial best is shown. You will also receive one TURBO pick up for every lap you complete.

#### ARCADE LINK

2-player racing with active Weapon Grabs and Checkpoints against a full field of enemy ships. See 2-PLAYER NOTE below.

#### ONE ON ONE

2-player racing with active Weapon Grabs and Checkpoints but no other enemy ships. See 2-PLAYER NOTE below.

**2-PLAYER NOTE:** Both Arcade Link racing and One On One racing are 2-player games. In order to play them, you will need 2 PlayStation™3 game Consoles connected by a LAN cable. Both Consoles will require an internet connection. Both players must select the same 2-player option from the menu. After a few seconds, the message "Link Up!" will be displayed on both screens. The PlayStation™3 that completes the link up first will be referred to on-screen as "Master". The other PlayStation™3 will be referred to on-screen as "Slave". From then on "Master" is Player 1 and "Slave" is Player 2. Both players can then go into the Team Menu. Player 1 will then be able to go into the Racing Class Menu to make a selection on behalf of both players.

**NOTE:** During 2-player games, follow all on-screen instructions carefully to prevent the link being broken.

**Caution A:** If either player enters the Race Type Menu after a link has been established, the link will be broken. Repeat the process outlined in 2-PLAYER NOTE to set-up the link again.

**Caution B:** If either player selects that after a link has been established, the other player will not be permitted to enter the Race Type Menu.

**Caution C:** On returning to the main menu from any 2-player game the link will be broken and both machines need to Single Player Arcade Mode. To start a new 2-player game the link must be set-up again by following the process outlined in 2-PLAYER NOTE.

#### ARCADE CHALLENGES

If you manage to complete all available circuits in first place while playing in arcade mode, an arcade challenge will become available on the screen. This will certainly test your racing prowess. But it won't end there. Remember that the world of anti-gravity racing is a recursive one - unknown teams could be planning just about anything.

**NOTE:** In all arcade challenges the use of full weapons is compulsory - there is no Weapons Off option available. You will also find that as this is the Arcade Challenge, the track you race on will be auto selected - access to the Track Menu will be denied.

During the Arcade Challenge you are allowed three 'Continues'. Finish in fourth place or below and you will forfeit one 'Continue'. Finish in second or third and you retain the number of 'Continues' you currently possess. However, in order to progress to the next circuit you must exit on your current track.

#### TEAM MENU

Use the Directional buttons to highlight required team. Press the X button to confirm. Press the Δ button to return to the previous menu.

Each team operates 3 identical craft - technical specifications vary from team to team.

#### FINISH

This European consortium opt for ease of control above speed, although their craft accelerate well. Supports for beginners.

#### AG SYSTEMS

A Japanese team with highly controllable craft suitable for beginners. However, climb energy is quite weak.

#### AIRCRAFT RESEARCH

The American Aerospace team use a powerful engine giving excellent speed capabilities. Their craft are quite tricky to handle and are therefore more suitable for the intermediate player.

#### GRIN

This secretive Russian team operate extremely fast, armor-hungry ships. The difficulty in controlling them makes the Grin craft suitable only for very experienced pilots.

(Unconfirmed rumors report a new prototype craft alleged to be very controllable and extremely fast. No further details available.)

### RACING CLASS MENU

There are 3 tracks available in each of the 3 racing classes. Use the Up and Down Directional buttons to highlight your required racing class, then use the Left and Right Directional buttons to display your chosen track. Press the X button to confirm choices. Press the Δ button to return to the previous menu.

#### VECTOR CLASS

The slowest racing class available. Ideal for beginners.

#### VENOM CLASS

Faster racing class for the more experienced player.

#### RAPID CLASS

A super-fast alternative to all of a race. Advanced players only need apply.

### OPTIONS MENU

Use the Directional buttons to highlight required options. Press the X button to confirm. Press the Δ button to return to the previous menu.

#### AUDIO CONFIG

Allows you to alter the sound options. Takes you to the Audio Config Menu.

#### CONTROLLER CONFIG

Allows you to alter the Controller buttons used in the game. Takes you to the Controller Config Menu.

#### PREFERENCES

Allows you to alter some of the game's default settings. Takes you to the Preferences Menu.

The password facility allows you to save your progress without using a Memory card. Takes you to the Password Screen.

#### BEST ARCADE TIMES

Allows you to view the best arcade made race times on each track.

#### BEST TIME TRIAL TIMES

Allows you to view the best time trial times on each track.

**GAME CONFIG MENU**

Use the Up and Down Directional buttons to highlight required options then use the Left and Right Directional buttons to set your choice. When all options are set to your satisfaction press the X button to confirm. Press the Δ button to return to the previous menu.

**MUSIC**

Use the Left and Right Directional buttons to move the slider and set the volume of the in-game music.

**SFX**

Use the Left and Right Directional buttons to move the slider and set the volume of the in-game sound effects.

**SOUND**

Use the Left and Right Directional buttons to choose between Mono or Dolby Surround sound (preferred in-game on Stereo). Be careful not to select Dolby Surround if your TV only supports mono output as this will result in no sound effects at all.

**CD TRACK**

Use the Left and Right Directional buttons to cycle through each available music track. For a random selection of in-game tracks, make sure you set this option to RANDOM. If you prefer racing to one particular music track, select the one you want before confirming your selection.

**CONTROLLER CONFIG**

To configure the game controls, use the Up and Down Directional buttons to highlight the game function you want to change. Use the Left and Right Directional buttons to cycle through each available Controller button. When all functions are set satisfactorily, press the X button to confirm. Press the Δ button to return to the previous menu. Press the ○ button to return to the default configuration.

**NOTE:** Wireless N is fully compatible with Namco's reZero Controller. If a reZero is inserted into Controller port 1, it will be automatically detected.

Use the Left and Right Directional buttons to move between the options. You may alter the maximum field, the center point and the dead spot on a reflexion. To alter the field and center point hold the Controller to the preferred angle (between 0 and 180) and then press the A button to confirm. If you wish to reset the degree, press the A button again. Set the deadpoint by using the Up and Down Directional buttons to move the highlighting effect over several pre-set choices. Press the A button to select your choice. Pressing the B button will take you back a screen in the menu system. When you are happy with all your reflexion setup choices, press the I button to leave the menu.

**PREFERENCES**

Use the Up and Down Directional buttons to highlight the preferences you want to change then follow the instructions below. Press the X button when all preferences are set correctly. Press the Δ button to return to the previous menu.

**WEAPONS**

Use the Left and Right Directional buttons to turn Weapon Cuts ON or OFF.

**DEFAULT VIEW**

Use the Left and Right Directional buttons to choose between HD (on-console) or SD (external) as the game's default view.

**MOVE SCREEN**

Press the ○ button to activate the move screen facility, then use the Directional buttons to center the game screen on your TV. When the screen position is set satisfactorily, press the ○ button again to confirm.

**DEFAULT NAME**

This facility allows you to store a default name which you will be able to use when entering your name onto the Best Times tables. Use the Left and Right Directional buttons to cycle through the alphabet, then press the ○ button to confirm a letter.

### Load and save menu

Use the Directional buttons to highlight your chosen option. Use the X button to confirm.

#### LOAD

To load a previously saved game, make sure you have a Memory card fitted according to the system instructions. Use the Directional buttons to select the game slot you want to load and press the X button to confirm. If you have 2 Memory cards fitted, use the  button to switch between cards.

#### SAVE

To save your progress, make sure you have a Memory card fitted according to the system instructions. Use the Directional buttons to select a slot and press the X button to confirm. If you have 2 Memory cards fitted, use the  button to switch between cards. You can label your saved game with a name of up to 8 letters. Use the Directional buttons to highlight the letters and use the X button to confirm them. When the name is complete, highlight END and press the X button.

#### DELETE

To delete a previously saved game, use the Directional buttons to highlight the chosen slot and press the X button to confirm. If you have 2 Memory cards fitted, use the  button to switch between cards.

### PASSWORD SCREEN

If you manage to achieve a medal position during the game, you can save your progress without the use of a Memory card by using the password facility.

This screen shows your current password – make a note of it and keep it safe. When you play the game again, select PASSWORD from the OPTION menu then enter the password to make sure you keep medals already won.

To enter a password, use the Up and Down Directional buttons to cycle through the password symbols. Use the Left and Right Directional buttons to move along the row of characters. When the correct password has been entered, press the X button to confirm.

### Best arcade times screen

Use the Left and Right Directional buttons to view the best arcade times set on each track.

### Best time trial times screen

Use the Left and Right Directional buttons to view the best time trial times set on each track.

### PLAYING THE GAME

Whatever type of race you've chosen, the basic control system remains the same. The Control Summary can be found at the beginning of the manual.

#### SHIELD ENERGY

Each time you collide with the side of the track or are hit by an enemy weapon, your shield energy will be depleted. When shield energy levels reach zero, your ship will explode. The on-screen Shield Energy bar shows your shield energy level at a glance.

#### SPEED-UPS

There are blue arrows on the track. Fly over them for a brief speed boost.

#### CHECKPOINTS

As soon as you begin a race, a counter showing your elapsed time will be activated. If the counter reaches zero before you pass the next Checkpoint, the game will be over.

#### WEAPON GRAB

There are colored arrows on the track. Fly over them to pick up a weapon. Refer to the section headed RESPONSE AND POWERS-UPS for more information. Weapon Grabs are described in a True Trail.

#### RIT LINES

Recharge shield energy by flying into a pit line. These are clearly marked striped areas.

#### WINING METALS

When you're playing in ARCADE RACING mode, you'll win a medal if you finish in the top 3. 1st place wins bronze, 2nd place earns silver and coming 1st will get you the coveted FIBRE FLOOR League gold medal. Metals are awarded for the track regardless of class.

#### WEAPONS AND POWER UP

All weapons are pre-loaded onto your craft before a race. When you fly over a Weapon Gem, one of them will be selected and the relevant Weapon icon appears on-screen.

Press the  button to fire the weapon or the  button to discard it.

A system message will warn you of weapons about to be used against your ship.

MINES

#### MINES

When fired, mines drop from the back of craft. They cause damage to ships which fly into them but can be destroyed using the Thunder Bomb.

E-PASS

#### E-PASS

When activated, an E-Pass will boost your shield energy.

AUTOPILOT

#### AUTOPILOT

When activated, your ship switches to Autopilot and will fly under automatic control for a short period. When this period of time is up an on-screen message "DRENCHING" is displayed. However it will only change when the ship is on an own track. The ship changes the Autopilot at any time by pressing the  button. This will return you instantly to manual control.

TURBO BOOST

#### TURBO BOOST

When fired, a Turbo Boost speeds up the craft very quickly for a short period.

ROCKETS

#### ROCKETS

Fires in bursts of 3 from the front of the craft. Does shield energy on impact. Rockets have longer tracking capability but are only in a straight line. Use carefully.

MISSILES

#### MISSILES

Similar to rockets, but only one fired at a time. Missiles have heat seeking capability and drain shield energy on impact. The missile target can lock on to enemies both in front and behind your craft. If you have a rear lock, the text "Rear Lock" will flash below the weapon icon. To fire the missile forwards, press the  button. To fire the missile backwards, press the  button and the  Directional button together.

ELECTRIC BOLT

#### ELECTRIC BOLT

Fires from the front of the craft. Causes a ship to stall and become difficult to control for a brief period on impact. Also causes shield energy drain. Will until the target locks onto an enemy ship before firing.

THUNDER BOMB

#### THUNDER BOMB

When fired, a Thunder Bomb inflicts a large shield energy drop on all visible craft.

#### SHIELD

When activated, a Shield protects your ship from further shield energy loss. Each shield is subject to a time limit. When a shield is activated, you can't fire another weapon but you can pick one up.

#### FLASER BOLT

When activated, a Flaser Bolt has to charge up before it fires. They destroy enemy ships on impact. However, they are not target locking and are therefore difficult to aim.

#### GAME DISRUPTION

Just try it. Needless to say, causes massive shield energy loss on impact and will make you laugh the whole time for days.

#### PAUSING THE GAME

Press the **START** button to pause the game. Use the **Directional** buttons to highlight your choice from the **Pause Game Menu** and press the **X** button to confirm.

#### CONTINUE

Takes you back to the game.

#### RESTART

Takes you back to the start of the current track. If you use this during an arcade challenge you will lose one of your **Continues**.

#### QUIT

Abandons the race and returns you to the **Main Menu**. If you use this during an arcade challenge the whole series will be over.

#### AUDIO CONFIGURATION

When you select this option, you will be given a small sub-menu allowing you to select a music track or adjust the volume of music or sound effects. Use the **Up** and **Down** Directional buttons to highlight your choice, then use the **Left** and **Right** Directional buttons to adjust the settings. Return to the **Pause Game Menu** by pressing the **X** button.

## THE FUTURE SOUND OF LONDON

Making from the dance world, FSO's only dance single "Fagus New Guinea" ignited the rest of something unique. Due to ambient experimentation, FSO are distinguishedly high. Their debut album "Underworld" was heralded as redefining electronic/dance music through classical sounds and was accompanied by computer graphics, videos, MIDI-sound-jazz ("Walk to rock 'n' roll") and music inspired by a range of genres. Their last album "Dead/Alive" continues their quest to not be categorized.

## UNDERWORLD

Underworld are Rick Smith, Karl Hyde and Darren Emerson. They are a hot ticket act that has two albums "Underworld/Firstborn" and "Second/Song/Past in the Future", released by the independent record label Junior Boy's Own, sold over 100,000 copies. Their single "Born Slippy" featured in the film "Transporters", reached No.2 in the National charts in July '01.

For more information on Underworld call Jakes Productions: 0171 266 8822

## THE PRODIGY

The Prodigy are Liam Laidler, who writes the music, Leroy Thornhill, who dances with Phil, who dances and shouts on "Firestarter", and Maxim Reality, who MC's and shouts on "Freaky". They are probably the most successful dance band in the world - the "Music For The Jilted Generation" album has sold over a million copies, while the "Firestarter" single went straight into the UK charts at Number One in March 1996.

Watch out for a new Prodigy single and album in the autumn of 1999

## THE CHEMICAL BROTHERS

As DJs, remixer, and recording artists, the Chemical Brothers are not for the faint-hearted. Brothers in rhythm, Tom Rowlands and Ed Simons, met in Manchester and initially as the Dust Brothers, released three singles before releasing the "Exit Planet Dust" album on Astralwerks.

Craving through musical barriers, the Chemicals' soundtracks cover all bases, from deep hip hop to acid house to chunky funk beats to rock 'n' roll mentality. Stay tuned for a new LP in '99.
