Truxton™

"Tom, we're under attack!"

"That's why I'm here, sir."

"The Gidans came on like bats out of Pluto. Our transport ship, the Belery, didn't have a chance. Now its cargo — our secret weapons — is out there stuck in space. And the Gidans are between it and us. Tom, we've got to stop them! They've got something enormous out there. It fills up the radar screen. We don't know what it is, we can't prepare for it — we don't even know how to fight it!"

"I'll fight it, sir."

"Take the Super Fighter. It's got everything you need — weapons so powerful we've been afraid to use them. You'll blow their boosters off, Tom. You're our only hope! But it's gonna be dangerous."

"I'll risk it, sir. See you back here on Borogo, after I make our planet safe!"

Space War!

You are Tom the Bomb! As a fearless ace pilot, you are assigned to fly the Super Fighter against the Gidans. You take off for the far reaches of space. Whatever you find out there is yours to destroy!

You begin your mission with 3 Super Fighters — the one you fly and 2 in reserve. You're armed with unlimited Power Shots. These fire in 3 directions at once, shooting down enemy planes in a wide range. You also have 3 Destroyer Bombs on board.

You are going to face the Gidans in 5 separate battles! Blast them by aiming and pressing Button A for single shots and Button C for rapid fire. Press Button B to drop a Destroyer Bomb (that's how you got your nickname) and blast everything out of the stratosphere!

NOTE: The Difficulty Level appears only at the Easy and Hard levels.

Survival!

During battle you will be hit by enemy fire. After you take a number of hits your Super Fighter explodes. You can continue the battle as long as you have Super Fighters in reserve. With each new Super Fighter, your weapons reset to Power Shots and 3 Destroyer Bombs.

You gain an extra Super Fighter when your score reaches 70,000 points, 270,000 points, and every 200,000 points after that. You can also gain an extra Super Fighter by flying over these items:

You gain 1 extra Super Fighter.

You gain 2 extra Super Fighters.

NOTE: The screen shows up to 10 reserve Super Fighters, but you can have more than that remaining.

Your Weapons

Borogon energy weapons are scattered in space. When you sight a weapon, fly over it to take it on board as your current weapon. Gidans also carry weapons that they surrender when destroyed.

Power Shots (Red) Fires a fan of bullets.

Truxton Beam (Green) Slices through the enemy and destroys everything behind it as well. Very effective against large attackers.

Thunder Laser (Blue) Locks onto the enemy and chases it down.

Destroyer Bomb Blasts every enemy in sight and melts their bullets. Destroys small Gidans, and cripples large attackers and Monster Powers so you can destroy them with other weapons.

Power Booster Increases your weapon's strength. You begin your mission at Power 1. Gain 5 Boosters to ramp up to Power 2. Get 10 Boosters to reach Power 3. Pick up all the Power Boosters you can and keep them in reserve. When your Super Fighter is destroyed at Power 2 you lose 5 Power Boosters. At Power 3 you lose 10 Boosters.

Power Shots

Power 1: Shoots in 3 directions.

Power 2: Shoots in 5 directions.

Power 3: Deploys support ships that fire the Rainbow Circle Shot to protect you in all directions at once.

Truxton Beam

Power 1: 1 beam at a time.

Power 2: 3 beams in succession.

Power 3: 5 beams in succession.

Thunder Laser

Power 1: 1 laser at a time.

Power 2: 3 lasers in succession.

Power 3: 5 lasers in succession.

Speed Booster Each one increases your speed until you reach a maximum of 5 times your original speed. At maximum speed, these items are worth 5,000 points when you pick them up.

Asteroid Fortresses

You battle the enemy in space above 8 different asteroids. As you destroy each asteroid, a more powerful one appears:

Blue Asteroid Gives you a taste of what's to come. Destroy the Bordan Head for a surprise!

Yellow Asteroid Now that you're warmed up, the danger increases! Berang's spew lethal acid when hit.

Red Asteroid This huge rock is armed with the J-Tank.

Orchid Asteroid The enemy attacks with fury.

Purple Asteroid The Gidans bring in their giant Badron to knock you out!

Poison Asteroid Don't linger in the atmosphere of this deadly base.

Galaxy Pool Asteroid The towering Gurus dominate the enemy attack. The incredible Dosvam takes over between two asteroids.

Magman Asteroid Defeat the Dogurava in your final and most difficult battle.

Continue Game Screen

When you lose all your Super Fighters, the battle ends and the Title screen appears. It shows the words "Continue" and "Credit," and begins a countdown starting with 9.

Credit tells you how many times you can continue the game, depending on your Game Difficulty Level:

Easy	Free play (unlimited chances to continue play).
Normal	6 chances to continue play.
Hard	3 chances to continue play.

To continue, press the Start Button before the countdown reaches 0. The war resumes at the last battle you fought. Your score is reset to 0 but you keep all Power Boosters you had when the battle ended.

At the Normal and Hard levels, every time you continue play your Credit number decreases by 1.

Scoring

You face the enemy in 5 different battles. The more destructive you are, the more points you earn. When you finally destroy all troops in a battle, the Monster Power appears. Destroy it or you can't go on!
