Amstrad Conversion by G. FOLEY

THE GAME

Your quest, Cylu, begins in a small crowded chamber deep within the heart of a large maze. Hidden in the maze are 24 objects which must be collected, returned to the starting point, and deposited in the Master Computer. Once all the objects have been deposited you will be deemed worthy to be our new leader. During your journey you will encounter: 32 forcefields which will bar your way to many sections of the maze (until disabled by placing the corresponding processors in the Master Computer), nine teleport terminals which, when used with the relevant teleport keys, will provide access to isolated areas of the maze, a master refuel (RFL) at the base unit, a master return to base (RTB) unit, and 30 fuel cannisters.
