Wells-Gardner® Monitor Color Settings

If the colors on your Wells-Gardner monitor shift dramatically to one color, follow the steps below to change the color settings. (For example, the image may appear to be covered by a green haze.)

Refer to the tables that follow for optimal settings for various games.

1. Using the monitor remote control board, press and hold the **DOWN** and **SEL** buttons for 7 seconds. The **FACTORY MODE** menu will open.

2. Press the **DOWN** button repeatedly to select **COLOR GAIN**, and then press **SEL**. The **GAIN MODE** menu will open.

3. With **GAIN MODE** highlighted, press **UP** or **DOWN** to switch to the **BIAS MODE** or **OSD MODE** menus.

4. To change items in the MODE menus, press **SEL** repeatedly to move through the menu items. Press **UP** or **DOWN** to change the value of a highlighted item.

5. When finished, press **MODE** repeatedly to exit from the monitor settings menus.

EA SPORTS™ PGA TOUR® Golf
