A very small percentage of individuals may experience epileptic seizures or blackouts when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or when playing video games may trigger epileptic seizures or blackouts in these individuals. These conditions may trigger previously undetected epileptic symptoms or seizures in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition or has had seizures of any kind, consult your physician before playing. IMMEDIATELY DISCONTINUE use and consult your physician before resuming gameplay if you or your child experience any of the following health problems or symptoms:

- dizziness
- altered vision
- eye or muscle twitches
- loss of awareness
- disorientation
- seizures
- any involuntary movement or convulsion

RESUME GAMEPLAY ONLY ON APPROVAL OF YOUR PHYSICIAN.

Use and handling of video games to reduce the likelihood of a seizure

- Use in a well-lit area and keep as far away as possible from the television screen.
 - Avoid large screen televisions. Use the smallest television screen available.
 - Avoid prolonged use of the PlayStation 2 system.
Take a 15-minute break during each hour of play.
 - Avoid playing when you are tired or need sleep.
-

Stop using the system immediately if you experience any of the following symptoms: lightheadedness, nausea, or a sensation similar to motion sickness; discomfort or pain in the eyes, ears, hands, arms, or any other part of the body. If the condition persists, consult a doctor.

WARNING TO OWNERS OF PROJECTION TELEVISIONS:

Do not connect your PlayStation 2 system to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

Game Mode: Career

Build your bowling career starting from amateur league nights up to pro tournaments to become the Brunswick Pro Bowling Champion. By winning matches, leagues, and tournaments, you will increase your reputation, bowling average, and earnings.

With your earnings, you can buy items from the Pro Shop and pay the entry fee for tournaments. Your earnings and reputation will also unlock additional tournaments, lanes, and special merchandise from the Pro Shop.

Customize Your Character

- Select Career from the Main Menu. Load an existing character, or select New to customize a new character.
- Create a new bowler by naming your character and choosing physical attributes (such as gender, hairstyle, and clothing).

Visit the Pro Shop

From the Career menu, select Pro Shop. At the Pro Shop, you can purchase Brunswick bowling balls, shirts, shoes, and accessories. Certain items in the Pro Shop increase your attributes. As you gain more money and gain your reputation, more items are unlocked for purchase. The purchase price is displayed in the top right corner.

- To skip a night of play, press Skip. This will simulate other league members' scores for that day.

League Standings

From the Career menu, select League Standings to display your standing within the league, as well as the standings of other top bowlers in your league.

Practice Games

From the Career menu, select Practice to improve your game between league nights and tournaments. There are two game types to toggle between: Pin Select and Standard.

- Pin Select allows you to set the pin configurations to practice a variety of potential shots.
- Standard sets up all 10 pins as in standard game play. This game helps you gain reputation points and improve your skill.

Character Attributes

As you advance through Career Mode, you are awarded skill points after achieving significant milestones. Use these skill points to upgrade your bowler's performance attributes. These attributes dynamically affect the feel of your bowler. This makes each bowling experience different from one another when launching balls down the lane.

Arm Strength	Heavier bowling balls combined with speed results in more force applied to the pins. With increased strength, you can select heavier balls and still maintain ball speed.
Accuracy	Represents your level of hand-eye coordination when you aim the bowling ball.
Hook Control	Denotes your ability to apply a spin or hook to the ball while still maintaining accuracy.
Stamina	With increased stamina, you can maintain your arm strength and control during long tournaments. As your bowler tires and decreases in stamina, the size of the green sweet spot during bowling decreases.
Reputation	Increase or decrease reputation by winning/losing tournaments, beating/losing to specific competitors, and various other factors. A high reputation provides you access to special invitational tournaments, sponsors, and also increases the odds of rivals challenging you to head-to-head showdown.

Oil Patterns

When setting up for your throw, press and hold R2. The variation in oil pattern displays. Use this as a guide to how you should prepare as well as what Brunswick bowling balls to use for that pattern.

Patterns vary from very forgiving patterns (allowing for straight shots with little hook) to difficult oil patterns (requiring specific hooks and aiming down the lane).

Unlockable Items

As you improve and move up the ranks, your earnings and reputation increase. This allows you to purchase locked items from the Pro Shop. Some of these items will improve your game; other items will increase your reputation. There are also Brunswick exclusive items available in the Pro Shop.

The following events allow you to purchase locked items from the Pro Shop:

The following achievements unlock items:

1st "6-Pack" (6 strikes in a row)

Gaining reputation points also unlocks items available for purchase at the Pro Shop.

Bowling Rules and Scoring

Each game consists of 10 frames. In each frame, you have two chances to knock as many of the 10 available pins you're your bowling ball. In general, one point is scored for each pin knocked over (with additional points provided for strikes and spares).

A strike occurs when all 10 pins are knocked down with the first ball. 10 points are awarded, plus the score of the next two balls (i.e. the points scored for the next two balls are counted twice). If there are pins remaining after the first throw, you may bowl a second time for that frame. A spare occurs when any remaining pins are knocked down after the second throw. Bonus points are granted for both strikes and a spares. An open frame occurs if there are any remaining pins after the second ball is thrown.

Brunswick Pro Bowling automatically calculates the score during gameplay, as well as other bowling statistics such as averages and number of strikes accomplished.
