A very small percentage of individuals may experience epileptic seizures when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or while playing video games, including games played on the PlayStation 2 console, may induce an epileptic seizure in these individuals. Certain conditions may induce previously undetected epileptic symptoms even in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition, consult your physician prior to playing. If you experience any of the following symptoms while playing a video game—dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions—IMMEDIATELY discontinue use and consult your physician before resuming play.

### **WARNING TO OWNERS OF PROJECTION TELEVISIONS:**

Do not connect your PlayStation 2 console to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

### **USE OF UNAUTHORIZED PRODUCT:**

The use of software or peripherals not authorized by Sony Computer Entertainment America may damage your console and/or invalidate your warranty. Only official or licensed peripherals should be used in the controller ports or memory card slots.

# COMMAND REFERENCE

## DUALSHOCK®2 ANALOG CONTROLLER CONFIGURATIONS

## SETTING UP THE GAME

Revenge Is Sweet. Your wheels are a weapon and your aggression is a measure of success. Plow through downtown traffic and pulverize any rivals who stand between you and the finish line. Use the traffic, use the road, and use all your Takedown prowess to rise up the ranks and teach your rivals a crushing lesson in the sweet art of vengeance. It's not just about winning. It's about revenge.

## CREATE A PROFILE

*Burnout Revenge* requires a Profile if you wish to track your progress:

1. From the Save/Load screen, select CREATE PROFILE.
2. At the Autosave prompt, if you select NO, your Profile and settings will not be automatically saved.
3. Use the on-screen keyboard to enter a name for your Profile. Select DONE to finish and then select a save game slot.

## LOADING A PROFILE

- From the Save/Load screen, select LOAD PROFILE. Choose the Profile you want to load.

## REAPING REVENGE

Only by grabbing a medal while inflicting revenge on your rivals will you rise to the top of the *Burnout Revenge* ranks. Learn how to master medal-winning performances in Race and Crash Events while littering the streets with your opponents' shattered wreckage.

## GAME SCREEN

# EVENT RATING AND REVENGE RANK

Grab a medal and wipe the floor with your feuding rivals. In the *Burnout Revenge* world you are judged by your revenge Rank. You begin at Harmless. Aggressive and extreme driving moves are the keys to success—inflict Takedowns, slam, shunt, check traffic, boost, and drift to jack up your Event Rating and rise through the ranks.

You are rated on each Race and Crash Event. Combined these ratings make up your overall revenge Rank as displayed on your revenge meter. This fills up towards your next Rank as you complete Events. Each new Rank progressively unlocks new Events over eight locations. Boosting your Rank is everything—so put four on the floor and drive dangerously to leave your Harmless Rank way behind you.

**NOTE:** During Events, watch your Event Rating improve or decline. An icon appears to let you know of any change in your Rating as it happens.

## MEDAL PLACINGS

Winning a medal unlocks Events and can also unlock faster or heavier cars. It also affects your final Event Rating. Pick up only bronze and your Event Rating may drop, but win gold and it could rise. You can retry Events to better your previous medal placing and Rating, but there's no advantage in repeating the same Event if you don't improve, as it won't feed your revenge meter and help you to rank up.

**NOTE:** Get a Rating of Awesome *and* win a gold medal to get a final Event Rating of Perfect.

## BOOST BAR

Extreme driving fuels your boost bar. You can even shunt, slam, and grind opponents to steal their boosts. Score a Takedown and you win a new chunk of boost, but if you get taken down or crash, you lose it.

## TAKEDOWNS

Revenge, Vertical, Traffic Check, and Aftertouch Takedowns are some of a vengeful burner's finest expressions of their art. Slam a rival off the road to quickly build up your boost and Event Rating. Different methods of Takedown propel your Rating faster than others.

### Signature Takedowns

Certain location-based Takedowns are prized in a ruthless burner's world. Your Takedown Book keeps a photo record of these glorious moments (see p. 7).

### Revenge Takedowns

If a rival takes you down, they're marked in red for revenge. This is the rival to target if you want to boost your Rating quickly.

## CRASHBREAKERS, IMPACT TIME, AND AFTERTOUCH

### CRASHBREAKERS

In all Crash Events (and during Race Events in later unlocked Ranks in the World Tour), you can release the thunder under your hood and detonate your ride with an explosive Crashbreaker. In Crash Events, this jacks up the Explosion Multiplier. When you crash in later Race Events, you can detonate your vehicle in an attempt to score explosive payback on whoever took you down.

## IMPACT TIME AND AFTERTOUCH

Once you've crashed, you can enter slow-mo Impact Time, making it easier for you to steer your wreck (Aftertouch) into the path of your rivals or general traffic to maximize further road chaos.

**NOTE:** You can toggle automatic Impact Time on or off in Crash Events. Select MANUAL or AUTOMATIC from the Driver Details > Settings > Gameplay menu.

### The Art of Crashbreaker:

1. After you crash in Race Events during later Ranks, use Aftertouch to position yourself and press the **R2** button to detonate your ride with a Crashbreaker—the bigger your boost bar, the bigger the bang. In all Crash Events, keep tapping the **R2** button once the Crashbreaker countdown begins.
2. Press and hold the **R1** button to enter Impact Time.
3. Use the left analog stick and Aftertouch your wreck into an optimal position for further devastation.

**NOTE:** If you don't manage to take down a rival with a Crashbreaker in a Race Event, you lose any boost you may have.

## SAVING AND LOADING

**NOTE:** *Burnout Revenge* requires and only supports a memory card (8MB) (for PlayStation®2) inserted in MEMORY CARD slot 1. Select DRIVER DETAILS from the Main menu to manage your Profile. Choose to save or load an existing Profile or create a new one. You can also turn Autosave ON or OFF.

### SAVING

- If Autosave is turned ON, your progress is automatically saved to the memory card in MEMORY CARD slot 1.
- To save your Profile manually, choose DRIVER DETAILS from the Main menu, then PROFILE, then SAVE PROFILE.

**NOTE:** You are able to overwrite previous saved Profiles.

### LOADING

- You are prompted to load a Profile from the memory card in MEMORY CARD slot 1 at start up.
- To load a Profile after you've started the game, select DRIVER DETAILS from the Main menu, then PROFILE, then LOAD PROFILE.

## RACE EVENTS

Race the clock and annihilate rival racers in an anarchic marriage of pure street speed and Takedown turmoil. Grab first place and dish out maximum aggression on streets built for carnage.

#### Race

Takedown rivals as you rampage to the front of the pack and stay there in an explosive race to the finish line.

#### Traffic Attack

Blitz through traffic to keep the clock ticking in a boost-blasting scramble to beat time targets and earn a medal-winning total.

#### Burning Lap

Push your driving skills to extremes and beat the clock.

#### Road Rage

Takedown as many rivals as you can within the time limit and beat the targets to get a medal placing—but watch out for critical damage to your ride.

### Eliminator

Stay one step ahead of the pack. The burner in last place each time the 30 second clock runs down is history.

### Preview

Test drive some of the fastest vehicles in *Burnout Revenge* against the clock.

### Grand Prix Race

Finish in a medal-winning position in this insane Grand Prix multi-race battle to pick up GP Points. Earn enough for a final medal placing.

# CRASH EVENTS

Vent your explosive frustrations on the traffic in the 30 seconds available. Unleash explosion mayhem and nail the Target vehicle to maximize your chances of a gold medal and a Perfect Rating.

## The launch bar

- Pay attention to the fly-by Crash Cam view to plan a trail of destruction and note any potential hazards, then select the best type of vehicle for the job.
- 1. Press the **X** button to start the revving launch bar and press the **X** button again to stop the bar on its ascent. This sets your launch speed.
- 2. Press the **X** button a third time to launch. Nail the sweet spot at both ends for a Power Boost start, but don't wait too long—the clock is counting down and every second is valuable crash time.
- Hit the top sweet spot only for a Fast Start or stop short of both for a Slow Start. Get it wrong and your engine could blow up or stall.
- On ramps, use Aftertouch in all directions to get into a great dive-bombing position, gain distance, or battle against strong crosswinds.
- 3. After launching, guide your ride to mete out maximum carnage. Check traffic to ram same-way vehicles and create additional pile-ups before you crash.
- 4. Press the **X** button at any time to zoom the camera back to your vehicle and use the left analog stick to move the camera around.
- On impact, you can press and hold the **R1** button to go into slow-mo Impact Time, then use the left analog stick and Aftertouch your ride into more traffic.
- Each traffic crash adds to your boost meter. Cause a big enough pile-up to reach 100% and a 5 second countdown lets you know when the Crashbreaker will detonate.
- 5. During the countdown, keep tapping the **R2** button and try to pump the bar to 100% to maximize your Crashbreaker explosion.
- Each car that explodes from a Crashbreaker adds x1 to your Explosion Multiplier, so maximize your score by detonating your Crashbreaker surrounded by traffic.
- After detonation you're able to use Aftertouch again.

**NOTE:** To abort a run, access the Pause menu and select RETRY.

# WORLD TOUR

Build up a global reputation for devastation on a World Tour campaign. Progress through 10 World Tour Ranks, each with their own Crash and Race Events. Not all Events in each Rank are available at once. Winning a medal in one Event unlocks another.

Your tour begins in the USA, but continue winning medals to go on to dominate Europe and the Far East.

**NOTE:** Successfully completed Events are marked by the kind of medal you won. Freshly unlocked Events are marked as New. Each location that you've tackled displays your best medal and best Rating so far in each unlocked Event.

1. Begin burning your trail of havoc at Rank 1, then choose a location.
2. Select a Race or Crash Event to compete in (see *Race Events* on p. 5 and *Crash Events* on p. 6).
3. Before hitting the streets, choose your ride and its color. Your choices are limited at first—you can play with the big toys when you start winning medals.

**NOTE:** If you have a *Burnout™ 3 Takedown™* or *Madden NFL 06* game saved on your memory card, you are awarded an exclusive new vehicle to give you a head start to your career.

## Challenge Sheets

Tackle eight challenges in each location.

- Select CHALLENGE SHEET from the location's Select Event screen and flick through the challenges so you know what to do to get your hands on the Challenge trophies and unlock the Challenge vehicle.

## Takedown Book

A record of your Signature Takedowns is kept for each location in your Takedown Book.

- Select TAKEDOWN BOOK from the location's Select Event screen to reminisce over snapshots (see *Signature Takedowns* on p. 4).

## AFTER BURN

Your skill is rated after each Event on the World Tour and this Event Rating is broken down over the Revenge Results screens along with your current revenge Rank. Your Race Event performance reflects your Driving Skills, Aggression, and Counterblows maneuvers. In Crash Events, it's all about the value and number of vehicles you total.

## DRIVER DETAILS

- Select DRIVER DETAILS from the Main menu to get the skinny on your complete career so far, adjust game Settings, and save or load your Profile.

You can use the Network Adaptor Start-Up Disc that came with your network adaptor (Ethernet/modem) (for PlayStation®2) or the Network Configuration GUI in this game to create a network configuration. Your Network Configuration file requires 94KB of free space on the memory card (8MB) (for PlayStation®2).

## Playing Online

In order to play *Burnout Revenge* online, you must create a Your Network Configuration file and a new EA Account by following the on-screen instructions. If you already have an EA Account and a Network Configuration saved on a memory card, they appear automatically.

## Playing Behind a Firewall

We recommend that you do not play behind a firewall. However, if you do wish to play behind a firewall, you must open the following ports: **TCP and UDP 3658/3659** (peer-to-peer connection); **UDP 10070/10080** (VOIP).

**NOTE:** Users using DHCP must ensure that their console is always assigned the IP address specified in the PORT FORWARDING setup; under these circumstances you may need to change your console from "Auto Detect (DHCP)" to a "Static IP" address using the Network Configuration Utility or Network Adaptor Start-Up Disc to ensure that forwarded data always gets to your console.

**NOTE:** The game's timeout function may be different than your ISP's. This could lead to high telephone charges if you leave the game unattended.
