INTRODUCTION

Patience Philips is a shy, sensitive artist who works for Hedare Beauty, a giant cosmetics company on the verge of releasing a revolutionary anti-aging product. Tragically, her life is cut short after she stumbles across a dark corporate secret.

As her body lies washed up on a beach, an otherworldly Egyptian cat named Midnight happens upon her and brings her back to life. In a mystical twist of fate, Patience finds herself transformed into a unique being empowered with the agility, speed, strength, and senses of a cat.

Beautiful and mysterious, Catwoman vows to exact revenge on her enemies. Treading a thin line between good and bad, she is wild, dangerous, and prepared to sink her claws into anyone who dares cross her path.

There's a new feline in town and the temperature is about to rise . . .

GAME SCREEN

OBJECTIVES AND SCORING

Objectives are displayed at the beginning of each scene. They contain a number of moves Catwoman needs to perform in order to achieve 100% success. At the end of each scene, the score converts into diamonds that you can use to purchase new abilities. Every 1000 points converts into one diamond.

To bring up the Objectives at any time, press the **START** button to pause the game then press the D-button ⇄ to highlight SCENE OBJECTIVES. The Objectives are as follows:

Wild Cat Moves

Use the scenery to knock a bad guy out of the fight – breakable scenery, dumpsters, balconies and windows are a few examples. See *Enemies* on p. 8.
Kick enemies into each other.

Throw an item with the whip and hit an enemy with it.

Scaredy Cat Moves

Attack a scared adversary.

Pussycat Moves

Successfully execute a domination move (pose or taunt).

Alley Cat Moves

Get through an area using Catwoman's feline agility.

Roughing it up with the bad guys and fulfilling Objectives increases your score. When Catwoman performs a move that adds to your score, its name appears on screen.

NOTE: When an objective is performed, its name appears on screen.

MOVES

STRIKE

Hit a foe with a kick or whip butt.

RAPID STRIKE

Hit two different bad guys in quick succession.

CUT OFF

Whip the radio out of an enemy's hand.

DISARMED

Whip the gun out of a foe's hand.

EVADE

Dodge a bullet.

FLIPPED

Execute a backwards kick while a bad guy is grappled.

WILD CAT MOVES

EJECTED

Knock a foe through an exit.

TRASHED

Knock a foe into a breakable part of the scene.

DOMINO

Knock a foe into another NPC.

THWACK

Throw an object with the whip and hit a bad guy with it.

DROPPED

Knock a foe over a balcony.

PUSSYCAT MOVES

TAUNT ATTACK

Complete the Taunt move successfully.

POSE ATTACK

Complete the Pose move successfully.

ALLEY CAT MOVES

AGILITY

Complete an Alley Cat move successfully.

Once an Objective has been displayed, its name slowly fades. If Catwoman performs another Objective before the text disappears, the normal score for that move is multiplied. eg. Wild Cat x2. A message confirms when Catwoman is successful in meeting her Scene Objectives.

NOTE: Catwoman can only chain together similar moves, so performing a Scaredy Cat move when there is a Wild Cat x4 on screen still only results in a Scaredy Cat move.

ENEMIES

Enemies can be temporarily stunned but they always get up and come back for more. Catwoman can show them who is really in charge by overpowering them and kicking them into traps such as crates. Once they are caught, there is no escape.

FIGHTING

Catwoman can unleash a flurry of stylish, fluid Capoeira moves upon enemies. To attack foes with her unique combat skills, hold the **L1** button to crouch and press the right analog stick to kick.

CLIMBING

To climb, crouch (**L1** button) at the base of a wall and press the left analog stick towards it, or jump onto it when running upright. When Catwoman cannot climb any higher, she slips slowly down.

To jump off the wall or gate, hold the **R1** button.

To jump to an opposite wall and continue climbing, hold the **R1** button.

NOTE: Catwoman cannot run up a slippery surface, such as sheet metal or glass.

WHIP

Catwoman uses her 360-degree whip (right analog stick), to gain complete control and an edge over her opponents. She can crack her whip, attack her enemies, and pick up and throw items.

NOTE: Look out for other whip abilities that you can purchase later in the game.

POLE JUMPING

Jump onto a pole by holding the **R1** button. When hanging, hold the **L1** button to swing and hold the **R1** button to jump off. Release the **L1** button to stop swinging. When hanging, press the left analog stick ↓ to drop off, press the left analog stick ↑ to jump onto the pole, or press the left analog stick ⇔ to turn around.

Catwoman can also combine these slick moves with the whip. To jump onto a pole directly above the one she is on, stop swinging, climb on top, jump, then whip with the right analog stick to grab hold of the pole above her. When she is hanging from her whip, press the left analog stick ↑ to make her climb it and hang from the pole.

CAT SENSE

Catwoman has unique abilities that allow her to be in-tune with her surroundings. Cat Sense increases her awareness of her environment, giving her the intuition of a cat, and heightening her senses to super-human levels.

To trigger Cat Sense, hold the **R2** button to go into Hunting mode and press the right analog stick to look around. If there is important information nearby, Catwoman picks it up with her Cat Sense.

As she looks around, hidden or remote targets such as enemies or objects are revealed. The closer the target is to Catwoman, the louder or clearer it appears. Scent trails and Midnight's paw prints can also help guide Catwoman.

HUNTING THE WEAKEST PREY

If Catwoman is surrounded, hold the **R2** button to go into Hunting mode and quickly identify the weakest foe to attack (spot him by his yellow glow). This is only available when the Smell Fear ability has been purchased.

MIDNIGHT THE CAT

If Catwoman comes across this little feline, she's in luck. When she finds him, he gives her nine lives so she can be resurrected on the spot if she runs out of energy. When Catwoman's in close proximity to Midnight, she can use Hunting mode to hear him meowing.

NOTE: Midnight's paw prints and scent trails can also help guide Catwoman.

DOMINATION BAR

The Domination Bar represents Catwoman's health and power levels. When she is attacked, it depletes. The amount it decreases depends on the strength of the attack.

The Domination Bar increases every time the score hits a milestone (every 5000 points).

If the Domination Bar reaches 100%, it flashes to indicate that you can trigger Domination mode by pressing the **L2** button. When Domination mode is activated, Catwoman's abilities are enhanced for a limited time. The strength and speed of her fighting skills become deadlier in this mode, giving her the chance to conquer her enemies more easily.

NOTE: You can deactivate Domination mode by pressing the **L2 button again.**

END OF SCENE STATISTICS

When you complete a scene, statistics are displayed and your progress is scored. The Current score, Previous Best, and points awarded also appear. The score is then converted into diamonds so you can buy new moves.

SCENE OBJECTIVES	Details how she performed against the objectives set at the beginning of each level.
COMBAT BONUS	Shows how much Catwoman used the environment when fighting and measures how many times she attacked successfully.
MIDNIGHT BONUS	Shows whether she has discovered Midnight in the scene and how many times he has helped her out.
BLING FRAGMENTS	Shows how many pieces of 'bling' she has picked up. These particular treasures boost the points total for the scene.
SCENE SCORE	Displays the score in the current scene. Every 1000 points converts into one diamond.

Choose CONTINUE to go on to the next scene, or REPLAY SCENE to repeat the scene and try to improve upon your previous score. If you beat your previous high score, you are rewarded with more diamonds.

Choose DETAILED STATISTICS to see a breakdown of your scores. Press the D-button ⇄ to toggle between each category.

PURCHASING MOVES AND ABILITIES

The Purchase screen allows you to buy new moves and abilities for Catwoman using the diamonds earned through the scenes. These include new whip skills, enhanced Cat Sense abilities, Domination mode, and even new combat moves.

On this screen, a green diamond means that you can afford the ability, a red one means you cannot afford it yet, and a white diamond means you have already bought it.

REWARD SCREEN

At the end of each scene, you are informed of any comic book items you have unlocked. These can be moves that you have learned in the scene, or other bonus items. Go to the Comic screen to view these new items.

COMIC

This is the place where you can find out how to use all those great new moves and abilities. Access the Comic screen at the Main menu and highlight the choices by pressing the D-button ⇄. Press the ⓧ button to select a feature.
