INTRODUCTION

.....

Welcome to the world. A world...ruled by adults. A world where kids are forced to take naps, allowed only limited time to play videogames and are marched off to schools to learn the grown ups' version of history. A world where every precious moment of our free time is replaced with homework and piano lessons! Where our dinner plates are piled high with horrible, shriveled, slimy green vegetables.

But there is a group of kids who have stood up to say, "NO!" A group committed to battling the forces of adulthood and restoring freedom to kids everywhere. Recruited from the best and brightest kids around the globe, all under the age of 13 and operating under the direction of our Global Command Center on the surface of the Moon...we are... the **Kids Next Door**.

numbuh 1

Nigel Uno is the master tactician and leader of this cell of the KND. Armed with a broad variety of 2x4 weapons and gadgets, Numbuh 1 is the ranged combat master of the group. Armed with the M.U.S.K.E.T., G.U.M.Z.O.O.K.A., B.A.J.O.O.K.A. and S.C.A.M.P.P. he is a deadly force to be reckoned with.

numbuh 2

Hoagie P. Gilligan, Jr., ace pilot extraordinaire takes to the skies in the C.O.O.L.-B.U.S. and engages in furious dogfights. Upgrade the C.O.O.L.-B.U.S.'s weapon systems from a single cannon all the way to the homing F.I.R.E.F.R.I.E. missiles. Also use a shield to absorb enemy shots and power up the ingenious C.H.I.C.K.E.N.S.O.U.P.L.O.S.I.O.N. to blast everyone from the sky.

numbuh 3

Kuki Sanban is the compassionate heart of the group. Light hearted and loving, Kuki can become downright dangerous when armed with her F.R.A.P.P.E. and T.H.U.M.P.E.R. She has the ability to double jump and glide back to the ground using her over-sized sleeves as wings.

numbuh 4

Wallabee "Wally" Beatles is the tough guy of the group. Solving most problems with his fists, he can also be armed with the latest in 2x4 Technology, such as the S.P.L.A.N.K.E.R. and S.L.U.G.G.U.H. Wally can take as much punishment as he can dish out.

numbuh 5

Abigail "Abby" Lincoln is the covert operative and martial artist of the group. Easily the most level headed of the team, she's equally comfortable sneaking up on the bad guys or charging in head first and handing out some well deserved butt kicking. Upgrade her with 2x4 tech and use her nimble skills to take down the bad guys.

PLAYING THE GAME

MEMORY CARD (Recommended)

It is best to play Kids Next Door with a memory card in order to maximize the gaming experience. If you do not have a memory card in your PlayStation®2 when the power is turned on, you will be prompted to insert one. The game uses an autosave feature, so you can decline, but will be unable to save your progress or your unlocked content.

CREATE PROFILE

The game requires that you create or load a profile before you reach the Main Menu. Using the virtual keyboard, enter whatever name you'd like and select Enter to confirm. Use the Profile Manager from the Main Menu to create, select or delete other profiles.

MAIN MENU

A screen will now appear, with the KND Treehouse Headquarters on the left and a series of options on the right. Choose an option to get started.

Start Game: Start the adventure! Kids Next Door, Battle Stations!

Load Game: Load the last level played or any prior level.

Options: Tailor the game settings to suit your own tastes.

Top Secret: Access game cheats, unlockable images, and other cool stuff!

Manage Profiles: Create, Select or Delete Profiles.

Credits: View the credits (Hint: And in some cases play the credits by playing all the way through the game).

CONTROLS

Each KND operative has his or her own special talents and abilities. Some controller functions are universal for all the KND operatives, but others are customized for one or two agents. Please review the controller setup to become familiar with each operative's controls.

start button

START button pauses the game and allows you to change options and quit out of the current game and return to the Main Menu.

directional buttons

The Directional Buttons or Left Analog Stick can be used to navigate menus and switch weapons when available.

Left Analog stick

Push the Left Analog Stick to move forward and pull it back to move backwards. Pushing the Left Analog Stick to the left or right allows the operative to turn in that direction. Combine Left Analog Stick with the **L1** button for additional controls.

Right Analog stick

Rotate your view left or right by pushing the Right Analog Stick in that direction. Tilting the stick forwards and backwards will tilt your view up and down. When combined with the **L1** button, pushing the Right Analog Stick left or right will switch between available targets.

MISSION CRITICAL INFORMATION

Powuh – Pick these up to increase your Powuh. Powuh gives you the ability to do special attacks and awesome damage.

2x4 Spare Parts – Gather enough of these in each level to unlock 2x4 Upgrades. In flying levels, the 2x4 spare parts upgrade weapons.

Rainbow Monkeys – Collect these in each level to unlock Top Secret content.

Fireflies (Kuki only) – Have these little critters follow you to achieve game goals.

Hamsters (Kuki only) – Roundup these fur balls to achieve game goals.

Kids (Nigel only) – Free these kids from an awful spanking.

Engine Parts (C.O.O.L.-B.U.S. only) – Collect enough of these parts to build 2x4 Tech.

Computer Codes (Nigel only) – Collect enough of these codes to unlock the Main Door.

Checkpoints – Triggering these determines where you'll respawn in the event something defeats you.

Lock-on

Lock-on is a very important combat feature. It allows you to target an enemy and keep him in your sights at all times. You can change targets by simply "bumping" over to a new enemy by pushing the right analog stick. While moving in lock-on mode, you will circle your target and when you jump, you will do cool flips to dodge.
