USING THE EYETOY™ USB CAMERA (FOR PLAYSTATION®2)

Insert the EYETOY™ USB camera (for PlayStation®2) into either the upper or lower USB connector on the front of the console. The LED power indicator (blue) should be on.

Place the camera on top of or immediately below your television and stand back between 5 to 7 feet.

Rotate the manual focus ring to focus the lens. Try to ensure that your body shape is clearly defined on the screen. If your television is positioned on the floor, simply tilt the EyeToy™ USB camera (for PlayStation®2) upwards. If the EyeToy™ USB camera (for PlayStation®2) is too high, tilt it downwards. You can also swivel the camera base left and right to reposition the camera.

NOTE: Players of different heights should tilt the angle of the camera for extra convenience. DO NOT move the whole camera, just tilt it gently.

TIP: By all means find a waving style that suits you, but it is recommended to wave with your fingers apart as this creates more motion feedback.

TIP: Make sure that there is no movement in the background as background motion may hinder gameplay.

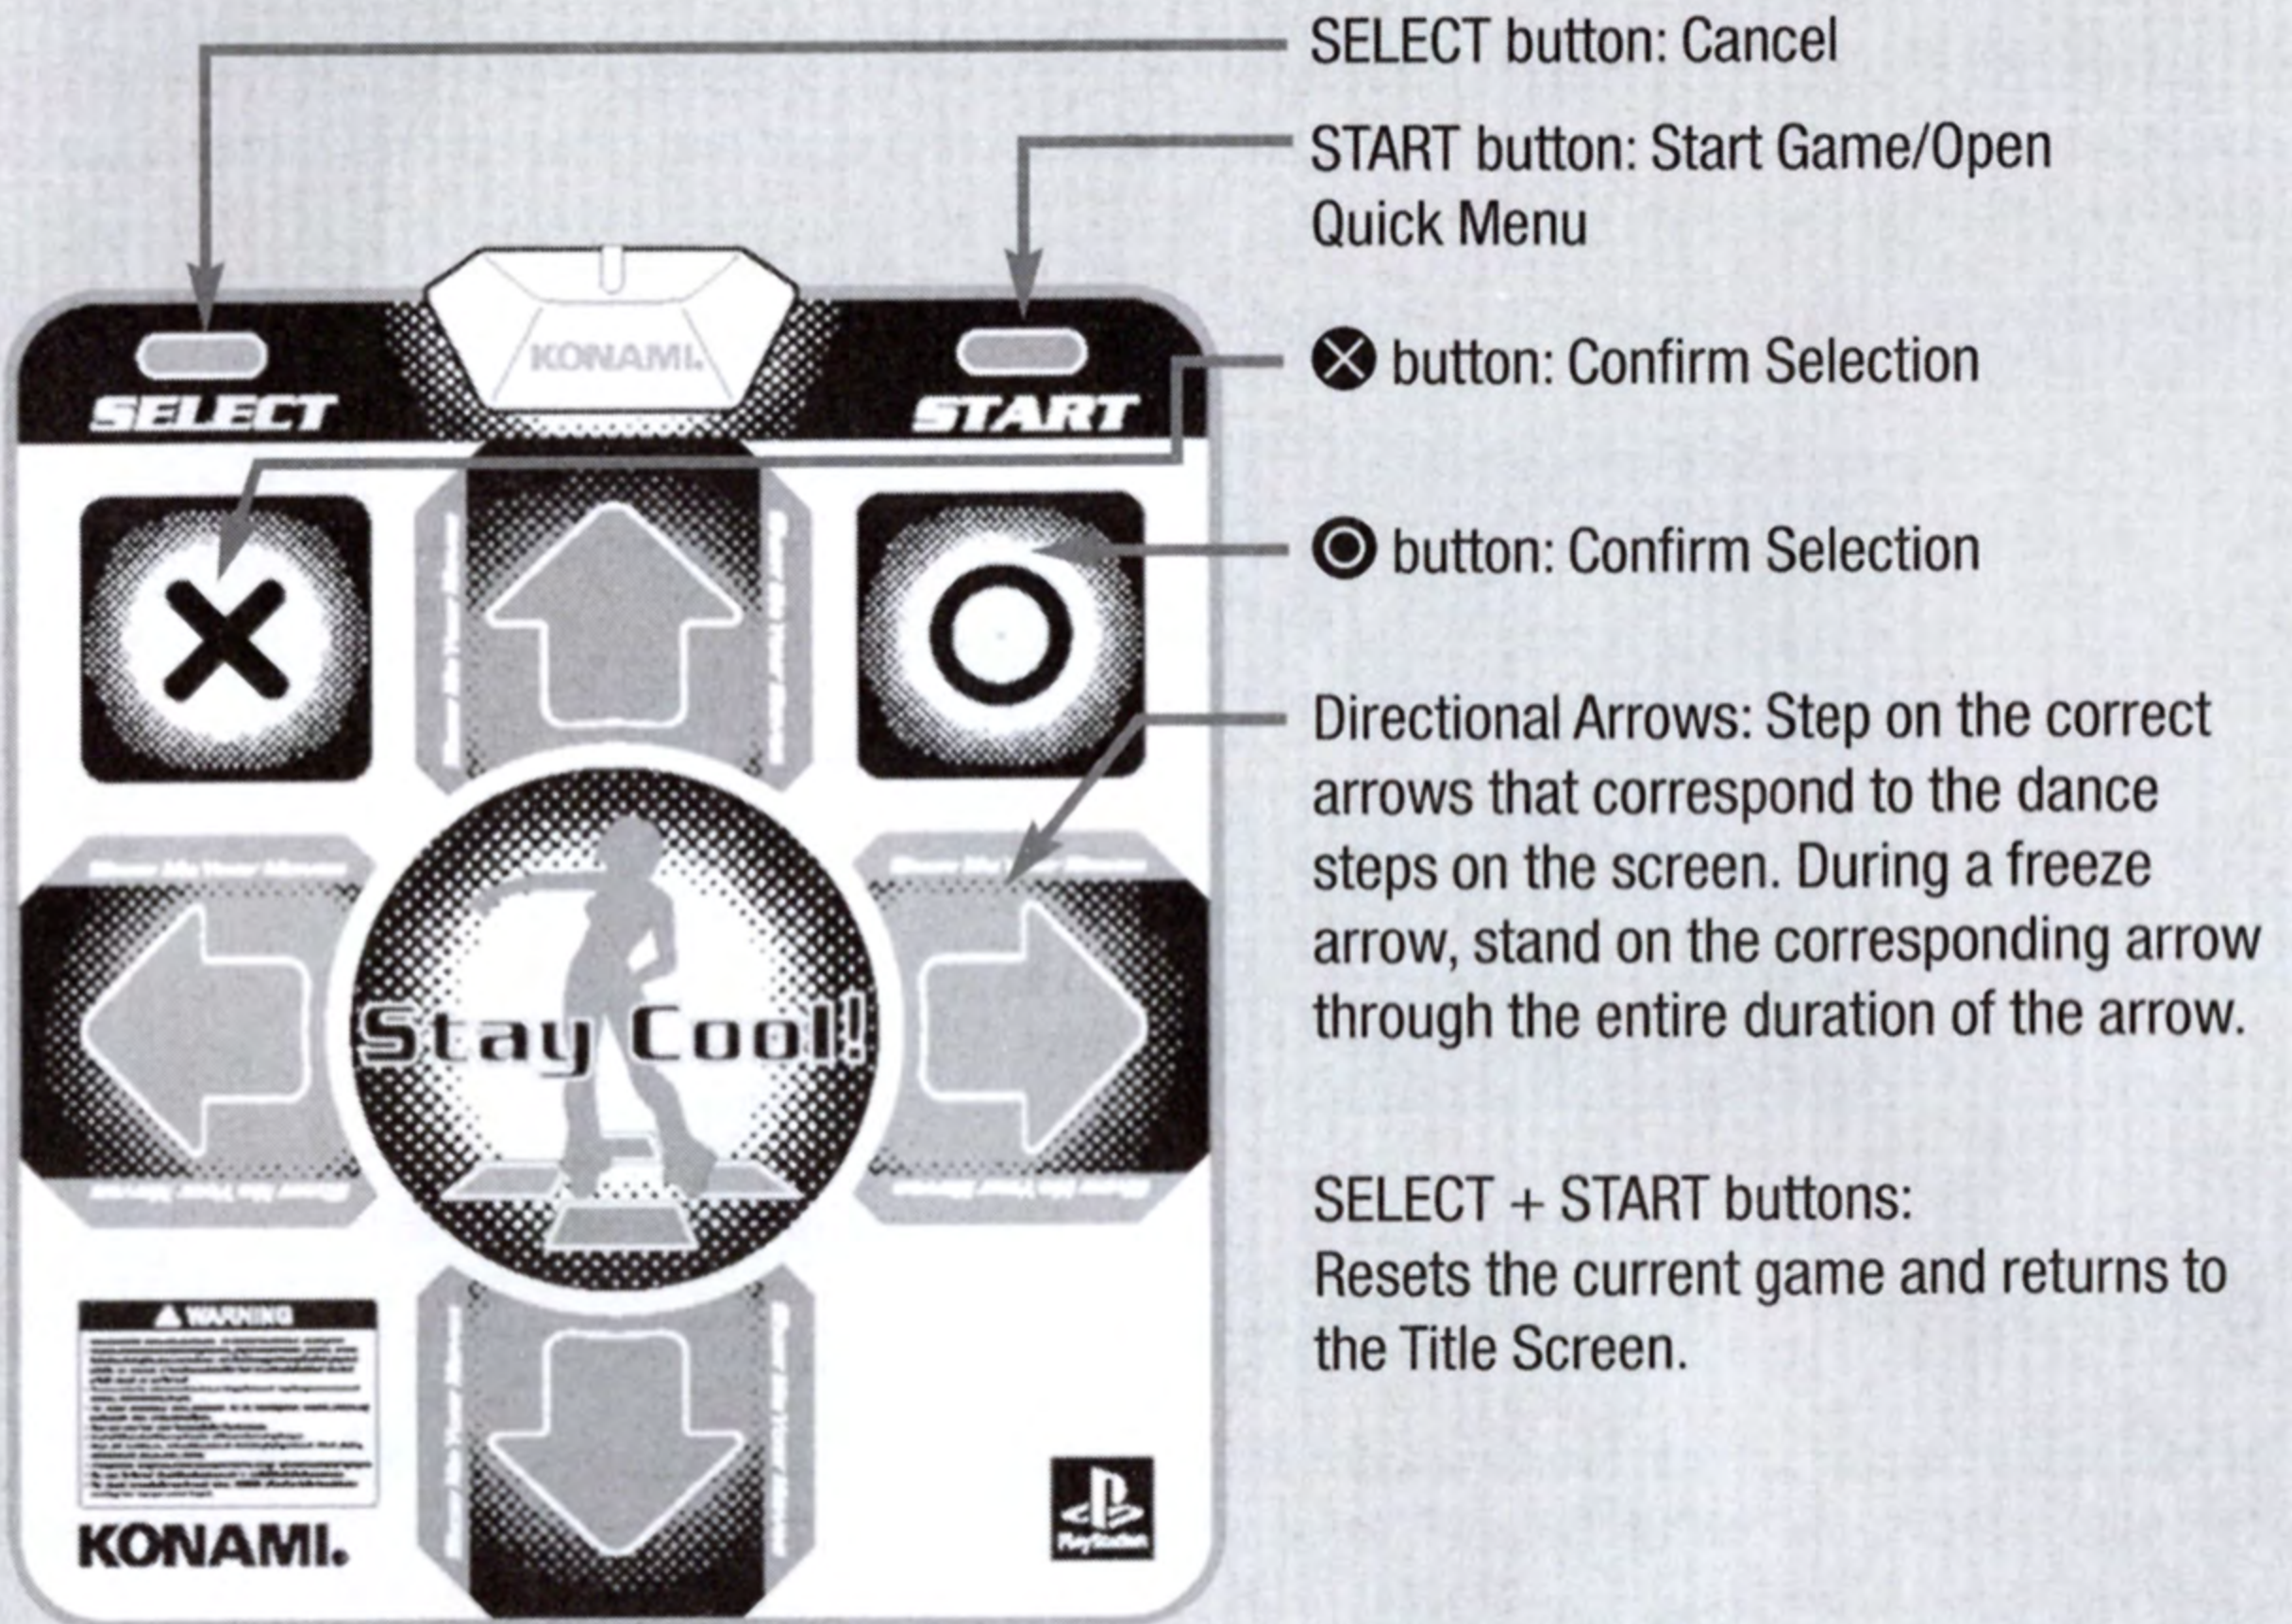

TIP: Make sure you have enough room to play. Consider the space around you and watch out for shelves, doors, walls, pets and above all, other people.

NOTE: Some button functions may be different depending on the mode you are playing. Follow the on-screen instructions or refer to the other sections in this instruction manual for more information.

HOW TO PLAY

Dance Dance Revolution EXTREME 2 is a game that combines quick reflexes and timing with dance music. All you have to do is press the correct directional buttons or Directional Arrows on the DDR Controller that correspond to the arrow(s) that appear on-screen. The correct dance arrow must be pressed when it crosses the permanent arrows inside the Step Zone. The Step Zone for each player is located in the upper part of the screen.

Build up your dance meter and continue to the next stage by successfully completing the dance steps. However, if you continue to miss dance arrows, the dance meter level drops. If the meter drops to zero, the game will end.

TIP: Listen to the music as you play and press the arrows to the rhythm of the beat.

TIP: As you clear missions, new selections will be revealed. What will clearing them all reveal?

CHART

The Chart displays the sequence of the selections in diagram form. The mission is indicated by the panel shown on-screen.

NOTE: When playing in SINGLE play style, another player can join in the game by pressing the START button on the unused controller.

TIP: If you enable the EyeToy™ USB Camera (for PlayStation®2) but do NOT choose Hands & Feet mode, you will play the normal game, but all of the backgrounds will be replaced with you! To display the camera view, press the  button to open the Quick Menu and then select CAMERA view. This enables you to make any necessary adjustments to the EyeToy™ USB camera (for PlayStation®2). Hold down the  button to exit this mode and return to the previous screen.

USING THE EYETOY™ USB CAMERA (FOR PLAYSTATION®2)

Select whether or not to play modes using the EyeToy™ USB Camera (for PlayStation®2).

By choosing to use the EyeToy™ USB Camera (for PlayStation®2), you will be able to use images taken by the camera as the game's background screen, or play the Hands & Feet style.

NOTE: You will not be able to play modes using the EyeToy™ USB camera (for PlayStation®2) if it is not plugged into the console.

SELECT CHARACTER

After the style has been selected, select a character you would like to have on-screen during play. If you wish to play without any characters, select OFF from the Select Character menu.

If you are playing SINGLE, another player can join the game by pressing the  button on the unused controller.

NOTE: Characters will not be displayed in modes using the EyeToy™ USB camera (for PlayStation®2), or during certain songs.

SELECT MUSIC

After the play style and character have been selected, the Select Music screen will appear. Use the ← and → directional buttons to cycle through the different songs. You can set the difficulty of the steps and the OPTIONS by pressing the ↑ and ↓ directional buttons.

A preview of each song will play automatically before a selection is made.

The available difficulty levels differ, depending on the song. If you are playing SINGLE, another player can join the game by pressing the START button on the unused controller.

If there is selectable data in the “Edit Library” file in your memory card (8MB)(for PlayStation®2), you can access it by choosing “EDIT DATA.” After choosing the folder containing the saved Edit Data you’d like to play, select the edited song.

When all adjustments are made, confirm a song selection with the X or O buttons.

DIFFICULTY MENU

Press the ↑ or ↓ directional buttons to toggle between the BEGINNER, LIGHT, STANDARD, HEAVY and CHALLENGE difficulty settings. The colors associated with these difficulties are light blue (BEGINNER), yellow (LIGHT), red (STANDARD), green (HEAVY) and purple (CHALLENGE).

BEGINNER: The easiest difficulty level that has an easy-to-follow on-screen dancer to guide the player. First-time players should start at this level. BEGINNER level does not support the DOUBLE play style.

LIGHT: Default difficulty for each song where dance steps follow normal patterns.

STANDARD: Intermediate difficulty where dance steps follow complex patterns.

HEAVY: Strictly for DDR pros. This is the hardest level of difficulty where dance steps follow insane patterns.

CHALLENGE: Strictly for DDR pros. This difficulty class is similar to HEAVY but the dance steps are very tricky and designed to be an added challenge for the most expert of dancers. Not all songs support this difficulty class.

Within these difficulty classifications, a foot rating and groove radar rates the difficulty of each song. Understanding these two rating systems is helpful when choosing songs that are appropriate for your skill level.

FOOT RATING

The rating scale is based on the original Dance Dance Revolution™ rating system and uses a ten foot scale. A higher foot rating in a song indicates a harder difficulty (1 foot = easiest, 5 feet = average, 10 feet = hardest). The color of the foot rating will change depending on the difficulty level selected.

GROOVE RADAR

The groove radar is a graphical representation of a song's difficulty based on the following five attributes:

STREAM: Overall density in the dance step patterns.

CHAOS: The degree of irregularity/complexity in the step patterns.

FREEZE: The number of freeze arrows in the step patterns.

AIR: The number of jumps (i.e. player's airtime) in the step patterns.

VOLTAGE: The degree of maximum density in the dance step patterns.

Each song is calculated with these five attributes, plotted on a pentagonal chart and graphed. The resulting graph occupies a specific area size on the pentagonal chart. As a general rule, when the overall size increases, the difficulty of the song increases.

HANDS & FEET/EYETOY™ USB CAMERA (FOR PLAYSTATION®2)

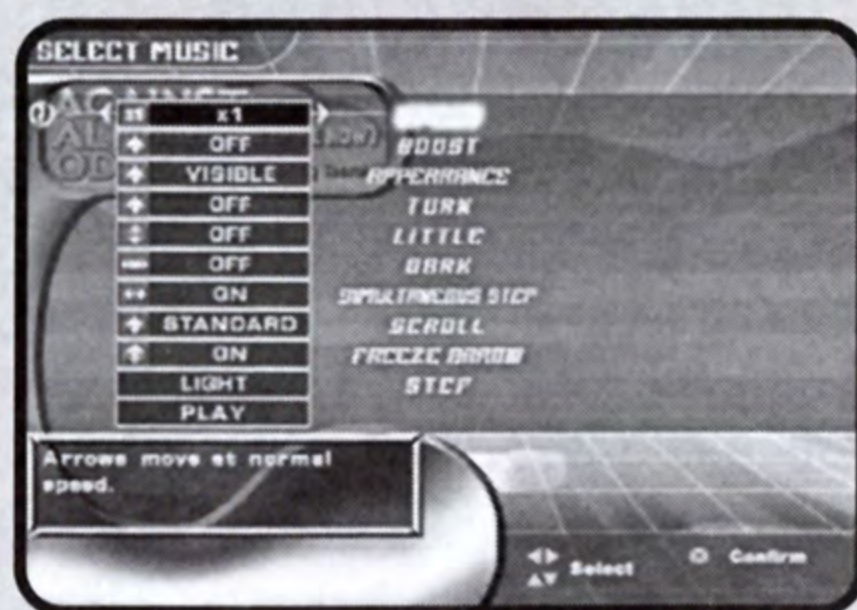

Experience a very physical way to play the FREE PLAY MODE of DDR EXTREME 2 by using your hands and your feet. This game is designed for one player only and EDIT DATA functions are not available.

Dance steps and hand icons will scroll from the bottom of the screen to the top. Move your left and right hands to touch the permanent hand icons near the upper left and upper right of the screen when the corresponding hand icons cross the TOUCH ZONE.

Perform the dance steps by following the traditional DDR rules and guidelines.

Thereafter, when you choose a password-protected User File from the User List, you will need to enter the correct password in order to open it. Please do not forget your password, or you will be unable to access the file.

The tags at the top of the screen indicate the item categories.

MUSIC: Purchase songs for use in FREE PLAY MODE.

DANCING TIPS AND BEGINNER'S GUIDE

Follow these special tips to become a pro player.

- You are not penalized for hitting incorrect dance steps. You are only penalized for missing the correct dance steps. Many players find it easier to keep time by always dancing to the beat, even if there is a break in the arrows. It is also a good idea to reposition yourself on the DDR Controller before starting a complex dance pattern in order to start things off on the right foot.
- Avoid returning to the center while playing. Learn to move around the entire DDR Controller and utilize both feet when possible.
- To execute certain dance patterns, it is sometimes easier to pivot your body and face different directions rather than always looking forward at the screen.
- Practice, practice, practice!! At first you may feel discouraged by failing easy level songs, but you will be mastering Challenge courses in no time!
- There are hidden songs, modes and other items that can be unlocked by playing the game. DDR EXTREME 2 uses a special system for unlocking something new. You can influence how fast the game unlocks something by playing more songs in DANCE MASTER MODE, reaching high scores, performing well, earning high letter grades and playing other modes, such as FREE PLAY MODE or ADVANCED MODE.
- Be sure to complete DANCE MASTER MODE in order to unlock the hidden secrets of DDR EXTREME 2. Some items can only be unlocked by playing DANCE MASTER MODE.
- If you get stuck on a mission in DANCE MASTER MODE, take a break and play a different section of the game to improve your dancing skills. After awhile, give it another try and maybe you will unlock something new!
- Be sure to check SHOP on a regular basis to see if any new items have been unlocked. You can get a sneak peek at new songs in DANCE MASTER MODE and ADVANCED MODE—certain songs will appear in these modes before they are unlocked.
- Don't forget the Beginner difficulty, Lesson Mode and Training Mode. These are key to learning how to play and mastering difficult songs.
- Remember to use difficulty modifiers, such as LITTLE or SHUFFLE, so that songs at higher difficulties become easier to learn or more fun to play. If you are having difficulty with freeze arrows, turn off the FREEZE ARROW difficulty modifier. Also, if you don't like jumping or have difficulty jumping, turn off the SIMULTANEOUS STEPS difficulty modifier.
- If you have trouble passing certain songs, remember that you can create your own dance steps for every song in EDIT MODE. This will allow you to enjoy every song in DDR EXTREME 2. Over time you can learn how to pass the original version of the song.
- You can learn valuable dance tips and advice from other DANCE DANCE REVOLUTION players.
- In some cases, increasing the speed of the arrows will make certain songs easier to play and improve your timing skills.

IN NO EVENT SHALL KONAMI OR KONAMI AFFILIATES BE LIABLE FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING FROM ANY CLAIM RELATED IN ANY WAY TO YOUR USE OF THE ONLINE GAME.

10. SUSPENSION.
