USING THE EYETOY™ USB CAMERA (FOR PLAYSTATION®2)

1. Insert the EyeToy™ USB camera (for PlayStation®2) into either the upper or lower USB connector on the front of the console. The LED power indicator (blue) should be on.

2. Place the camera on top of or immediately below your television and stand back between 5 to 7 feet.

3. Rotate the manual focus ring to focus the lens. Try to ensure that your body shape is clearly defined on the screen. If your television is positioned on the floor, simply tilt the EyeToy™ USB camera (for PlayStation®2) upwards. If the EyeToy™ USB camera (for PlayStation®2) is too high, tilt it downwards. You can also swivel the camera base left and right to reposition the camera.

NOTE: Players of different heights should tilt the angle of the camera for extra convenience. **DO NOT** move the whole camera, just tilt it gently.

TIP: By all means find a waving style that suits you, but it is recommended to wave with your fingers apart as this creates more motion feedback.

TIP: Make sure that there is no movement in the background as background motion may hinder gameplay.

TIP: Make sure you have enough room to play. Consider the space around you and watch out for shelves, doors, walls, pets and above all, other people.

HOW TO PLAY

Dance Dance Revolution SuperNOVA is a game that combines quick reflexes and timing with dance music. All you have to do is press the correct directional buttons or Directional Arrows on the DDR Controller that correspond to the arrow(s) that appear on-screen. The correct dance arrow must be pressed when it crosses the permanent arrows inside the Step Zone. The Step Zone for each player is located in the upper part of the screen.

Build up your dance meter and continue to the next stage by successfully completing the dance steps. However, if you continue to miss dance arrows, the dance meter level drops. If the meter drops to zero, the game will end.

TIP: Listen to the music as you play and press the arrows to the rhythm of the beat.

STARTING THE GAME

After the introductory logos are displayed, the Title Screen will appear. Press the \otimes , \odot or \blacktriangleright button to bring up the MODE SELECT Screen. Use the directional buttons to scroll UP and DOWN to choose a mode and press the \otimes , \odot or \blacktriangleright button to confirm your selection.

NOTE: There are many different songs and modes in Dance Dance Revolution SuperNOVA. Some songs, modes, and characters cannot be played until specific mission targets are cleared. Do your best and try to unlock them all!

STARTING THE GAME

Stellar Master Mode: Prove your worth as a true dancing master by completing this mode. Work your way through the Stellar Joints and try your hand at the Trials and Showdowns to collect VIP cards.

Game Mode: This mode is similar to the game mode found in other versions of DDR®. If you have an EyeToy™ USB camera (for PlayStation®2) connected to your game system the Hands & Feet difficulty setting can be enabled in GAME MODE.

Workout Mode: Have fun while burning off those calories! WORKOUT MODE allows you to count the number of calories consumed during play. Access WORKOUT MODE to change your personal Workout Settings and view your historical workout data.

Advanced Mode: A mode for advanced players to test their skills with different rule sets. There are modes for two players, a Battle Mode for one player to play against the computer or a friend and a Course Mode to play through multiple songs in a row.

NOTE: When you start playing, only Battle Mode and Course Mode will be available. The remaining modes must be unlocked before playing.

Training Mode: Having trouble with a particular song? Then this is the place to be! TRAINING MODE allows you to break down a difficult piece step-by-step so you can master the fanciest footwork.

Edit Mode: This mode allows players to create original dance routines to any song. The dance steps can be saved and re-played in DDR SuperNOVA.

NOTE: Interchanging edit data only works with the same songs that exist in each game.

Online Mode: You can connect to the Internet to play against other players or chat.

Link Mode: In this mode, you can link to the arcade version of the DDR SuperNOVA game, create link data or view results from the arcade version.

Records: Check out your High Scores for each section.

Options: Adjust settings for sound, display, gameplay and view the credits.

Shop: Purchase new songs, courses and more with the points that you have earned while playing the game

STELLAR MASTER MODE

Work your way through the many Stellar Joints and collect all of the VIP Cards. At each Stellar Joint, complete a set number of Trials and then try to win the Showdown to get a VIP Card. Each Stellar Joint has a name and the songs you can choose from and the dancing characters are different. The Stellar Joints you can go to will change depending on the VIP Cards you have. Trials can be completed by fulfilling a set of conditions and these conditions can be affected by the difficulty setting and gameplay options. Upon completing enough Trials, you can try the Showdown, comprised of a number of Drills, to successfully win a VIP Card. There are three types of VIP Cards in each Stellar Joint, depending on the difficulty level played. Drills you have tried once can be played again in Training, which allows you time to practice in order to complete the Showdown. Refer to the on-screen instructions for further information.

GAME MODE

This mode is similar to the game mode found in other versions of DDR. Choose your play style (Single, Versus, Double, Hands & Feet), select your mode (Tutorial, Easy, Medium, Hard, All Music), select your music and step difficulty (Beginner, Basic, Difficult, Expert, Challenge), access personalized Edit Data (if available), change gameplay options (if necessary) and then begin playing a series of songs. Refer to the on-screen instructions for further information.

WORKOUT MODE

In WORKOUT MODE, you can change the pattern of the steps to give you an effective aerobic workout, or play Courses that are best suited for burning calories.

You can view your workout data in a number of fun ways, such as tracking the total number of calories you've burned, or converting

your data to give the total distance ran. DDR SuperNOVA will track your distance in 10 mile blocks. You can also input your weight and save it as a graph, so use it to plan your fitness regimen!

Up to 10 different players can track their data in WORKOUT MODE by saving play data to a User File.

Refer to the on-screen instructions for further information.

ADVANCED MODE

Geared towards advanced players, you can enjoy playing the game under more challenging rules. Advanced Mode features five different types of gameplay. Initially only the COURSE mode and Battle Mode are available. You will have to unlock the rest by achieving certain targets while playing DDR SuperNOVA.

COURSE: Play a series of predetermined songs. You can also create your own original Course to play.

BATTLE: A mode in which you can build up power in your Attack Meter to attack your opponent as you play. You can play with two players or alone against the computer.

ENDLESS: Keep on playing until the dance meter runs out. You can opt to only play songs of your own choosing, or add various Options to the game.

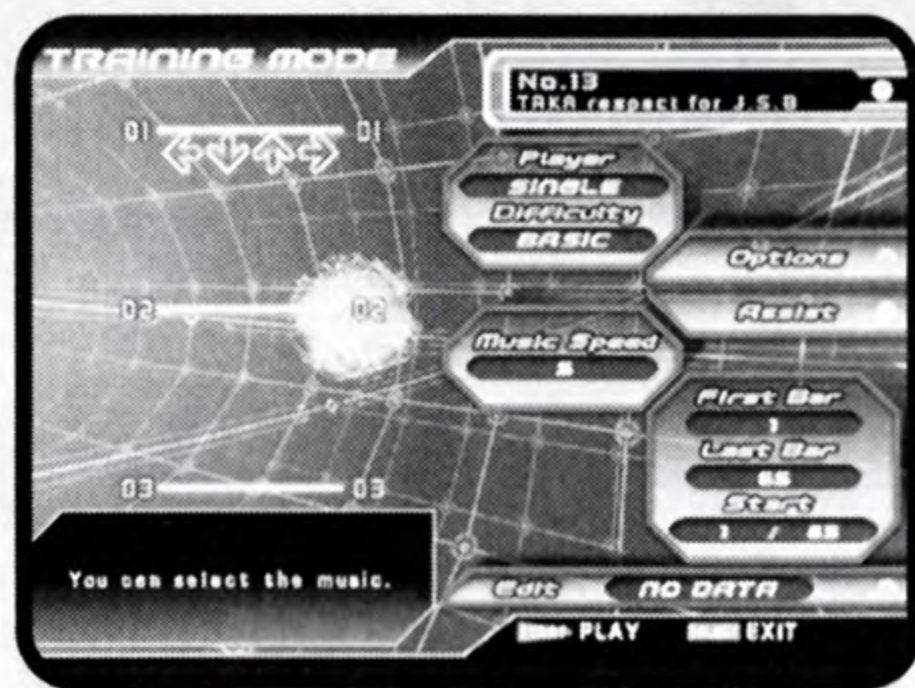

SURVIVAL: Get a rating of GOOD or lower 4 times, and the game ends immediately! This mode is for expert players. See how long you can keep playing.

COMBO CHALLENGE: The game is over once your COMBO ends! This mode is for super expert players. See how long you can continue to earn a COMBO.

Refer to the on-screen instructions for further information.

TRAINING MODE

The TRAINING MODE is designed to help you practice any songs featured in DDR SuperNOVA. This mode is especially useful when learning harder songs at higher difficulty levels. You can practice the entire song or concentrate on a specific portion of a song that gives you the most trouble. Choose the song you wish to practice and press the **X** or **O** button to bring up the Training Menu. Refer to the on-screen instructions for further information.

EDIT MODE

EDIT MODE enables you to create a custom designed dance routine for any song featured in DDR SuperNOVA. Dance routines can be saved to a memory card (8MB)(for PlayStation®2) for future playback or editing. Additionally the dance routines can be used in GAME MODE and TRAINING MODE. Refer to the on-screen instructions for further information.

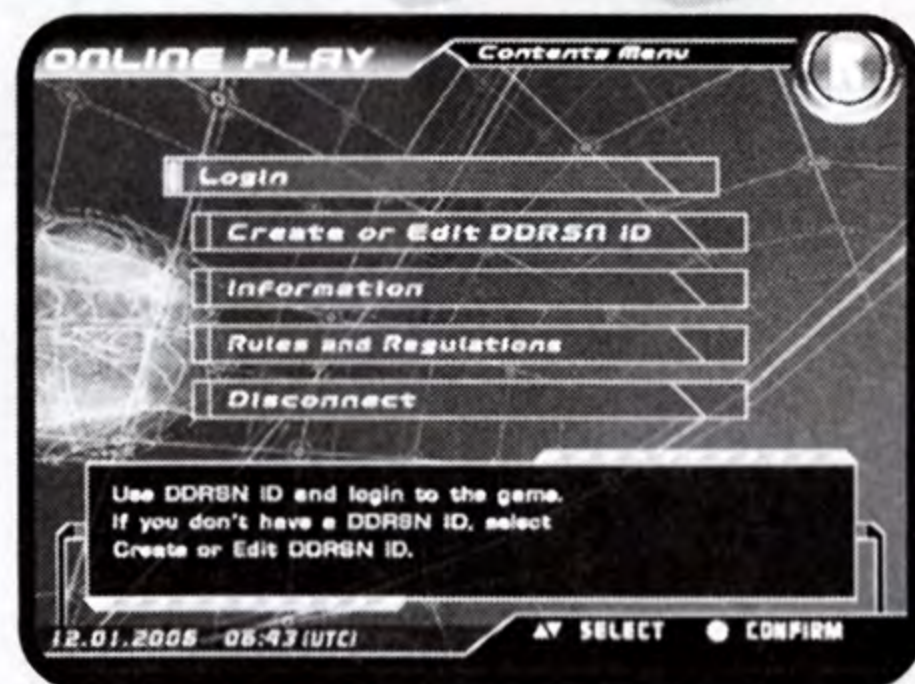

NOTE: A DUALSHOCK®2 analog controller is required when creating edit data in EDIT MODE.

ONLINE PLAY

Compete with other players online, and fight for a place in the worldwide Internet rankings!

Before starting Online Play, ensure that the Network Adaptor (Ethernet/modem) (for PlayStation®2) is connected correctly. If the Network Adaptor (Ethernet/modem) (for PlayStation®2) is not properly connected, reconnect it and restart before attempting to enter Online Play mode. Refer to the on-screen instructions for further information.

NOTE: Network settings can be created using the Network Adaptor Start-Up Disc included with the Network Adaptor (Ethernet/modem) (for PlayStation®2).

LINK MODE

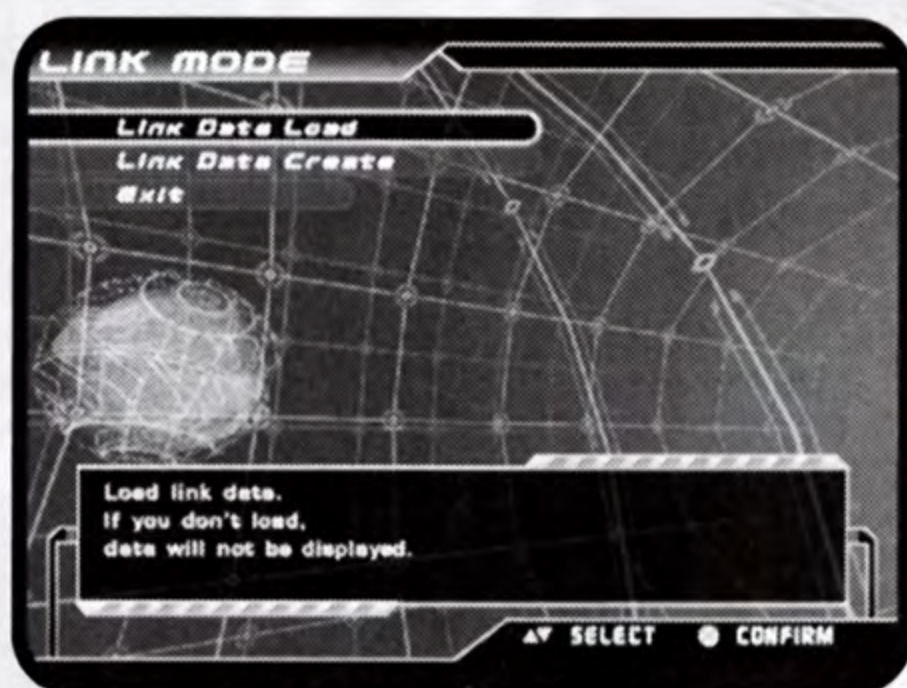

You can use this mode to link to the DDR SuperNOVA arcade machines that support this function. To link without using an Edit Library, you will need supported Link Data.

To use Link Mode for the first time, you must use "Link Data Create" to create new Link Data. Once you have created Link Data, you can use it to link to arcade machines that support this function.

After you have created Link Data, you can load this data using "Link Data Load." Use "Name Entry" to enter the name you will use in the arcade machine, and use "Link Data Save" to save. If you do not save, your results will not be reflected.

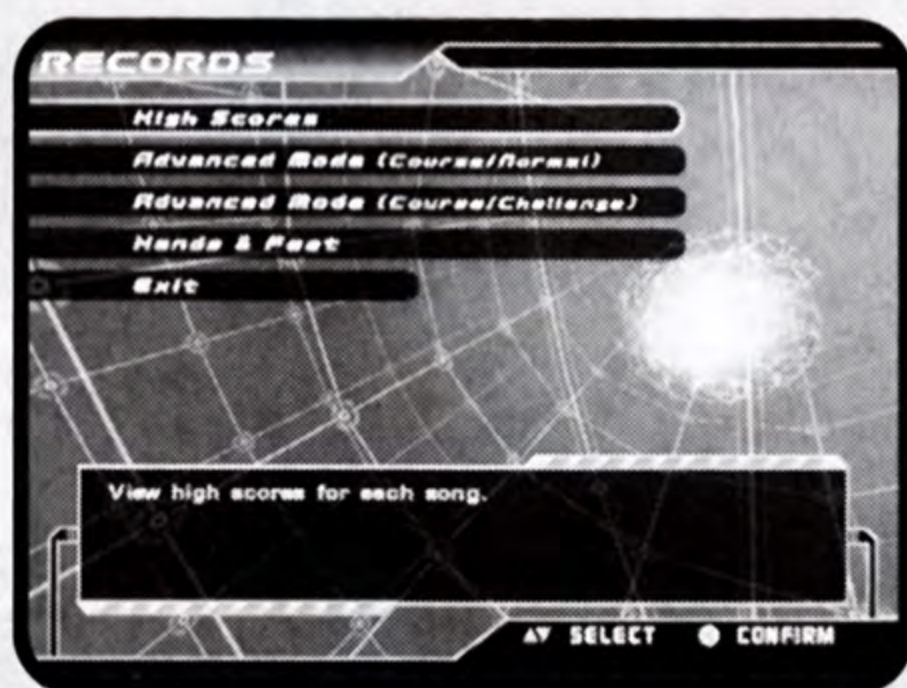

Insert a memory card (8MB)(for PlayStation®2) into an arcade machine that supports this function, then use the Arcade Link to view various information written into the Link Data. If there is no Arcade Link, some parts of the menu will not appear.

WARNING: You can use the Edit Library from this game in "DDR SuperNOVA" series arcade machines that support the memory card (8MB)(for PlayStation®2). Please read the warning on the arcade machine carefully, and follow the instructions. Also, if you use your memory card (8MB)(for PlayStation®2) in an arcade machine, there is a small chance that the data saved to your memory card (8MB)(for PlayStation®2) could be lost. We recommend that you back-up your data frequently onto another memory card (8MB)(for PlayStation®2) and use a dedicated memory card (8MB)(for PlayStation®2) specifically for this function that does not contain save data from other games. Konami is not responsible for lost data for any reason.

RECORDS

Keep track of your progress and view your all time high scores! You can view scores from any of the following categories: High Scores, Advanced Mode [COURSE/NORMAL], Advanced Mode [COURSE/CHALLENGE], Advanced Mode [ENDLESS], Advanced Mode [SURVIVAL], Advanced Mode [COMBO CHALLENGE], and Hands & Feet. Refer to the on-screen instructions for further information.

OPTIONS

The OPTIONS MODE contains a variety of settings that you can configure to suit your personal tastes. Press the ▲ and ▼ directional buttons to cycle through the desired options and press the ◀ and ▶ directional buttons to change settings. After all settings have been adjusted, highlight EXIT and press the × or ○ button to confirm the settings and return to the previous menu. Cancel a selection with the △ or ■ buttons. Refer to the on-screen instructions for further information.

NOTE: This game is presented in Dolby® Pro Logic® II surround sound. Connect your game console to a sound system with Dolby Pro Logic, Dolby Pro Logic II, or Dolby Pro Logic IIx decoding to experience the excitement of surround sound. You may need to enable Dolby Pro Logic II in the audio options menu of the game.

SHOP

SHOP MODE is where you can unlock a number of great items by using the dance points you earned by playing. As you play through the game, more and more items will become available. Can you unlock it all?

NOTE: In order to purchase an item, you must have enough dance points in the bank. The game will display the current amount of dance points in the lower right hand corner of the screen. If this number is lower than the cost of the item you want to buy you will be unable to purchase it.

TIP: If you don't have enough money to purchase an item right away, simply play some more songs. Every song you successfully complete will add more dance points to your bank!
