BLACK HAWK DOWN[®]

Game Experience May
Change During Online Play

NOVALOGIC[®]

WARNING: READ BEFORE USING YOUR PLAYSTATION®2 COMPUTER ENTERTAINMENT SYSTEM.

A very small percentage of individuals may experience epileptic seizures when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or while playing video games, including games played on the PlayStation 2 console, may induce an epileptic seizure in these individuals. Certain conditions may induce previously undetected epileptic symptoms even in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition, consult your physician prior to playing. If you experience any of the following symptoms while playing a video game – dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions – IMMEDIATELY discontinue use and consult your physician before resuming play.

WARNING TO OWNERS OF PROJECTION TELEVISIONS:

Do not connect your PlayStation 2 console to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

USE OF UNAUTHORIZED PRODUCT:

The use of software or peripherals not authorized by Sony Computer Entertainment America may damage your console and/or invalidate your warranty. Only official or licensed peripherals should be used in the controller ports or memory card slots.

HANDLING YOUR PLAYSTATION 2 FORMAT DISC:

- This disc is intended for use only with PlayStation 2 consoles with the NTSC U/C designation.
- Do not bend it, crush it or submerge it in liquids.
- Do not leave it in direct sunlight or near a radiator or other source of heat.
- Be sure to take an occasional rest break during extended play.
- Keep this compact disc clean. Always hold the disc by the edges and keep it in its protective case when not in use. Clean the disc with a lint-free, soft, dry cloth, wiping in straight lines from center to outer edge. Never use solvents or abrasive cleaners.

GETTING STARTED

SETTING UP YOUR CONSOLE

** Note: Illustration may not match all PlayStation 2 console types. For owners of SCPH-70000 series PlayStation 2 systems, refer to the setup instructions supplied with your system.*

Set up your PlayStation®2 computer entertainment system according to the instructions in its Instruction Manual. Make sure the MAIN POWER switch (located on the back of the console) is turned ON. Press the (RESET) button. When the power indicator lights up, press the OPEN button and the disc tray will open. Place the **DELTA FORCE® – BLACK HAWK DOWN®** disc on the disc tray with the label side facing up. Press the OPEN button again and the disc tray will close. Attach game controllers and other peripherals as appropriate. Follow on-screen instructions and refer to this manual for information on using the software.

MEMORY CARDS (8MB) (for PlayStation®2)

It is advised that you do not insert or remove accessories or your memory card (8MB) (PlayStation®2) once the power is on. Make sure there is enough free space on your memory card (8MB) (PlayStation®2) before commencing play.

To save game settings and progress, insert a memory card (8MB) (for PlayStation®2) into the MEMORY CARD slot 1 of your console. You can load saved games from the same memory card (8MB) (for PlayStation®2) or any memory card (8MB) (for PlayStation®2) containing previously saved games.

ONLINE PLAY

A memory card (8MB) (for PlayStation®2) is required to play **DELTA FORCE® – BLACK HAWK DOWN®** Online. Before playing Online, a valid network configuration must be saved to the memory card (8MB) (for PlayStation®2) using the Network Adaptor Start-up Disc or from the game via the Edit Network Configuration Option.

SETTING UP YOUR USB HEADSET (OPTIONAL)

The headset allows you to issue commands to your teammates during gameplay and to talk with other players in Online modes. This is an optional feature and not required to play the game.

The USB headset connects to either of the USB (Universal Serial Bus) connectors located on the front of your PlayStation®2 console. With the USB symbol facing UP, insert the cable into one of the USB connectors.

CONTROLS

USING THE DUALSHOCK®2 ANALOG CONTROLLER

DUALSHOCK®2 ANALOG CONTROLLER CONFIGURATIONS

Navigating the Front End Menus

Press the Directional buttons **↑/↓/←/→** or use the left analog stick to navigate the front end Menus. Select an option by pressing **×**. To return to a previous screen, press **△**. To change the controller settings, go to the controller options from the main game interface.

Advanced In-Game Controls

Press down **R3** to change fire modes. Using semi-automatic mode is ideal when ammo is short or accuracy is vital. Automatic fire is best when the odds are against you.

Hold down **L3** to engage voice communications (if USB headset is attached). In single player, this can be used to issue commands to your squad via voice recognition. In multiplayer this is used to communicate with your teammates. Hold down **△** to display the command wheel. Use the Directional buttons or

left analog stick to select a command. Releasing the **△** will select the highlighted command. Hold down **R2** to activate the Grenade Menu. When this Menu is active, an action overlay is displayed on screen. This overlay represents the four face buttons on the DUALSHOCK®2 analog controller. Press the corresponding button on the controller to utilize the displayed grenade type. The Directional buttons can also be used to fire grenades while holding down **R2**. Hold down **L2** to activate Peek Mode, then use the left analog stick to peek left and right. When crouched, use up on the left analog stick to peek upwards. Peaking is a great way to fire at enemies while keeping the majority of your body behind cover. Hold down **L1** to look down the sights of your weapon. When looking down the sights you will fire with much greater accuracy. If your currently selected weapon has a scope, hold down **L1** to look through the weapon's scope. Not all weapons have a scope or sights; these weapons tend to be less accurate.

ONLINE ACTION

CONNECTING OVER THE INTERNET

SETTING UP FOR ONLINE PLAY (OPTIONAL)

Set up your PlayStation®2 computer entertainment system to connect over the Internet. **DELTA FORCE® – BLACK HAWK DOWN®** functions Online only through a broadband (DSL or Cable modem) connection.

A Network Adapter (Ethernet) (for PlayStation®2) is required to play Online. Install the Network Adapter (Ethernet) (for PlayStation®2) into your console according to the instructions in its instruction manual.

NOTE: By joining an Online session, you must leave the NovaLogic-controlled environment in **Delta Force® – Black Hawk Down®**. The game's content has been rated for Teen audiences, but the content of the game may change due to interactive exchanges. NovaLogic and Sony Computer Entertainment America take no responsibility for the content external to the game itself. **Please read the terms of use for Online play at www.blackhawkdownthegame.com.**

SOMALIA: A Troubled History

Wrapped around the Horn of Africa, Somalia is struggling to become a unified nation after centuries of foreign occupation and internal clan fighting.

Initially populated only by indigenous tribes, Somalia's position astride lucrative trade routes and lack of a cohesive government made it a prime target for foreign control as early as the 6th century.

The first prominent government of the area was the Sultanate of Adel formed by Arab tribes along the Gulf of Aden in the 600's. In the 1500's, the Portuguese dismantled the ruling Arab Sultanate and took control of the northern coastline.

By the end of the 18th century, the region was occupied by the Ottoman Empire to the north and by the Sultan of Zanzibar to the south.

Following the construction of the Suez Canal in 1869, Somalia came under control of England in the north and Italy in the south. Both nations would have a lasting impact on the people and landscape of Somalia. The southern region, known as Italian Somaliland, saw the Italian language, architecture, and food become staples in their society.

Independence and Revolutions

It was not until a United Nations mandate in 1960 that the Republic of Somalia was officially born. The celebration was to be short-lived as only nine years later General Siad Barre would lead a military revolt to take control of the fledgling nation. The suspension of the constitution and dissolution of Parliament were some of the first orders carried out by his regime.

Initially Barre's rule was backed by the Soviet government as he attempted to modernize the country. Some reforms were enacted, but growing corruption, inefficiency, and bloody suppression of opposing factions overshadowed any progress.

Following an unsuccessful Somali invasion of the Ogaden region of Ethiopia (populated by ethnic Somali), Barre lost the backing of the Soviets who decided to aid the newly installed Ethiopian regime instead. Barre then turned to the United States for support. The U.S. and Soviets were well entrenched in the Cold War by this point, and the U.S. government was more than willing to ally with Barre in exchange for strategic military bases in the region.

Over time, the opposition to Barre and his brutal suppression of dissident groups rose. After years of bloody civil wars, Barre was forced to flee the country on 27 January, 1991.

None of the opposition forces were able to fill the power vacuum and the Somali government collapsed. Amidst the chaos, rival clans fought for power and the capital city of Mogadishu was split by factional boundaries.

Famine, Warlords and the UN

By the end of the Siad Barre regime, Somalia had already endured years of famine caused by natural disasters and the continual fighting that made it impossible to plant crops. Humanitarian groups estimated that between January 1991 and January 1992 over 300,000 Somali died from starvation and 50,000 from factional in-fighting.

In view of these massive losses, and despite continued fighting among the numerous armed clans in Somalia, the UN embarked on a series of missions to alleviate the famine and bring security to the region. The first phase of the operation, UNOSOM (United Nations

Operation: Somalia), began in April of 1992, and was supported by numerous UN member nations, including the United States. The U.S. dubbed their contribution to the mission "Operation Provide Relief".

The humanitarian mission was immediately hampered by general lawlessness, looting and multiple ruling factions throughout the country. The UN claimed that it had more than enough relief supplies, but was unable to get them to the areas where they were needed.

To combat the armed militias and to provide security for the UN personnel, the United Task Force (UNITAF) was assembled. Approved by President George H. W. Bush just weeks before leaving office, UNITAF was deployed with 28,000 U.S. troops and 9,000 more from other UN member countries.

Given the U.S. name of "Operation Restore Hope", UNITAF was considered a separate mission in Somalia and operated in concert with UNOSOM forces. It was planned from the beginning to be a temporary mission to restore order in the region.

On 4 May, 1993, UNITAF began the scheduled reduction of its forces and merged with the newly formed UNOSOM II. Command of the remaining troops was passed to UN control. The United States' contribution to UNOSOM II was called "Operation Continue Hope."

5 June, 1993

Though many clans in Somalia welcomed UN intervention, mistrust still gripped a few others who refused to sign onto a widely accepted cease-fire agreement. Some clans used starvation of their opponents as a weapon and saw the UN as a threat to their power base.

This mistrust became more than evident when 24 Pakistanis delivering food were ambushed and killed by armed clan members on 5 June, 1993. The UN was shocked and an investigation determined that it was troops loyal to General Aidid and his Mogadishu based Habr Gedir clan militia that were responsible.

The UN declared Aidid the biggest obstacle to peace in the region. The U.S. and President Bill Clinton concurred and deployed Task Force Ranger (TFR) to

(top) Somalis wait outside the Bangladesh Army compound to try to obtain a day's work. The Bangladeshis operate a food-for-work program during their support for UNOSOM II.

(middle) A Somali man handing out a mixture of corn and beans to a small child at one of the food distribution points in Belet Huen, Somalia. (below) Somali civilians watch, US Marines walk single file down a small alley in Somalia's Bakara Market.

arrest Aidid.

Task Force Ranger deployed to Somalia on 22 August, 1993 and was made up of Soldiers from Army Rangers, 160th Special Operations Aviation Regiment and Delta Force. The 10th Mountain Division was to act as a Quick Reaction Force if needed since they were already deployed to the region. TFR was under United States command and was considered a separate entity from the UN mission.

TFR undertook seven missions in Somalia. The seventh, on 3 October, 1993, is the one that made all the papers. During a daylight mission to capture two of Aidid's lieutenants, two U.S. helicopters were shot down and 18 American Soldiers were killed. On the Somali side it is estimated that 500 to 1000, mostly from the Habr Gedir clan, were killed.

The public relations fallout from the casualties led President Clinton to reverse his original policy. Under great political pressure, he ended the mission.

Though Aidid requested a cease-fire agreement, it was not pursued. Instead, Task Force Ranger was recalled within days. All remaining U.S. troops were to leave the region within months. UNOSOM II forces remained, but without continued U.S. support, the mission was scrubbed by March of 1995.

Aftermath

That battle still resonates in both countries today. Many Somali, especially those affiliated with the Habr Gedir clan, see it, despite their heavy losses, as a national victory that forced the U.S. out of their country and gave them a sense of justice they felt they were owed.

In the U.S. there are competing views. Some who focus only on the loss of American lives characterize it as a defeat. Others, especially the Soldiers who were there, say that it was a successful operation that fulfilled the mission objectives to capture Aidid's lieutenants.

The fact that only 18 of the U.S. Soldiers caught up in the battle were killed is a testament to their training and fortitude. These men avoid casualties, but are prepared for them.

The Present and Future of Somalia

Today, there is still no functioning central Government and the various clans that fought for power in the past still clash. Many of the figures that played a role in the events of

1993 are still around, though some fight for different factions than they did during that time.

As in recent history, it is the clans that seem to be standing in the way of a unified Somalia. None are willing to cede their hard fought control.

Visitors to the country, especially to the capital, are encouraged to hire their own escort of gunmen to protect them from possible kidnappings or robberies.

Fortunately, the fighting between clans does not define all of the people of Somalia. Whereas the clans often consolidate power and struggle to stay on top, most Somalis simply try to live their lives.

Still, there are signs of progress. The various factions are slowly making their way towards agreements on a government. Somalis living overseas are propping up the economy by sending currency to their families.

Somalia has also managed to put together a remarkable phone system utilizing fixed lines, short-wave radios and cell phones. Even the most remote township can now call anywhere in the world for about \$1 a minute and get quotes for the cheapest rate.

Individuals are stepping forward to start community services such as water taps and schools. Many claim that a lack of government provides them with opportunity. Perhaps it will take many more years, but the Somali people are determined to survive and build a country of their own.

The Somali shilling is of little value due to rampant forgery and lack of government backing.

(top) A long shot of an abandoned Mogadishu Street known as the "Green Line". Foliage has grown up along the sidewalk on both sides of the street. An abandoned, burned out car is seen in the center of the frame. The street is the dividing line between North and South Mogadishu and the warring clans. Members of the clans (not shown) tore down the roadblocks along the line in a show of unity.

(middle) US Navy Hospitalman 2nd Class James Brown (right) applies topical ointment to the arm of a Somali infant.

THE U.S. FORCE

The men, weapons

FORCES IN SOMALIA

Units and equipment

During Operations Provide Relief, Restore Hope and Continue Hope, the United States deployed numerous units, each with specific goals and abilities, to Somalia. By the time U.S. forces pulled out of the region, soldiers from groups such as Navy SEALs, Joint PSYOP Task Force, 101st Airborne, a Marine Expeditionary Unit and many more had played a role in Somalia. Though many took part, only four are profiled in Delta Force® - Black Hawk Down®. We have detailed the highly trained, dedicated groups that played a key role in Mogadishu.

SPECIAL FORCES OPERATIONAL DETATCHMENT

DELTA

Also known as “Delta Force”, this elite unit is still not officially acknowledged by the United States Government. Their role in Somalia, separate from the humanitarian mission, was to capture Aidid and his lieutenants who were considered the greatest threat to peace in the region.

Trained for a myriad of situations including hostage rescue, the Delta “Operators” are some of the best Close Quarters Battle soldiers in the world. Most have years of experience and numerous combat ops in their dossier before being chosen for selection to the unit.

Once a Soldier is selected to be a Delta Operator, training is continual. Techniques such as room clearing, sniping, demolitions, marksmanship, and denied area infil/exfil are all practiced time and time again until they are second nature.

Delta’s tactics are so refined that in Mogadishu, they were able to secure an entire building and capture twenty-four Habr Gedir clan officials, many of them armed, without inflicting a single death.

ROOM CLEARING

Delta Teams can clear a room in a matter of seconds, usually before the occupants even realize what is happening. The show of force is so fast and complete that armed opponents usually freeze in confusion and are disarmed peacefully.

The Tactics:

A – The team lines up outside the entrance. If required, the #2 man throws a flashbang into the room.

B – The team rushes the room. #1 goes right or left along the wall, the rest alternate. Threats and amount of force required are assessed immediately.

C – The #1 and #2 rush to the far corners, #3 and #4 to the near corners, and secure the room.

Don't forget to always make the best use of your teammates. Issuing the right orders at the right time make the difference between success and failure.

75TH RANGER REGIMENT

The Rangers date back to WWII where they made a name for themselves by scaling the cliff walls of Normandy during D-day. Since that time the Rangers have become recognized as one of the premiere light infantry forces in the world.

They train to quickly seize and secure key objectives and to undertake specialized operations any time, in any environment. Their flexibility allows any of their three battalions to operate independently or as a supplemental force to a larger Army presence.

In Somalia, the Rangers of the 3rd Battalion from Ft. Benning, GA were tasked with providing security during TFR missions.

August 24, 1993: Training

The training was hard and the plane ride harder, 18 hours on a C5 and the future so uncertain. Exiting the aircraft via stairway was a bit odd, the only way Rangers ever seem to exit is through a jump door. The smells were new. A very serious tone but a feeling of excitement was the general consensus. We were Rangers and had trained for this opportunity—we would give 110% under any circumstances. The Ranger creed was in our hearts and souls.

Our Mission was simply to restore hope. A renegade warlord had been terrorizing Mogadishu, killing U.N. soldiers and disrupting food lines to civilians. This had to stop.

It was such a shame to see such a beautiful country destroyed. The beauty could be seen peering up from under the rubble during the helicopter rides. The people were so nice. I remember stopping by the outer fence on Sundays and trading with the children for hand carved elephants and other trinkets.

October 3, 1993: Combat

Peace the white dove. War the red dove. As opposite as Ying/Yang, black/white, day/night, blood/water. Why must such an extreme have to occur to put the balance back in order? Thrown into a mixing bowl, the ingredients equaling not a prize winning pie at the county fair, but life or death, his, a comrade, the enemy, the non-combatant. Lets look—a brief glimpse into one soldier's story—but just a glimpse—splitting the second, a tale of heroism and tragedy, a few minutes, but a lifetime.

Mogadishu, Somalia, 03 October 1993, 1600 hrs, 15 minutes into mission 7. I hit the ground, time slowing to an utter standstill. Regained momentum as quick as a bullet exiting the muzzle of a rifle. There is sporadic gunfire all around us. We ID the target building; in the same instant RPG's (Rocket Propelled Grenades) start going off everywhere: explosions amongst us. One of the birds/helo/choppers, a thing of grace, shot out of the air as a quail pursued by some hidden hunter. Is this real? Is this some sort of dream? Am I here? I am; snapped back into reality. Change of mission. Secure the crash site. Rescue all personnel. It shall be done. No questions asked, zero hesitation, autonomic function taking over. I looked back and observe Sergeant First Class Watson yelling at Sergeant Hulst to provoke him into advancing down the ally to link up with Chalk 1. We do as ordered. I am watching underneath the gate of the target building to make sure no enemy will escape. I think to myself, "another mission I won't get to fire my SAW;" and I could never have been more wrong. It hadn't hit the fan yet: They hadn't even turned the fan on yet. What a lovely place.

Monday, October 4, 1993: Letter home

Short note—mail going out in about 1 minute. Got shot in the arm, just grazed though. Will be o.k. Still in country (Somalia). All hell broke lose on the 3rd, we kicked ass with what we had. One person in my p/t was killed, 2 in my squad were wounded. Will write again soon. Am upping my military life insurance to \$200,000.

Love,
John M. Collett
Rangers lead the way

Photo by Anton Berendsen

10TH MOUNTAIN DIVISION

(LIGHT INFANTRY)

The 10th Mountain Division dates back to WWII where they were trained specifically for mountain fighting. The goal of their specialized training was to develop a fighting force that could operate comfortably in the harsh winter environments of Europe and North America. Similar forces were already being used by the Germans, Italians, and British, among others, and their effectiveness was widely known.

Over the years, the 10th Mountain evolved into a light infantry force capable of operating in many different environments, not just mountainous ones. As light infantry, they do not use heavy fighting vehicles, which allows them to deploy quickly and take on a wide variety of missions.

The 10th deployed to Somalia in December of 1992 with a very different purpose than Task Force Ranger, which would arrive in August of 1993. The 10th was part of Operation Restore Hope, the UN mission to provide food and support to the people of Somalia. Their role was to provide security for UN forces and Non Governmental Organizations (NGO's) who were distributing food. To counter the growing power of some of the Somali warlords, the U.S. Soldiers were authorized to destroy any crew served weapons operated by Somali militias.

During the deployment of Task Force Ranger, the Soldiers of the 10th Mountain Division were still assigned to the UN controlled UNOSOM II, but if needed, they were to act as a Quick Reaction Force for TFR.

160TH SPECIAL OPERATIONS AVIATION REGIMENT (AIRBORNE)

The Night Stalkers are an aviation regiment specially trained to support Special Operations missions. They fly MH-60 Black Hawks, MH-47 Chinooks, and MH-6 and AH-6 Little Birds in support of Special Operations Forces such as Delta Force.

The concept of a Special Operations aviation unit came after the failed attempt to rescue the hostages from Iran in 1980. It was decided that a dedicated group of pilots with specialized training would be required for a second rescue attempt in Iran.

The hostages were released before the mission took place, but the unit was not disbanded. It was wisely decided that having a group of specially trained helicopter pilots would be an asset. Eventually the 160th was officially formed and trained tirelessly to support the highly dangerous and dynamic missions required of the military's Special Operations Forces.

The 160th derived its nickname, Night Stalkers, from their night flying techniques, which they pioneered. Utilizing night vision goggles and modified cockpit displays, the Night Stalkers are able to fly in complete darkness as if it were day.

The 160th deployed to Somalia as a part of Task Force Ranger. Their duties included transporting Soldiers to their objectives and providing fire support. Many of the men caught in the fighting in Mogadishu on 3 October credit their survival to the critical fire support provided by the 160th.

WEAPONS

CAR-15 5.56mm AR
M203 Grenade Launcher

M249 SAW 5.56mm MG

Delta Force Operators have more flexibility when choosing weapons for a mission than the other forces that served in Somalia. The weapons most often chosen, however, are known for their reliability and accuracy. Soldiers serving with the 10th Mountain Division or in the Rangers are assigned weapons based on their role in the mission.

LOADOUT

Before a mission you will be able to alter your weapon loadout. Single player missions allow only mission-specific weapons to be chosen while multiplayer games will let you choose weapons based on the character specialty you pick. Most multiplayer maps will also let you alter your selections in-game if you are at an armory.

ASSAULT RIFLES

CAR-15 5.56mm AR

First used extensively in Vietnam, the CAR-15 soon became a standard rifle in the U.S. Army. It is lightweight, fully automatic and more maneuverable than the M16, making it the preferred assault rifle for Delta Force. The only downside is that the shorter barrel reduces accuracy.

Ammo Type: 5.56mm *Muzzle Velocity:* 990 m/s
Rounds Per Clip: 30 *Rate of Fire:* 11.6 rps
Rounds Carried: 300

M16A2 5.56mm AR

The M16A2 has been in wide use by the armies of over 30 countries since its introduction to the U.S. Army in 1957. The A2 version is more accurate than its Vietnam era relatives and is more durable as well. Heavier than the weapons carried by Delta and Rangers, the M16 has two fire modes: single-fire and 3 round Burst.

Ammo Type: 5.56mm *Muzzle Velocity:* 990 m/s
Rounds Per Clip: 30 *Rate of Fire:* 11.6 rps
Rounds Carried: 300

M203 Grenade Launcher

This single shot, breach-loading launcher is mounted under the barrel of various weapons, such as the M16 and CAR-15. It fires a single 40mm, low velocity grenade round.

G3A3

A solid choice for close quarter and medium range battles, the G3A3 fires the powerful 7.62mm NATO round, giving it more stopping power than either the M16A2 or the CAR-15.

G36E

The G36E assault rifle was developed in the 90s, making it a very modern weapon. It's light and accurate, yet holds more rounds per magazine than any of the G3A3, the M16A2, or the CAR-15.

SNIPER RIFLES

M21 7.62mm

This semi-automatic sniper rifle is fitted with a medium power scope that is adjustable to allow for accurate sniping from helicopters or moving ground vehicles. Introduced in 1969 as the XM21, it was initially used in the Vietnam conflict as an upgrade from the M14. It was fielded with a hardwood stock and later replaced with fiberglass. The semi-auto fire allows for faster acquisition and firing, but sacrifices the accuracy of a bolt-action rifle.

Ammo Type: 7.62 x 51mm *Muzzle Velocity:* 777 m/s
Rounds Per Clip: 20 *Rate of Fire:* 2 rps
Rounds Carried: 200

THE TOOLS OF THE TRADE

M16A2 5.56mm AR
M203 Grenade Launcher

M21 7.62mm
Sniper Rifle

M24 SWS 7.62mm

This bolt-action sniper weapon system has been a standard in the military since it was designed to replace the M21. It was built to be a weapon with increased range and accuracy over its predecessors.

Ammo Type: 7.62 x 51mm *Muzzle Velocity:* 792 m/s
Rounds Per Clip: 6 *Rate of Fire:* .6 rps
Rounds Carried: 180

MCRT .300 Tactical

This bolt-action sniper weapon is chambered for the .300 magnum round giving it excellent accuracy and damage upon impact. The MCRT also boasts one of the best accuracy ratings of all the sniper rifles.

Ammo Type: .300 magnum *Muzzle Velocity:* 911 m/s
Rounds Per Clip: 4 *Rate of Fire:* .6 rps
Rounds Carried: 180

M82A1 .50 Cal

The M82A1 is actually considered to be an anti-material weapon designed to stop armored personnel carriers and the like. Its .50 caliber bullet is effective against many light-skinned vehicles and structures. Its weight makes it extremely hard to deploy in traditional sniper missions, however, so it is not often used except when it will not have to be moved very much. The accuracy of the M82A1 is limited only by the ammunition used. At the best of times, it boasts 1 MOA (minute of angle) accuracy and a range of 1800 meters.

Ammo Type: .50 BMG *Muzzle Velocity:* 853 m/s
Rounds Per Clip: 10 *Rate of Fire:* 1 rps
Rounds Carried: 100

PSG1 Sniper Rifle

This semi-automatic sniper rifle allows for a high rate of fire, making it a favorite of the SAS and other special operations forces.

MACHINE GUNS

M249 SAW 5.56mm MG

The M249 SAW (Squad Automatic Weapon) has been a standard feature of the fire team since the mid 80's. Its ability to lay down high amounts of reliable, accurate fire have made it indispensable. Typically, one SAW is issued per six-man team and requires only one soldier to operate. It is able to fire from 30-round M16 magazines or 200-round drum magazines utilizing belt-fed disintegrating metallic-links.

Ammo Type: 5.56mm *Muzzle Velocity:* 990 m/s
Rounds Per Clip: 200 *Rate of Fire:* 10 rps
Rounds Carried: 600

M60E3 7.62 GPMG

The M60 gas-powered machine gun is a slightly larger and more powerful weapon than the M249. It fires the 7.62 round for increased range and stopping power, but its heavier weight and ammunition make the M60 awkward to fire unless the bipod is used. The M60 also features a replaceable barrel to prevent overheating.

Ammo Type: 7.62mm *Muzzle Velocity:* 915 m/s
Rounds Per Clip: 200 *Rate of Fire:* 8.33 rps
Rounds Carried: 600

M9 9mm

M1911A1 .45

MP5A3 9mm SMG

M240B

The M240 is a standard machine gun in many NATO countries where it is called the FN MAG-58. The 240 is often mounted on a vehicle with a twin handle and thumb actuated trigger. For handheld use, a rifle stock and standard trigger mechanism are used. There is no selective fire on the M240, it can only be used for fully automatic fire. The M240 is known as one of the most reliable machine guns in use today.

Ammo Type: 7.62mm *Muzzle Velocity:* 853 m/s
Rounds Per Clip: 200 *Rate of Fire:* 12.5 rps
Rounds Carried: 600

OTHER WEAPONS

870 Shotgun

Used for breaching doors and extreme CQB, this 12-gauge has high stopping power up close, but loses force with range. It is not accurate, but has good coverage close in. Delta operators usually replace the stock with a pistol grip and shorten the barrel to make it easier to carry as a secondary weapon.

Ammo Type: 00 Buck *Muzzle Velocity:* 388 m/s
Rounds Per Clip: 7 *Rate of Fire:* 2 rps
Rounds Carried: 14

MP5A3 9mm SMG

Currently the world's most popular sub-machine gun, the MP5 was used primarily by the 160th SOAR pilots as a personal sidearm. It fires a 9mm round that reduces its stopping power, but is very accurate. The SD variant is fitted with a suppressor.

Ammo Type: 9mm *Muzzle Velocity:* 285 m/s
Rounds Per Clip: 30 *Rate of Fire:* 13 rps
Rounds Carried: 300

M1911A1 .45

A high-power sidearm preferred by Delta operators for its reliability and stopping power, the M1911 has armed the United States military since 1911. The design, including grip and trigger was standardized in 1926 and remains unchanged. The pistol is extremely accurate when used for single shots.

Ammo Type: .45 automatic *Muzzle Velocity:* 253 m/s
Rounds Per Clip: 7 *Rate of Fire:* 4 rps
Rounds Carried: 28

M9 9mm

The M9 is the standard sidearm of the U.S. Army. Used by the Rangers, the higher capacity and accuracy during rapid fire makes this weapon more manageable than the .45.

Ammo Type: 9mm *Muzzle Velocity:* 341 m/s
Rounds Per Clip: 15 *Rate of Fire:* 4 rps
Rounds Carried: 30

AT-4

A light anti-armor rocket, the AT-4 is a portable, shoulder-fired rocket launcher. Firing an 84mm unguided rocket, the AT-4 is capable of penetrating 400mm of rolled homogenous armor.

FIXED WEAPONS

M2 .50 cal Machine Gun

A single barrel machine gun, the M2 has a rate of fire of 550 rounds per minute. It has been in use since WWII and can be found mounted on vehicles and aircraft throughout the world.

M134 7.62mm "Minigun"

This weapon is most often found mounted on helicopters. It utilizes a rotating set of six barrels to achieve an astounding 6000 rounds per minute, though it is usually set to 2000 or 4000 rpm in crew served applications.

XM84 Stun Grenade

AN-M8 HC Smoke Grenade

M67 Fragmentation Grenade

Knife

EXPLOSIVES

M67 Fragmentation Grenade

When thrown, the delayed fuse inside the M67 detonates 6.5 ounces of high explosives. The resulting high velocity shrapnel can cause casualties out to 15 meters.

XM84 Stun Grenade

The XM84 "Flashbang" is specifically designed to disorient and distract hostile forces in a non-lethal manner. The grenade produces a blinding flash of light and a noise that temporarily confuses those in its immediate area.

AN-M8 HC Smoke Grenade

This grenade produces large clouds of thick, opaque white smoke. It can be used to prevent line-of-sight during movement or to mark a location for fire support or rescue teams.

M18A1 Claymore

The M18A1 claymore is a curved, rectangular-shaped land mine, with an olive molded case of fiberglass and plastic. It was designed for use against mass infantry attacks. When combined with well placed weapons fire, the M18A1 allows a single soldier to devastate a force that significantly outnumbers him. It takes time to place Claymores, so plan ahead.

Satchel Charge

This block demolition charge consists of 1.25-pounds of C4 packed in a Mylar-film container. This powerful explosive is ignited via a radio detonator. Use with discretion and be sure to keep your distance when igniting.

EQUIPMENT

AN/PVS 7B Night Vision Goggles

These light enhancing goggles enable the **wearer** to see in low light situations or in total darkness with a built in infrared illuminator. To activate the goggles, press Directional button down.

Binoculars

Binoculars allow the user to get a magnified view of the field and give a wider view than weapon scopes. The drawback is that you will not be able to fire while using them. To use the binoculars, press Directional button up.

Radio Detonator

After you lay down one or more satchel charges, you can detonate them with this remote device. Select the detonator as you would a weapon and press **R1** to detonate. If you lay down multiple satchels, they will all detonate simultaneously.

THE ARMORY

In some maps, you will have access to armories. They appear on your map as a white "A" inside a circle. Make your way into the armory and follow the onscreen directions to change your character's specialty or choose different weapons. Your ammunition will replenish automatically when you exit the loadout screen.

VEHICLES

1. Geared Hubs Raise Axle For Higher Clearance
2. Additional Armor To Counter 7.62mm Ammunition
3. Gunner Access Hatch
4. M2 .50cal Machine Gun or Mk 19 40mm Grenade Launcher
5. Run Flat Tires
6. V8, 6.5L, 160 HP, 290 lb.-ft Torque, Diesel Fuel Injection Engine

AAV
Armored Attack Vehicle

-60 "BLACK HAWK"

Creating & Editing Your Profile

TIMELINE OF UN AND U.S. INVOLVEMENT IN SOMALIA APRIL '92-MARCH '95

April 24, 1992

UN approves unarmed observers to monitor cease-fire.

UN Relief mission begins

August 15, 1992

Dec. 5, 1992

President Bush offers US troops in response to UN request for security forces

Dec. 9, 1992

Marines arrive in Somalia, marking the beginning of Operation Restore Hope

Dec. 13, 1992

10th Mountain Division arrives in Somalia

Once the game has successfully loaded, you will be asked to create a Profile. Press **X** to use the virtual keyboard screen where you can name your Profile. You have a maximum of 8 characters for your Profile name.

Select END to confirm your Profile name. Your Profile will then be saved to your memory card (8MB) (for PlayStation®2).

You can return to the Profile screen at any time by pressing **△** on the Main Menu screen. You will also be presented with the Profile screen each time you restart **DELTA FORCE® – BLACK HAWK DOWN®**. Your last used Profile will automatically be selected. To change Profiles highlight the 'CHANGE PROFILE' option and press **X**. You can then use your Directional button to cycle through your previously created Profiles. Pressing **X** again will select the currently highlighted Profile.

In the Profile screen you can create a total of eight Profiles. You can also Overwrite Profiles in this screen. Selecting 'OVERWRITE PROFILE' will bring up the Overwrite Profile Overlay where you can select and Overwrite all but your currently selected Profile.

TIMELINE OF UN AND U.S. INVOLVEMENT IN SOMALIA APRIL '92-MARCH '95

HUD / GAME SCREEN

UNDERSTANDING WHAT YOU SEE

Character and Weapon Information

In the bottom right of your Screen you will see your character's stance and to the right of that is his health.

Below the player stance icon is your current weapon information. This includes the ammunition remaining in the currently equipped weapon's magazine, your weapon's current fire mode, and the total ammunition remaining for the currently equipped weapon.

When you cycle through your weapons the weapon information will show you the currently selected weapon while you equip it. Once you have equipped a weapon, the ammunition and fire mode information will once again be displayed.

The GPS map

In the bottom left of the Screen is your GPS map. On this map you will notice:

Waypoint direction

Team member (blue dots)

Buildings (satellite image of the local area)

When under enemy fire, you will notice yellow and red "pie" segments flashing on the GPS display. These show the direction of incoming fire, and are color coded by importance. Yellow flashes indicate a missed shot. Orange flashes indicate a shot that almost hit you. Red flashes indicate that you have been hit. Utilizing the situational awareness provided by these indicators is vital to locating enemies in the field.

WEAPON ACCURACY

IDENTIFY THE TARGET

To the upper and lower right of the GPS map you may see arrows pointing up or down, these indicate that the current waypoint is above or below your current position. In multiplayer, the GPS map will provide information specific to the game you are playing.

Delta Operatives never “shoot from the hip”. They always raise their weapon from a ready position and aim through the mounted sights. This method is called “Rapid Aim Fire”. It is fast, allows an Operator time to identify the target as hostile or not, and is very accurate.

You can fire from either the ready or scoped views, but you need to be aware of how your accuracy is affected.

By holding **L1**, you raise your weapon from the ready stance to a scoped view. In this view you will have a much smaller bullet spread, and be more likely to hit your target than if you fire from the ready position.

Accuracy is increased by crouching. Going prone further increases the player's accuracy. Accuracy is decreased when running. To take a highly accurate shot, go prone, stay still, sight in, and fire your weapon.

SQUAD COMMAND

LEARN HOW TO LEAD

Team Status

During missions, you will often be in command of a squad of soldiers who will follow your lead, support your actions, assist in room clearing and engage hostiles.

When you pass your reticule over a member of your squad, you will see his name and current health. Check on your squad members often to monitor their health. If they need medical attention, heal them before they become a casualty of war.

Team Commands

You can issue your team commands via the command wheel or with your USB headset using voice commands. Using **△** will bring up the command wheel. Press Directional Button **↑** to request health for the player's character or his squad. Press Directional Button **↓** to request magazines or to signal your squad to hold their fire or fire their weapons freely. Press right to issue positioning commands to your squad, or to request cover fire. Releasing **△** will issue the highlighted command. Next to the **HEAL ME**, **HEAL TEAM**, and **GIVE AMMO** commands you will notice numbers indicating the packs of that type remaining. Orders that are grayed out are unavailable.

The **HEAL ME**, **HEAL TEAM** commands can be accessed at the top of the command wheel. Your team will attempt to respond as quickly as possible. If they are engaged in combat, however they may not respond immediately. If you are very low on health, a good plan is to fall back into a safe location then command your team to regroup on your position. Once regrouped, you can command them to heal you or each other.

Like **HEAL ME**, the **HEAL TEAM** command uses one of your available med packs. The player and his squad all receive a small boost to their health. Use the **HEAL TEAM** command when your teammates are running low on health.

The **NEED AMMO** command works in a similar way to **HEAL ME**. Your team will respond as soon as possible by throwing a magazine your way.

The **HOLD FIRE** and **WEAPONS READY** commands toggle your team's combat interaction. You can then choose to toggle to **WEAPONS READY** or to remain silent. They will repeat the message every 10 seconds unless fired upon during this time. If fired upon they will inform the player that they are taking fire. Your teammates are not stupid and always return fire if they remain under fire for an extended period.

GO TO POINT will order your team to maneuver their way to wherever your reticule is pointing when you give the order. They may deviate slightly to enter cover at the target location. If they are **WEAPONS READY**, they will engage in combat en route to the target location. The team will remain at the target location unless the player gets either close to or far from their current position, at which point the team will attempt to maintain proximity to the player.

STOP can be used to ensure your team stay put even if the player gets close or very far away. This command can only be broken by issuing new commands.

WAIT will cause your team to stop moving but continue firing if in **WEAPONS READY** mode. If in **HOLD FIRE** mode and getting hit, they will behave as described in the **HOLD FIRE** command description above.

REGROUP will cause the team to move to your position.

COVER ME is one of the more advanced commands. Teammates will spray suppressing fire at enemies targeting you. **COVER ME** works in the same way as **WAIT** in that your team will not keep pace with you. They will, however, move position if they lose sight of you. For **COVER ME** to work efficiently, it should be used in open areas or areas where your teammates have a raised vantage point from which to cover you.

Issuing Voice Commands

If you have a USB headset you can issue all of the squad commands to your team with your voice. To do so, put your reticule in the appropriate location, press and hold **L3**, say the command, then release **L3**. For example, to issue **GO TO POINT** with your headset, point your reticule at the destination, hold **L3**, say "GO TO POINT," and release **L3**.

Voice Command List

HOLD FIRE	REGROUP
WEAPONS READY	COVER ME
GO TO POINT	HEAL ME
WAIT	HEAL TEAM
STOP	NEED AMMO

DELTA FORCE

BLACK HAWK DOWN

MARKA BREAKDOWN

OPORD: 1-93, 10TH MTN DIV 3

△ BACK

MISSION BRIEFING

KNOWING YOUR TARGET

MISSION ORDERS

At the beginning of each mission will be an **OPORD** (Operational Order) or a **FRAGO** (Fragmentation Order). These are issued in the field to Delta teams and list all the pertinent information for an upcoming mission. Here you will find the mission goals, parameters and any special instructions for completing the mission.

Objectives and Indicators

During any single player mission pressing  will bring up your objectives overlay. Objectives displayed in white are active, ones displayed in green are completed. You will also be prompted by messages displayed in the lower center of your Screen informing you when objectives have been added or completed. Check your objective overlay after these prompts to see the details of the objective. A soldier must always clearly understand their current objectives. If you are ever in doubt, press  and check them.

Mission Failure

Certain tasks must be completed or the mission will result in a failure. Losing too many of your teammates will also result in a mission failure. Additionally, if you kill any civilians or teammates the mission will instantly end. Look before you fire, soldier.

THROWING GRENADES USING FLASH OR FRAG

Quick Grenade Menu

Pressing **R2** will cause an overlay to be displayed next to your GPS map. Use the Directional buttons

↑, ↓, ←, → or **△, ○, ×, □** to throw a grenade or use the underslung grenade launcher.

Press **△** or **↑** for M203 grenade launcher (only available with CAR-15 and M16),

Press **○** or **→** for Smoke grenade

Press **×** or **↓** for Frag grenade

Press **□** or **←** for Flashbang grenade

Body: Steel
Filler: 6.5 ounces of Composition B
Fuze: M213
Weight: 14 ounces

CHARACTER SCREEN

TRAIN TO BE THE BEST

CHARACTER SCREEN

Spend the STARS earned in missions to improve your player character's attributes and get new equipment. If you're finding your current mission difficult, you may also spend STARS on additional health and ammo packs. These packs are only available for the next campaign mission.

Use the left analog stick or directional buttons to select either attributes, weapons, or packs.

Press **L1** and **R1** to see the various attributes and skills available to spend STARS on.

Press **○** to use a STAR.

You can choose to save your selections or continue to the loadout Screen. If you make a mistake placing STARS you can press **□** to reset.

EQUIPMENT SCREEN LOAD UP AND LOADOUT

LOADOUT

You need the right tools for the job, so before starting a mission you will be able to alter your weapons **loadout**. Weapons that are dark grey cannot be selected. Selected weapons' descriptions are displayed on the right.

To alter your **loadout**, use the Directional Buttons to select PRIMARY, SECONDARY or ACCESSORY. Then use the Directional Buttons or left analog stick to cycle through the available weapons. Once you are happy with your selection, press **X** to continue.

Some missions require particular weapons or accessories to complete. In these cases, the Equipment Screen will not allow you to change from any necessary items.

AFTER ACTION REPORT

HIGH PERFORMANCE, HIGH REWARD

After a mission, you will see the After Action Report. Here your performance is evaluated across multiple criteria and character STARS are awarded for excellence. What caliber of soldier are you?

Performance Criteria

Marksmanship

This is determined by the percentage of your shots that hit a target. There is also a head shot bonus multiplier added to this statistic.

Loyalty

Leave no man behind! 50% of the total is gained by keeping all of your teammates alive. 50% of the total is determined by you and your teammates' health at the end of the mission.

Diligence

Percentage of the total number of targets eliminated.

Reliability

To gain 100% in this category, you have to complete the mission in a time considered exceptional by your Commanding Officer. Additional minutes spent in the field will reduce your percentage.

Resourcefulness

Complete the mission without using any health or ammo packs in order to get 100% in this category.

Overall

Your overall percentage score is used to determine how many STARS you have earned. On Normal difficulty:

25% = one STAR

50% = two STARS

75% = three STARS

Easy difficulty allows a 10% reduction in these percentages so you only need 65% to be awarded three STARS. Hard difficulty adds 10% so you need 85% to be awarded three STARS.

Replaying Missions

If you feel you could have achieved a higher rating in the previous mission, you have the option of replaying it.

You can also go back to any previously completed mission through the Instant Action Mode to improve your rating. Gaining a higher rating in a previous mission via instant action will give you additional STARS, which may give you the edge in your next mission.

MULTIPLAYER

THE MOST DANGEROUS GAME

PLAYSTATION®2 CONSOLE

Delta Force® - Black Hawk Down® contains a deep Online competition mode that includes detailed statistic, competitive rankings, numerous game-types, and up to 32 players in a single game! You can join or create a multiplayer game at any time, and leave whenever you wish (although in ranked games you may be penalized). You do not have to be present at the initiation of a game to join in. If you leave in the middle of a mission, the other players can continue to play without you. Of course, if the host leaves the game, the game will end immediately.

You can also play split-screen games with up to 4 players or play through missions co-operatively with a friend. To play split-screen games select Split-screen from the Multiplayer Menu. To play Co-op Games select Co-op in the Multiplayer Menu. To go Online, select Go Online.

JOINING

In order to play Online, you must have a GameSpy® account. If you do not already have one, you can create a new account in seconds via the in-game Menus.

STATS AND RANKED GAMES

Delta Force® – Black Hawk Down® Online features a world ranking system where all of your game statistics from official ranked games will be available to view. Skilled players will rise through Army ranks as they play ranked games. The speed

at which you are promoted will depend only on your own performance. Only dedicated players will become officers.

RANK

- | | |

ONLINE CHAT

Use your USB headset to chat on-line in-game. Ensure your USB headset is installed correctly (see instruction manual for your USB headset).

HOSTING

You can host games Online with up to 8 players. Hosts with slower connection speeds may experience performance degradation.

MULTIPLAYER HOSTING OPTIONS

The host of a multiplayer game will be able to set several different options to determine how the game functions. Certain options disallow ranked games.

Game Name

The name you type here will appear on when others search for your server.

Host Message

This text will appear when others join the game.

Password

If you want to limit who can join your game, type the password they must know to join your game here.

Game type

Select from seven different game types.

Max players

Up to 8 players on consumer hosted games. Up to 32 players through PlayStation®2 Online capability.

Map rotation

Select which maps you wish to play in.

Respawn time

Set the respawn delay time.

Time limit

Set the time limit for each round.

Rank Range

Set the rank limits for the server.

Private Game

Set the host's privacy options.

Game speed (split screen only)

Adjust the speed of the game.

Kill limit

Set the kill limit when appropriate.

Allow friendly fire

Select whether players can hurt and kill teammates.

Online Game Modes

Deathmatch and Team Deathmatch

For Deathmatch, all players are competing against each other to gain the high score by eliminating the most opponents. In Team Deathmatch, players work in teams to get the high score.

Capture the Flag

As part of either the red or blue team, your objective is to grab the other team's flag(s) and bring it to your team's flag bay. At the same time, you need to defend your own flag(s) from your opponents. Flags are represented by a flag symbol on the GPS map. The waypoint indicator will help guide you to the flags and back to your flag bay. If the player with the flag stays in the same place for too long his position will be revealed to his opponents via the GPS map, so stay on the move!

Flag Ball

Players on the red and blue teams must try to hunt down a single flag and place it in the opposing team's flag bay, similar to football. Once the flag has been scored, it will return to its starting point, typically in the center of the map. If the player with the flag stays in the same place for too long his position will be revealed to his opponents via the GPS map, so stay on the move!

Tag & Team Tag

In Tag games the goal is to hold the flag for a specified length of time before anyone else. In Team Tag you and your teammates' cumulative time must equal the goal time. If the player with the flag stays in the same place for too long his position will be revealed to his opponents via the GPS map, so stay on the move!

Team King of the Hill

In this game type, teams win by dominating the marked zone for a set duration of time. To dominate the zone, your team must have more players inside it than the opposing team. To take down your opponent's accrued time in the zone, completely eliminate their force from the zone.

Co-op Games

Campaign

Play a ten mission campaign with a friend in split-screen mode. As you progress, the completed missions will be unlocked in Instant Action.

Instant Action

Replay your favorite missions in three difficulty modes designed to test your ability.

Multiplayer Character Specializations

When playing Online or in Split-Screen mode, you will be able to choose a combat specialty for your character. Each specialty will give you advantages and allow the use of certain weapons or give you additional skills. You can switch your specialty and weapon loadout during a game by entering an armory and changing your selections.

Assault

This specialization is the heart and soul of any army. Skilled with grenades and assault weaponry, this soldier is ready to handle virtually any battle.

Medic

Medics are highly valued members of any military unit. In multiplayer games, Medics are able to save a character that has been shot and restore them to fighting form. They also can heal partially wounded characters back to full health.

When a player is shot, a Medic will see the injured character's friendly tag preceded with a countdown timer. If the Medic can reach that character and administer first aid before the timer expires, they can be saved. Medics cannot restore characters killed by headshots, suicide or fratricide.

To administer first aid, select the Medic Pack from your inventory. Then, from a standstill at very close range, point your crosshairs at the injured character and press **R1**. If administered in time, the injured player will be able to respawn from that exact spot when they press **X**.

Machine Gunner

Controlling a weapon with a fire rate of over 600 rounds per minute requires skill, training and muscle. Machine Gunners are the only soldiers able to handle the M249 SAW, M60E3, M240B.

Sniper

A professional sniper is trained to engage targets at great distances. They treat their guns with great care, and have them tuned to their personal specifications. Their preferred weapons are the M21, M24, MCRT Tactical, PSG1 and M82 sniper rifles.

SAVING THE GAME

PROTECTING YOUR PROGRESS

SAVING CAMPAIGN PROGRESS

During a Campaign Mission, your progress will be automatically saved at checkpoints. You will see a message appear on-screen when a checkpoint has been reached.

If you die you will be able to continue from the last checkpoint reached. However, if you quit the mission or shut off your PlayStation®2 console you will have to begin from the beginning of that mission.

When playing the Campaign Missions in Split-Screen Co-Op, Player One will trigger the checkpoints. The number of checkpoints varies depending on the length of the mission and the skill level chosen.

When a mission is completed, your progress will be saved before loading the next mission if Auto-Save is ON. You can turn Auto-Save off in the Options Menu. Options are saved in the currently selected Profile. When you change any options in the Options Menu you will be asked whether you wish to save your changes.

The save file can contain up to 8 Profiles. All campaign and options data is saved independently to each Profile.

IN REMEMBRANCE

Between February and October of 1993, 31 U.S. Soldiers died while serving in Somalia. Task Force Ranger suffered 19 of those casualties and received over 25 posthumous medals including two Congressional Medals of Honor.

We list the names of all 31 of these fallen Soldiers to commemorate and honor their sacrifice. These Soldiers gave everything in service to their country and to the people of Somalia.

NON-HOSTILE CASUALTIES:

PV2 Conner, David - 02/08/93
PV2 Robertson, Don D. - 03/02/93
PV2 Harris, Daniel L. - 03/18/93
SPC Nicholson, Edward J. - 09/30/93

HOSTILE CASUALTIES:

DONATING TO THE WARRIOR FOUNDATION

**“Providing SOF Children With The College Education
Their Fallen Parent Would Have Wanted For Them.”**

The Special Operations Warrior Foundation (SOWF) is a non-profit organization dedicated to providing college scholarships, based on need, and educational counseling to children surviving Special Operations personnel killed in the line of duty.

The SOWF was founded in 1980 after nine SOF soldiers died during the Iranian hostage rescue attempt. Those nine soldiers left behind seventeen children.

Today, Special Operations Forces units are deployed all over the world and are taking on more missions than ever. This means that the number of children needing assistance will most likely rise greatly in the near future.

Currently there are over 500 children who have lost a parent in SOF missions and are eligible for the program. By 2010 the expected outlay of money needed to pay for tuition will be \$34 million dollars.

NovaLogic is pleased to be able to help the families of these fallen soldiers by donating a portion of the proceeds from Delta Force® - Black Hawk Down® sales to the Special Operations Warrior Foundation.

If you'd like to know more about the SOWF, or would like to make a donation, you can find them at www.specialops.org.

Email Support Address

support@novalogic.com

You may also email your questions and comments to a member of technical support at any time. Remember to provide a detailed description of the problems you are encountering.

Technical Support Line: (818) 878-0325

If you need to speak to someone directly, our technical support staff can be reached during normal business hours (Monday through Friday 9AM to 5PM Pacific Time, excluding holidays). To better assist you, please have your hardware set-up information on hand. Also be prepared to explain the exact nature of any problems you are experiencing. For example, write down the exact wording of any on-screen error messages you may be receiving.

LIMITED WARRANTY

NovaLogic's Limited Ninety-Day Warranty and License Provisions

PLEASE READ THIS LICENSE CAREFULLY BEFORE INSTALLING OR OTHERWISE USING THE SOFTWARE. BY INSTALLING OR OTHERWISE USING THE SOFTWARE, YOU ARE AGREEING TO BE BOUND BY THE TERMS OF THIS LICENSE. IF YOU DO NOT AGREE TO THE TERMS OF THIS LICENSE, DO NOT INSTALL OR USE THE SOFTWARE AND PROMPTLY RETURN THIS PACKAGE AND ITS CONTENTS TO THE PLACE OF PURCHASE FOR A REFUND OR EXCHANGE SUBJECT TO THE RETURN POLICY OF THE RETAILER.

Limited Warranty on Media

NovaLogic, Inc. ("NovaLogic") warrants the DVD on which this product is recorded to be free from reasonable defects in materials and workmanship under normal use for a period of ninety (90) days from the date of purchase as evidenced by a copy of your proof of purchase. NovaLogic's entire liability and your exclusive remedy in the event of such defect will be replacement of the DVD not meeting NovaLogic's limited warranty and which is returned to NovaLogic with a copy of your proof of purchase. NovaLogic will have no responsibility to replace any such DVD damaged by accident, abuse or misapplication. This policy applies to the initial purchase only.

ANY IMPLIED WARRANTIES ON THE DVD, INCLUDING THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE LIMITED IN DURATION TO NINETY (90) DAYS FROM THE DATE OF DELIVERY. THIS WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS, AND YOU MAY ALSO HAVE OTHER RIGHTS WHICH VARY BY JURISDICTION.

If you and the NovaLogic Tech Support Staff believe you have found any such error or defect during the warranty period please return the defective compact disc together with a dated proof of purchase to NovaLogic, Inc., 26010 Mureau Road, Suite 200, Calabasas, California 91302, for a free replacement.

Disclaimer of Warranty on Product

YOU EXPRESSLY ACKNOWLEDGE AND AGREE THAT USE OF THIS PRODUCT IS AT YOUR SOLE RISK. THIS PRODUCT AND RELATED DOCUMENTATION ARE PROVIDED "AS IS" AND WITHOUT WARRANTY OF ANY KIND AND NOVALOGIC EXPRESSLY DISCLAIMS ALL WARRANTIES, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. UNAUTHORIZED REPRESENTATIONS: NOVALOGIC WARRANTS ONLY THAT THE PROGRAM WILL PERFORM AS DESCRIBED IN THE USER DOCUMENTATION. NO ADVERTISING, DESCRIPTION OR REPRESENTATION, WHETHER MADE BY A NOVALOGIC DEALER, DISTRIBUTOR, AGENT OR EMPLOYEE, SHALL BE BINDING UPON NOVALOGIC OR SHALL CHANGE THE TERMS OF THIS DISCLAIMER OR THE LIMITED WARRANTY ON MEDIA SET FORTH ABOVE. NOVALOGIC DOES NOT WARRANT THAT THE FUNCTIONS CONTAINED IN THE NOVALOGIC PRODUCT WILL MEET YOUR REQUIREMENTS, OR THAT THE OPERATION OF THE NOVALOGIC PRODUCT WILL BE UNINTERRUPTED OR ERROR FREE, OR THAT DEFECTS IN THE PRODUCT WILL BE CORRECTED. FURTHERMORE NOVALOGIC DOES NOT WARRANT OR MAKE ANY REPRESENTATIONS REGARDING THE USE OR THE RESULTS OF THE USE OF THE PRODUCT OR RELATED DOCUMENTATION IN TERMS OF THEIR CORRECTNESS, ACCURACY, RELIABILITY, OR OTHERWISE. NO ORAL OR WRITTEN INFORMATION OR ADVICE GIVEN BY NOVALOGIC OR NOVALOGIC'S AUTHORIZED REPRESENTATIVE SHALL CREATE A WARRANTY OR IN ANY WAY INCREASE THE SCOPE OF THIS WARRANTY. SHOULD THE PRODUCT PROVE DEFECTIVE, YOU (AND NOT NOVALOGIC) ASSUME THE ENTIRE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION. SOME JURISDICTIONS DO NOT ALLOW THE EXCLUSION OF IMPLIED WARRANTIES, SO THE ABOVE EXCLUSION MAY NOT APPLY TO YOU. NO CONSEQUENTIAL DAMAGES: NOVALOGIC SHALL NOT BE LIABLE FOR SPECIAL, INCIDENTAL, CONSEQUENTIAL OR OTHER DAMAGES, EVEN IF NOVALOGIC IS ADVISED OF OR AWARE OF THE POSSIBILITY OF SUCH DAMAGES. THIS MEANS THAT NOVALOGIC SHALL NOT BE RESPONSIBLE OR LIABLE FOR LOST PROFITS OR REVENUES, OR FOR DAMAGES OR COSTS INCURRED AS A RESULT OF LOSS OF TIME, DATA OR USE OF THE SOFTWARE, OR FROM ANY OTHER CAUSE EXCEPT THE ACTUAL COST OF THE PRODUCT. IN NO EVENT SHALL NOVALOGIC'S LIABILITY EXCEED THE PURCHASE PRICE OF THIS PRODUCT. SOME STATES DO NOT ALLOW THE EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE ABOVE LIMITATION OR EXCLUSION MAY NOT APPLY TO YOU.
