# Shop Areas

In this area you'll find many different shops in which to spend the BITS you collect during your adventures.

## ARMOR SHOP

Armor Boards, which strengthen Digimon abilities, can be purchased here. There are two types of armor: one type equips onto the Armor Slot, and the other equips onto the Sub Slot. Make sure you purchase items accordingly. Depending on the Armor Board type, different abilities can be strengthened.

## CHIP SHOP

You can buy and sell Chips that strengthen Digimon abilities here. Chips can only be equipped to weapons units and Armor Boards with Mods. They can have major effects on your stats, so if you obtain an Item with Mods, be sure to equip it with Chips.

## DISK SHOP

HP Disks and Gate Disks are sold here. Each type is important, so if you have enough BITS to buy them, it may be a good idea to keep a few in stock. You should have at least one Gate Disk so you can return to the home server in an emergency.

## JUNK SHOP

Managed by MetalEtemon, this shop offers special handmade Items in addition to its regular stock. You won't know what you'll receive, but you may acquire a rare Item! At the Junk Shop, you'll probably have to pay BITS several times to get an Item made.

## WEAPON SHOP

## USING THE SHOP AREA

# Outside Server

## RULES IN THE OUTSIDE SERVER

The Outside Server is separated into different areas, and it will be necessary to clear them in order. Defeat the enemy Digimon that you come across in order to progress further in the game. ### Doors/Bridges

If you defeat all the enemies in an area, there are places where doors or bridges may appear. If you cannot move forward, look around for switches and make sure all enemies have been defeated.

## WHEN HP REACHES 0

### Single Player

When all Digimon's HP reaches 0, you will return to the home server and leave a Back-Up Chip at your last location. All BITS you had in your possession will disappear and your EXP will decrease.

If you re-enter the outside server and use a Raise Disk or use the MP Technique "Raise" on the Back-Up Chip, you will be able to recover all your BITS and some EXP.

You can only leave behind one Back-Up Chip, so if you are defeated before recovering it, you will lose the BITS and EXP it contained.

### Multi-Player

In multiplayer mode, any other Digimon left standing can use a Raise Disk to restore a player with 0 HP. If no one has a Raise Disk, then the remaining BITS and EXP rules apply as described above.

On the Venom Jungle level, in the Vine Tunnel B1F, after your Digimon defeats all enemies, opens all "chests", opens the Vine Tunnel B1 map, and advances to the "green wall", your Digimon is unable to advance to any other section of the map, and unable to continue through the level.

To destroy the "green wall", your Digimon must use a "Fire" MP Attack or use a weapon with "Fire" attribute "Chips" attached to it. The wall will be destroyed and your Digimon will then be able to continue. If your Digimon does not have this attribute, you must go back to the Main Lobby and equip them. Later on in the Machine Pit, there will be a similar wall of "gray boxes with electricity" that can be knocked down with a "Thunder" attribute attack.
