If you experience any of the following symptoms while playing a video game – dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions – IMMEDIATELY discontinue use and consult your physician before resuming play.

Coach's Tip – Total Control Deker

You can perform a variety of special moves with the Right analog stick. The chart below shows the move performed by moving the Right analog stick in a given direction.

0-90° = Deke right

90-135° = Side-step right

135-225° = Full stop

225-270° = Side-step left

270-359° = Deke left

Coach's Tip - Be Patient

Unless you're on a breakaway, allow your team time to regroup before entering the attacking zone. The more men you have inside your opponent's blue line, the better your chances at controlling the puck and setting up a quality shot. Try cycling the puck back and forth between your forwards and defensemen. This will create more opportunities to exploit any openings that may appear in the defense. Don't be afraid to bring the puck behind the net and switch it over to the other side of the zone. If you see a forward open in the slot or a defenseman ready to blast a slapshot from the point, get them the puck and let it rip. Patience and persistence will ultimately bring you the most success when on the attack.

The competition gets changed in Ranked Games. You can compete with other players online while all wins and losses are tracked on the Leader Boards.

Battle Mode

Battle mode allows users to play against other players in an assortment of mini-games.

Mini-Rink

Mini-Rink is played with two skaters (the Left Wing and the Center) and a goalie for each team. In a miniature rink game penalties are turned off, the hitting power is turned up, and the boards are unusually bouncy. This mode is great for those who enjoy arcade-style hockey.

Skills

Challenge the other team to a sequence of tests to see whose skills are the best. The cumulative score from the six events is compiled to arrive at the overall winner.

- **1 on 1:** Each starting skater on each team gets two chances to score on the opposing goalie. The team with the most goals wins.
- **Hardest Shot:** Each starting player gets two shots. Fire the puck into an empty net as hard as you can. The winner is the player that scores the hardest shot into the net. The Hardest Shot Challenge controls: Move up on the left analog stick to move towards the puck. As your player reaches the puck, quickly move down on the right analog stick to wind up your stick and move up on the right analog stick to slap the puck towards the goal.
- **Breakaway Relay:** Just like the 1 on 1 competition, except that after shooting, each player has to skate back to the red line to let the next player go.

- **Accuracy:** 4 targets, 9 pucks, and 25 seconds per player. Break the targets as quickly as you can, using the least amount of pucks in order to win this event.
- **Puck Control:** Navigate through the cones as quickly as possible without losing control of the puck.
- **Fastest Skater:** Each starting skater gets one chance. Try to get the fastest overall time skating around the rink to win. The Fastest Skater Challenge control scheme: Repeatedly press the  button to make your player skate faster.

Note: If you frequently experience difficulty joining an ESPN NHL 2K5 online game and are using an Internet sharing device (e.g. broadband router or firewall) you may need to enable Port Forwarding (sometimes called Virtual Server) on the device. Please refer to the manual that came with your Internet sharing device for specific setup instructions. You will need to forward UDP port 3658 to the IP address assigned to your PlayStation®2 console. This may require changing Your Network Configuration file from an "Auto" IP address (DHCP) to a "Manual" IP address. ESPN NHL 2K5 includes a Network Configuration GUI for setting up and modifying these files. If you continue to experience difficulty joining online games, try bypassing your Internet sharing device by connecting your PlayStation®2 console directly to your DSL, modem, or cable modem. In this case, you may need to create a new Your Network Configuration file before your PlayStation®2 console will connect to the Internet.

This game is presented in Dolby Pro Logic II. Connect your game console to a sound system with Dolby Pro Logic, Dolby Pro Logic II, or Dolby Pro Logic IIx decoding to experience the excitement of surround sound. You may also need to select "Dolby Pro Logic II" from the audio options menu of the game.
