Coach's Tip – Total Control Deker

This new feature allows you to perform 7 special moves with the right analog stick. The chart below shows the move performed by moving the right analog stick in a given direction.

0-45° = Short deke right

45-90° = Long deke right (for skaters with high puck-handling rating)

90-135° = Side-step right (does not let go of the puck)

135-225° = Full stop (does not let go of the puck)

225-270° = Side-step left (does not let go of the puck)

270-315° = Long deke left (for skaters with high puck-handling rating)

315-359° = Short deke left

Coach's Tip – One Timer

A one-timer is when an offensive skater catches and shoots the puck in one quick motion. The speed of the one-timer can deny the goalie enough time to react, making it easier to score a goal. To perform a one-timer when passing to a computer-controlled skater, press the **✕ button to pass and immediately press the **■** button, before the other player receives the puck. During multiplayer games, to perform a one-timer when another skater passes you the puck, press the **■** button before the puck reaches you.**
