**WARNING: READ BEFORE USING YOUR PLAYSTATION®2  
COMPUTER ENTERTAINMENT SYSTEM.**

A very small percentage of individuals may experience epileptic seizures when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or while playing video games, including games played on the PlayStation®2 console, may induce an epileptic seizure in these individuals. Certain conditions may induce previously undetected epileptic symptoms even in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition, consult your physician prior to playing. If you experience any of the following symptoms while playing a video game—dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions—**IMMEDIATELY** discontinue use and consult your physician before resuming play.

**WARNING TO OWNERS OF PROJECTION TELEVISIONS:**

Do not connect your PlayStation®2 console to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

**USE OF UNAUTHORIZED PRODUCT:**

The use of software or peripherals not authorized by Sony Computer Entertainment America may damage your console and/or invalidate your warranty. Only official or licensed peripherals should be used in the controller ports or memory card slots.

**HANDLING YOUR PLAYSTATION®2 FORMAT DISC:**

- This disc is intended for use only with PlayStation®2 consoles with the NTSC U/C designation.
- Do not bend it, crush it, or submerge it in liquids.
- Do not leave it in direct sunlight or near a radiator or other source of heat.
- Be sure to take an occasional rest break during extended play.
- Keep this compact disc clean. Always hold the disc by the edges and keep it in its protective case when not in use. Clean the disc with a lint-free, soft, dry cloth, wiping in straight lines from center to outer edge. Never use solvents or abrasive cleaners.

VirtualWorldTomorrow, the new virtual reality (VR) update from corporate giants EuroDream Technologies, will launch this time next month. Pre-orders for the product continue to skyrocket.

Abelard Huxley, managing director, continues to resist media hounding over his involvement in the Subliminals Implant scandal still surrounding the company. While some experts maintain that subliminals amount to a serious invasion of mental space akin to the potential of mass hypnosis, this is largely explained as professional jealousy and paranoia. Certainly no single Euro Commission supports this view.

Rumors first flared two years ago when tests were leaked to a Euro Commission by an unnamed source within EuroDream. While lobby groups and anti-VR protests intensify, these groups seem increasingly out of touch with the current political and technological climate.

## SETTING UP

Set up your PlayStation®2 computer entertainment system according to the instructions in its instruction manual. Make sure the MAIN POWER switch (located in the back of the console) is turned ON. Press the RESET button. When the power indicator lights up, press the open button and the disc tray will open. Place the "ENDGAME™" disc on the disc tray with the label side facing up. Press the open button again and the disc tray will close. Attach game controllers and other peripherals, as appropriate.

Follow the on-screen instructions and refer to this manual for information on using "ENDGAME."

### MEMORY CARD (8MB) (FOR PLAYSTATION®2)

"ENDGAME" lets you save games at their current level of play onto a Memory Card (8MB) (for PlayStation®2), and resume play on previously saved games. A Memory Card (8MB) (for PlayStation®2) is required. Insert a Memory Card (8MB) (for PlayStation®2) into Memory Card slot 1 on the PlayStation®2 game console BEFORE starting play.

**Important:** Do not switch off the MAIN POWER switch, remove or insert a Memory Card (8MB) (for PlayStation®2), or Controllers while saving or loading games. Doing so could damage the game data.

For example, if the Guncon™2 is connected to the bottom USB connector, the Guncon™ should be connected to controller port 2. The top USB connector will override a Guncon™ connected to controller port 1.

## LANGUAGE SELECTION

"ENDGAME" will automatically select the language set in your Playstation®2 system configuration. To change the language, please refer to the instructions in your Playstation®2 instruction manual.

# GETTING STARTED

## GUN CALIBRATION

Before you start playing, you should calibrate your light-gun device for more accurate shooting. The gun calibration screen is accessed by selecting the Controller Options choice from the Options Menu.

To calibrate your gun, aim and shoot at the center of the target on screen. A crosshair will appear. Check when pointing the gun at the center of the target, check that the crosshair moves there. If this crosshair is in the center of the target, your gun is calibrated. If it isn't, repeat the process by aiming and shooting at the center of the target on screen until the cross hair appears in the correct place.

When your gun has been calibrated, press the A Button to confirm the process and return to the Options Menu.

## SAVING

Insert a memory card (8MB) (for PlayStation®2) into MEMORY CARD slot 1 to load a saved game or start a new Endgame game file.

The game will automatically check for a suitable memory card in MEMORY CARD slot 1 when the game is started. If a memory card (8MB) (for PlayStation®2) is present in MEMORY CARD slot 1, the saved ENDGAME data will automatically be loaded.

When a suitable memory card (8MB) (for PlayStation®2) is present in MEMORY CARD slot 1, the ENDGAME game file will automatically be saved by default. To save manually, change the autosave option in the Options Menu.

## MENUS

Various types of games and settings can be selected from the Main Menu. To pick a menu option, shoot your selection. If you are using a DUALSHOCK®2 analog controller, highlight your selection using the left analog stick and press the X button.

## PLAYING ENDGAME

As you fire your weapon, you will use up bullets. To reload, use the reload button. You will duck behind a wall or other protective objects to take cover while reloading your gun. Taking cover is also very useful when trying to avoid getting hit by enemy fire.
