GAME MODES

NOTE: Most of the game modes in *FIFA Soccer 06* are self-explanatory and are not covered in this manual. Exceptions are listed below.

MANAGER MODE

Take full control of your favorite club for 15 seasons on and off the pitch. Oversee the everyday operations including staff, scouting, and team management. Fulfil the dreams of your board and the requirements of your sponsor and make a run for the championship in both league and cup play.

After designing your look and selecting a region to play, the job offers come flooding in. Be sure to select your club with consideration for the overall team rating, team chemistry, and the qualities in each third of the pitch.

NOTE: For additional help on Manager mode, access MY FIFA 06 from the Career Central screen, choose TIPS & HINTS, then select MANAGER MODE.

CAREER CENTRAL

Make every decision from the Career Central menu—from spending your budget to making critical transfer deals to help find team balance.

NEW OFFICE

Hunt for new talent around the world, check your sponsor's demands, and improve staff ratings from the office.

STAFF UPGRADES

Improve the level of staff for each department. Each slot costs points, which are deducted from your total points in the game.

TEAM MANAGEMENT

Before you get on the pitch you need to build a team to get the job done. Fine tune your squad and tweak your lineup and formation as you ready your team for the long haul. Use the Player Style icons to see which player shines in a particular role (see below) or select Man Marking to take the opposition's best player out of the game (see p. 8). Once the whistle blows it becomes a game of two halves.

Once a team is set, use Export Team to save your squad of superstars and play them in Kick-Off mode. The Team Chemistry (see below) you have built can now be used to boost your team against all-comers.

TRANSFER CENTRAL

Enter the transfer market on the hunt for bargains. Choose TRANSFER MARKET to buy or borrow talent from other clubs. Select CLUB PLAYER LIST to sell or loan out players to others. Follow the wheeling and dealing through the Negotiation History screen.

NEW TEAM CHEMISTRY

Keep the momentum going by building a team that functions as a unit. Balance the requirements of every player to maintain morale and develop understanding between them. Teams with the most experience together on the pitch win the most silverware.

It's no question that all great teams perform as one, with players instinctively knowing what their teammates will do next. Great partnerships are formed up front between strikers that have played their respective positions together for more than one season. Impenetrable defenses are formed by players training together week in and week out.

When Team Chemistry is high, players out-perform themselves and defend with greater determination. A high-flying team is also more attractive for potential new signings.

MORALE AND EXPERIENCE

Team Chemistry is based mainly on the morale of the team and the amount of experience the team has had playing together. To keep improving your Team Chemistry, make sure you don't leave players warming the bench for too long or play them out of position. Remember—nothing boosts morale like a big win over a rival club.

NEW PLAYER STYLES

Every player is unique (with a preferred position and specific attributes that suit his role). Player Styles show you how good a player really is—from clinical strikers to midfield maestros, you can now identify the star players from the second-tier players.

Press the  button to view the Player Bio from the Squads screen. The Player Style icons are displayed along with the rest of the player details (a player can have up to two styles).
