ADDITIONAL CONTROLS

Intimidate and disgrace your fiercest rivals by executing an onslaught of tricks—including new juggling moves—using the right analog Trick Stick.

TRICKS AND BEAT MOVES

There are a number of sick tricks you can use to bully your opponent. Below are just a few examples of these moves. Get a feel for the game by experimenting with different button combinations or view a list of moves in your Trick Book (via the Rewards menu or Pause menu).

Get Over It

Panna

right analog stick ↓ (while running)

Trick Stick – Attacking

When you have the ball, use the Trick Stick to perform a Beat. Pressing the Trick Stick ↑ throws the ball over your opponent's head; pressing it ↓ puts it through his legs. Pressing the Trick Stick ↔ moves your player around the defender.

There are three layers of Beat moves. Use the Trick Stick plus the Trick shifts (L2 button or L2 button + R2 button) to access all of the moves.

STREET TIP: The more shift buttons you hold, the more powerful your Beat move.

STREET TIP: If you're playing against the CPU, boost your chance of beating the opponent by varying your tricks, changing the trick layer, and taunting your opponent before initiating a Beat move.

Trick Stick – Defending

When your opponent performs a Beat move, press the Trick Stick to counter his tactics. Press the Trick Stick away from your opponent to counter the Over or towards him to block a Panna (a ball through the legs). You can also shoulder barge or slide tackle your opponent off the ball. Simply wait until he performs a move, then press the Trick Stick towards him as he tries to run past you.

PLAYING THE GAME

Master the Trick Stick to help you obliterate the competition, dominate Skills Battles, and trigger multiplier trick moments against the very best the streets have to offer.

GAME SCREEN

COMBOS

Perform tricks with two or more teammates to raise your trick point multiplier, then take a shot on goal to cash in your trick points. The higher your multiplier is at the time of your shot, the more powerful and accurate your shot is.

BEAT BATTLES

Whichever side of the ball you're on, the goal is simple: humiliate your opponent and look good doing it. So what better way to do it than during a Beat Battle? String together a combo when on the attack to outwit your marker and survive with your pride intact. When on the defensive, use the Trick Stick to relieve him of the ball. But remember, disgrace is a two-way street. If you telegraph your move—or if a defender simply gets lucky—he can turn the tables by using the Trick Stick against you. Goodbye ball. So long dignity.

GAMEBREAKERS

Each Beat move you throw fills your Gamebreaker Meter, and stringing Beat moves together with teammates for combo bonuses fills it even faster.

When the Gamebreaker Meter is completely filled, a Hot Spot appears on the pitch. Run over the Hot Spot to activate the Gamebreaker. You then have a set amount of time to shoot. Performing successful Beat moves during this time increases the reward you earn, after each goal of course. The more opponents you beat, the bigger the reward. If you beat all three opponents, you win the match regardless of score.

Gamebreaker Rewards

Number of Defenders Beaten	Reward
0	Goal (if the path to goal is clear)
1	1 goal for (and -1 goal from opposition)
2	2 goals for (and -1 goal from opposition)
3	Win the game automatically (regardless of score)

TARGETING AND SHOOTING

Wildly firing off shots doesn't amount to much more than conceding possession if they're not on target so be sure to take the time to aim your shot. As you're shooting, move your shot target towards an unguarded area of the goal. The better your aim, the greater your chance of scoring.

STREET TIP: Aim as far away from the keeper as you can for the best chance of getting one past him.

STREET TIP: Quickly press the **○** button for a quick shot with no back lift when you're trying to get a shot off while being chased down by a defender.

STREET TIP: For a more powerful shot, press and hold the **○** button and unleash a net-ripping blast.

STREET TIP: When the ball's in the air press the **○** button to trigger a volley. These showboating shots can bring the house down if you squeeze them past the keeper.

STREET TIP: For a really spectacular shot, fire while you're juggling—these are real showstoppers.

JUGGLING

Press and hold the **L1** button and then press the **△** button to begin juggling locomotion. You can run around while juggling the ball. By pressing and holding the **L1** button and the **R1** button, you can move the ball around your body, bouncing the ball on your head, shoulders, or knees.

KEEPER CONTROL

Everyone knows goalkeepers are frustrated outfield players. Now's their chance to prove they have what it takes to survive outside the safety of their area. When outside the box, goalkeepers can be controlled like normal players. Just move your keeper outside his area to automatically drop the ball.

SIGNATURE MOVES

Some players in *FIFA Street 2* have signature moves. These tricks get you more trick points and raise the humiliation level to the limit. Any player can perform signature moves, but when a player does *his* signature move through the specific button presses, he gains 300 extra points and the name looks slightly different.

- Press the **L2** button + **R2** button + **△** button to perform a signature move.

SAVING AND LOADING

NOTE: *FIFA Street 2* only supports MEMORY CARD slot 1 for saving games.

- When you first start *FIFA Street 2*, you can adjust your save settings to PROMPT or to AUTOSAVE.
- You must have a memory card (8MB) (for PlayStation®2) inserted into MEMORY CARD slot 1 to choose AUTOSAVE.
- To load a saved game, from the Options menu choose SAVE/LOAD and then LOAD SAVED GAME.

GAME MODES

In addition to Play Now mode, *FIFA Street 2* gives you a variety of game modes in which you can humiliate your opponent.

FRIENDLY

A Friendly match is similar to a Play Now match except that you also get to choose your starting four, the venue, and the rules before you kick off.

RULE THE STREET

Start as a loner and build recognition as you assemble a fear-inducing team. Work to improve your team and keep the personalities of the players in check. You know your team has made it if you're invited to participate in the Underground Tournament and if your created player can play in the International league with the country of his choice.

You never know who you'll run into on the street looking for a Friendly. Your first foray into Rule the Street drops you into a match with some well-known players. See if you can keep up.

KICK ABOUTS

Play in pick-up matches to unlock new tricks and increase your skill to get recognized. You play against local street players, but you never know who may show up at the local pitch!

TEAM CAPTAIN

When your player rating is high enough, you're good enough to have your own team. Create a pitch and get your team out on the streets. Keep your players happy by rotating your squad and watch for Rival Challenges. Recruit the legends of soccer to give your team an edge. If you can win enough games, you earn the right to pit your street team against the best national teams in the world.

RIVAL CHALLENGES

As you progress as a team captain, you have to make some tough decisions about how you add to your team and who you drop. Players who don't get enough pitch time are unhappy, players who think they're too good for your team complain, and some personalities just won't get along. Players you release from the team might come back to haunt you with Rival Challenges. Play these matches on your home turf to settle the grudge once and for all.

UNDERGROUND TOURNAMENT

When your team makes its reputation known, it's invited to the Underground Tournament. Battle the best street teams from around the world in the ultimate championship.

INTERNATIONAL CUP

Increase your player rating to unlock the International Cup, where you can join your favorite national team and play against other nations. National glory awaits if you have the skills to back your talk!

SKILLS CHALLENGE

Suit up your best player and prepare to bust out some slick moves in the juggling mini-game. Put together moves to create combos for big points. Complete combo challenges to progress and keep on your toes because timing is everything in this mode.

- Press and hold the **L1** button and press the **△** button to begin juggling. Perform skill moves and string together combos to trigger a Combo Challenge. When the challenge starts, press and hold the **R1** button while moving the Trick Stick in the motions shown at the top of the screen. Some of the moves you can learn are shown below.

EXTRAS

REWARDS

The more you play, the more you earn. From venues to new threads, visit the Rewards menu to collect your booty. You can see what you need to do to get a reward by highlighting it on the Rewards menu. Some rewards can be purchased with Skill Bills and some are unlocked only by playing in Rule the Street mode.

UPGRADE SKILLS

Once you've earned some Skill Bills, you can spend them on your players to upgrade their skills. From the Rewards menu, choose UPGRADE SKILLS and then cycle through until you find the player you want to upgrade.

TRICK BOOK

From the Pause menu (or the Reward menu), you can crack open your Trick Book and look up all of the slick moves you've unlocked.

RADIO STATIONS

Adjust your tunes to suit your mood. Choose from one of the three preset stations or create your own custom station.

- Activate international roaming to access the coolest local beats. When ON, an appropriate radio station is automatically selected to match the upcoming venue.

TUTORIALS

There are five different tutorial videos that you can watch to help you get your game on.

HINTS AND TIPS

- Keep your opposition guessing by bouncing passes off of walls.
- Combine high-passes with first time shots.
- Combine shots with Beat moves to fool the keeper.
- Press the  button to intercept high balls and misplaced passes.
- Beating opponents in quick succession with all of your teammates earns lots of points. It's the fastest way to earn a Gamebreaker.
- In the Skills Challenge, the most important thing is timing. Next is accuracy. You need to be both fast and accurate to be successful.
- Focus on perfecting your combos during matches to maximize your skills and post-game winnings.
- If your player is bested in a Beat Battle, switch to another defender by pressing the  button.

Rule the Street Hints

- Play lots of Kick About matches. They're the best way to earn Skill Bills, and they also count toward 100% mode completion.
- Always upgrade to the best keeper you can afford. This has a big impact on your success in tournaments and helps you earn future upgrades.
- Don't neglect your created player's attributes. It's easy to spend lots of money upgrading to new squad members and leave your own character in the low-ranked skills dust. Remember to splash some cash his way too.
