Multiplayer

Get ready for dueling axes of distortion! In the Multiplayer mode there are three different ways to play:

Pro Face-Off: This is the ultimate duel for guitar champions. Two players battle it out playing the same note chart at the same time on the same difficulty level.

Battle: Challenge a friend to a guitar shred-off with Battle mode! By performing well you'll get series of power-ups that you can use to disrupt your opponent. To activate the Battle mode attacks you'll need to raise your guitar like you would when activating Star Power.

Naming Your Profile

It's time to name your band! A good name can mean the difference between opening up at the local youth center and selling out a huge stadium. This band name will serve as the name of your Guitar Hero III: Legends of Rock Profile. You can edit this name later in "Manage Band" located in the Options Menu.

HOW TO PLAY

Guitar Hero III: Legends of Rock's gameplay consists of pressing the Fret Buttons and strumming on the Strum Bar UP or DOWN in sync to the notes that are scrolling toward you on screen.

Basic Notes:

1. Hold the Fret Button that corresponds to the note on the screen.
2. Strum on the Strum Bar UP or DOWN to play the note. (note: If you see a string of the same notes you don't have to release the corresponding Fret Button for each note, You can keep it held down.)

Long Notes (otherwise known as Sustains):

1. Hold the Fret Button down
2. Strum
3. Keep the Fret Button down until the whole note has played.

Chords:

Chords are two or more notes played at the same time. These can come in the form of Basic Notes and Long Notes.

The Whammy Bar

Press the Whammy Bar in and out on Long Notes to add your own style to each song. You'll notice that when you are playing Long Notes, the sound of the note will actually change and bend to reflect how much you're pressing on the Whammy Bar.

The Rock Meter

The Rock Meter is the ultimate gauge for how much you're rocking in the game. This meter has four settings.

Green: Duuuude! There is no stopping you! You're hitting just about every note thrown at you.

Yellow: Keep on keepin' on! You're putting on an 'ok' show. The crowd likes your moves...but they're not scrambling to make a bootleg of your performance.

Red: Lame! At this rate you'll be lucky if you can get anyone to help you load your gear into the van after the show.

Flashing Red: Ouch! You're moments away from failing the song unless you get your act together. Keep this up and you'll be booted off stage and escorted from the venue.

The Score Meter

Every note you hit scores you points. If you can nail a series of notes perfectly then you'll receive a handy 'Score Multiplier' which is 2-4X the value of each note you hit. Mess up and your score multiplier vanishes.

The Star Power Meter

Nothing blows an audience away like Star Power. Fill this meter up and you can unleash all the glory of Star Power and achieve scores you never thought possible. Star Power automatically doubles any score multiplier you currently have.

(The Star Power Meter needs to be at least half-full for Star Power to be available to use it.)

Difficulty Settings

The first thing every budding rock star has to decide is what difficulty they'd like to play the game.

Easy: The perfect setting for beginner players. This difficulty setting only utilizes three fret buttons - the green, red, and yellow.

Medium: This difficulty setting brings notes a little faster and utilizes four fret buttons- the green, red, yellow, and blue.

Hard: All five fret buttons are used, and some advanced skills are needed if you expect to rule in this difficulty setting.

Expert: This setting separates the champs from the chumps! This insane difficulty will have you frantically using all five fret buttons and pulling off lots of different chords.

Song Results Screen

Grade: The scale goes from up to 5 Stars, with 5 being the best. Higher grade scores earn you more cash to spend in the store in Career mode.

Score: This is the overall score you received on your song.

Note Streak: Find out how long you went without making a mistake and missing a note.

Notes Hit: This tells you the percentage of notes you hit in the song.

HOW TO ROCK

(If that wasn't enough data for you... there's even more stats available by clicking on the 'More Stats' option)

How Do I Get Star Power?

Gain Star Power by nailing a series of star-shaped notes that glow. You have to nail the entire group, otherwise you're out of luck. You can gain even MORE Star Power by using the Whammy Bar on long Star Power notes. Press the Whammy Bar a bunch to get the most of those long Star Power Notes.

Once your Star Power Meter is at least half-full it'll flash and that means you're ready to tilt your Guitar Hero Kramer Striker Controller! To tilt, hold the Guitar Hero Kramer Striker Controller straight up! Once Star Power is activated you can lower your Guitar Hero Kramer Striker Controller back down and continue jamming. Star Power will stay activated until the Star Power meter runs out.

(In no position to tilt the controller up? You can activate Star Power by pressing the SELECT button.)

Guitar Battle Rules

Instead of Star Power, you get Battle Power. Hit the Battle Gems to get a Power-Up. Tilt your guitar upward to attack the other player and make them miss. You have to make your opponent fail before the end of the song or else you go to Sudden Death. In Sudden Death all the power-ups become the devastating Death Drain.

Guitar Battle Attacks

Broken String: Use this attack to break one of your opponent's strings. The button on the guitar controller won't work until they fix it by rapidly tapping that button until it is repaired.

Difficulty Up: This attack will increase the difficulty on your opponent's note chart.

Amp Overload: This attack causes the scrolling fret board on your opponent's screen to shake and blur, making it extremely difficult to read which notes are approaching.

Whammy Bar: Use this attack on your opponent to force them to move the whammy bar fast before they can play notes again.

Power-Up Steal: This attack steals your opponent's attack before they can use it. If they don't have one to steal and you activate this power, you'll lose it.

Double Notes: Deploying this attack forces your opponent to double up on how many notes they have to play.

The Lefty/Righty Flip: The Lefty/Righty Flip Attack swaps the note chart around opposite to how your opponent would normally play the game.

Death Drain: In Sudden Death, the Death Drain power-up will drain your opponent's rock meter.
