A very small percentage of individuals may experience epileptic seizures when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or while playing video games, including games played on the PlayStation 2 console, may induce an epileptic seizure in these individuals. Certain conditions may induce previously undetected epileptic symptoms even in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition, consult your physician prior to playing. If you experience any of the following symptoms while playing a video game—dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions—IMMEDIATELY discontinue use and consult your physician before resuming play.

## USER PROFILES

Keep track of your career stats with a User Profile. If an active User Profile is associated with a team during a game, the statistics are tracked during the game and updated to the User Profile at the end of the game.

## PLAY NOW

Play an exhibition game between any two teams.

❖ Press the **L2** button to select any team at random or press the **R2** button to randomly select a current NFL team.

# PLAYING THE GAME

It's game time. Take a few minutes to get acquainted with each screen. The more you know, the better your chances of winning.

- ❖ **To select a play**, choose a formation and set, and then pick a play by pressing its corresponding button.
- ❖ To ask John Madden for coaching assistance on your next play, press the button before choosing a formation and a suggested play is highlighted in the play selection window.
- ❖ When playing an offline multiplayer game, call a play from the header below the selection window by pressing the **L2** button + the button, button, or button. To call a play from the header above, press the **L1** button + the button, button, or button.

**NOTE:** Man Lock OFF gives the disguise of being in zone coverage by allowing the defense to NOT follow receivers in motion. The coverage switches based on where the receiver lines up. Man Lock ON shows normal man coverage and has the defensive back follow the receiver in motion.

- ❖ From the Formation window, you can view fatigue levels for your players. When red, players are tired and need rest. A yellow symbol means players are slightly winded, and players are fresh when their symbol is white.

**NOTE:** After each play, the offense has 40 seconds (25 after penalties and timeouts) to select a play before a delay-of-game penalty is called. The defense has ten seconds to choose a play after the offense is ready to break the huddle.

**NOTE:** If you are only simulating the current week rather than a group of weeks, user-controlled games are not simulated.

## PRESEASON

Before you begin the regular season, each team plays four preseason games. After the preseason is over, you can evaluate rookies before moving on to the regular season. Use this information to help finalize your roster for the upcoming season.

- ❖ During the preseason, the Position Battles screen details the battles between players fighting for the same position.

**NOTE:** The CPU automatically sets your preseason depth charts so that starters play the first half, while rookies and backups play the second half.

Build your dynasty through the draft or by signing key free agents. You control the moves for your team and the computer handles the other teams.

## IMPORT DRAFT CLASS

Before a new season begins, you can import an entire draft class from *NCAA® Football 2005* to *Madden NFL 2005* via your memory card.

## OWNER MODE

Hire your staff, set your team's ticket prices, build your own stadium, reward key players with signing bonuses, and more. Keep the fans happy, while making sure you aren't losing money.

## OFF-SEASON SCHEDULE

Use the NFL draft and the free agent market to improve your team during the off-season. There are nine steps to the off-season that must be completed in order before beginning a new season.

- ❖ You are now allowed to sign restricted free agents. Teams can match offers on their restricted free agents, place the franchise tag on them, or lose them to the bidding team. One player per team can be given the franchise tag, and he must be paid within the top five salaries at his position.

**NOTE:** If you wish to skip any steps in the off-season, you can simulate past them. However, if your Coaching Options are not set to CPU for a given step, then your team will not participate in that part of the off-season. After all the off-season steps are complete, a new schedule is generated, and the next season begins.

## **TOURNAMENT**

Compete in a single- or double-elimination tournament, or set up a round robin tournament complete with its own set of playoffs. You choose the teams, their seedings, and more.

Tour NFL cities in the Madden Cruiser and fine-tune your playing skills in Mini-Camp mode. Unlock game situations by setting high scores while earning trophies and Madden Cards along the way.

### **NEW RUSHING ATTACK**

Develop your ground game with this new mini game. Find the hole, follow your blocker, and pick up some yardage. The more yards you gain, the more points you'll rack up. Score a touchdown or break a tackle and you'll get bonus points, but fumble or lose yards and you help your opponent. You can also play Rushing Attack online against other players (see p. 13 for more information).

### **TWO MINUTE DRILL**

Run the Two Minute Drill and score as many points—and tokens—as you can before the final gun sounds. If you score before time expires, you keep possession of the ball and start a new drive.

### **FOOTBALL 101**

With the help of John Madden, get in-depth knowledge of each play and learn how each formation can help you during a game. John Madden runs the play first and then you take control for a chance to earn tokens.

# **FEATURES**

Let your creativity shine through by making fans, players, teams, and playbooks from scratch. You can also modify rosters by making trades, signing free agents, or releasing players.

## **NEW CREATE-A-FAN**

Create a superfan exactly the way you want him, then add him to your team's already avid fan base and watch him go nuts. Choose the way he looks from his hairstyle, to his clothing, to the color of his face and body paint. Maybe even outfit him with a foam finger or a hard hat. The way your fan looks is completely up to you.

## **CREATE-A-PLAYER**

Create a player and add him to any NFL roster. You choose everything from his body type to his helmet to his attributes. As you increase his attributes, his salary and signing bonus also increase.

## **CREATE-A-TEAM**

Create a custom team by selecting the team name, colors, city, and more. You even get to design your stadium and uniforms.

## **CREATE-A-PLAYBOOK**

Create a custom play and formation from scratch and add it to your playbook, or modify a current playbook.

## **ROSTERS**

Keep rosters up to date by trading players, signing free agents, releasing players, and more. You can make changes to any player or any team's roster.

## **HISTORIC TEAMS**

Edit the rosters of the greatest teams in football history.

# MY MADDEN

This is where you keep track of all your accomplishments, stats, and rewards. You'll also use this area to choose your gameplay and system settings.

## EA SPORTS™ BIO

EA SPORTS Bio is a file shared between certain EA SPORTS games via your memory card that tracks key accomplishments and time spent playing EA SPORTS titles.

## EA SPORTS™ GAMER LEVELS

You start out as a Level One gamer and there are three ways to get promoted to the next level: the number of EA SPORTS titles played, the amount of time playing the games, and the total number of games played. After reaching a new level, you may unlock rewards for this or all EA SPORTS titles in your Bio.

**NOTE:** *Madden NFL 2005* only supports the EA SPORTS Bio in MEMORY CARD slot 1.

## MADDEN CARDS

Earn tokens for each Madden task completed, and then use those tokens to buy Madden Cards. Activate one of five types of cards to give your game a boost, or initiate a trade to get that coveted card.

## CARD BOOK

View the cards you have collected or buy new packs.

❖ **To play or sell a Madden Card**, from the Card Book screen, select a card to sell. Flip the card over then choose either PLAY CARD (in-game only), SELL CARD to recoup tokens, or activate it and reap its benefits.

**NOTE:** Some cards, such as cheats and players boosts, can only be activated during a game.

❖ **To risk a Madden Card**, from the Select Sides screen, select a User Profile (for each player) and then access the Options menu. Select RISK CARDS. Select up to three cards to risk.

❖ **To trade a Madden Card**, select the card you want to trade, flip the card, then select ADD. The card has now been added to the trade (you can include up to three cards in a trade). After the second player selects his cards to trade, press the **START** button to complete the current trade.

**NOTE:** Madden Cards can only be risked in multiplayer games where two different User Profiles are being used on opposite teams. Both players must have a profile already loaded, and each profile must contain Madden Cards.

## **NEW** MADDEN CARD CODES

Be on the lookout for Madden Card codes. They will be released over time to allow instant unlocking of Madden Cards.

## **STAT BOOK**

View personal and league stats from the Stat Book. Here you can view career stats for every active coach, general stats for all User Profiles, User vs. User stats, and User Records. You can also view game records and check out the Two Minute Drill leaderboard.

## **COACHING STRATEGY**

Your role as a master strategist starts here. Set your audibles, create custom Hot Routes, and devise formation packages that will keep the opposition guessing. The more creative you are, the more successful you'll be on the virtual gridiron.

### **OFFENSIVE/DEFENSIVE AUDIBLES**

Set your audibles for each User Profile. Each team has five offensive and five defensive audibles.

### **FORMATION AUDIBLES**

View the formation audibles for each playbook's formations.

## **GAMEPLAY SETTINGS**

Most of the gameplay settings are self explanatory. Those that aren't are explained below.

- Coach Mode** Test your coaching abilities: call the plays, audibles, and pre-snap adjustments, and then watch the CPU execute your call.
- Pre-Existing Injuries** Certain players begin the first season with the same injuries as their real-world counterparts.
- Madden Challenge** Earn tokens for completing tasks during your game (1 Player games only).

### **CUSTOM GAME**

- Player Lock** When on defense, the player that you select before the snap becomes the default player that you control at the start of the next play.
- Passing Mode** Select QUICK to simplify passing—you won't have to manually bring up the passing symbols.
- Auto Avoid** QB avoids the rush until the first user interaction, so you can pay attention to the passing routes and not the rush.
- Auto Strafe** Automatically strafes defender to help adjust the angle to ball carrier.
- Offensive Catch Assist** The CPU catches the ball for a user-controlled player.
- Defensive Pass Assist** The CPU swats/catches the ball for a user-controlled player.

## **SYSTEM SETTINGS**

Select which songs featured in the *Madden NFL 2005* jukebox play while you navigate the pre-game menus, choose your audio perspective, adjust the volume for all sounds of the game, and set the visual settings including Camera Angle, Player Displays, Screen Format, and Field Line display. You can also turn automatic replays **ON/OFF**.

## **SAVING AND LOADING**

Save or load files from your memory card.

**NOTE:** Never insert or remove a memory card when loading or saving files.

### **TO LOAD, SAVE, OR DELETE A FILE:**

- 1.** From the Load/Save screen, select **LOAD** or **SAVE** then if you are saving, choose the file you want to save.
- 2.** Select the **MEMORY CARD** slot that contains the memory card you wish to use.
  - ❖ Press the **L1** button or **R1** button to browse the file types.
- 3.** Select the file you wish to **LOAD** or **SAVE**, or select **NEW...** to create a new file.
  - ❖ Type the name of the file, and then select **DONE** to complete the save.
  - ❖ To **DELETE** a file, cycle to it using the **L1** button or **R1** button and press the **○** button.

**NOTE:** If you have already saved the file, you will be prompted to overwrite the existing file instead of saving a new file.

**NOTE:** If a Roster, User Profile, or Settings file is present on a memory card, it is auto-loaded during the initial boot-up from any available **MEMORY CARD** slot. Rosters and settings will be set to the first ones found while User Profiles will load the first three found.

**NOTE:** Files created by *Madden NFL 2005 Special Collector's Edition* are not compatible with the normal version of *Madden NFL 2005* and vice-versa.
