# PROLOGUE

In the late 19th century, Europe was in the midst of a crisis. Unexplained phenomena were being reported all across the continent. In the mountains, people attacked by wolves were driven mad, becoming savage beasts themselves. In the Atlantic, military vessels, merchant ships, and civilian boats all began to mysteriously vanish. In parts of Germany, fear of mysterious kidnappings and disappearances kept terrified villagers trapped in their homes. Finally, when reports from northern Africa told of dead rising from their graves, many believed it to be the end of the world.

The governments of Europe tried to control the situation through the use of elite secret investigation units specifically created to deal with the unexplained phenomena. However, all of their best efforts ended in failure.

# PROLOGUE

Meanwhile, in the countryside of Germany, a man was watching the developing situation with great interest. His name was Dr. Hans Jaeger, a wealthy scientist whose research into electricity manipulation had made him a preeminent figure in the academic community.

To Hans, the bizarre headlines in the newspapers were all too familiar. It was many years earlier that Hans came to possess a most peculiar book. The book was filled with bizarre verses of broken poetry telling of the fall of mankind and the dawn of an eternal age of darkness. At the time, Hans dismissed the book as nothing more than an old collection of mythic poetry. But now, as headline after headline echoed the contents of the centuries-old tome, even Hans could not deny that there was more to the old book than simple myths and legends... It was a prophecy.

What's more, is that if current events were to continue on the path outlined by this evil prophecy, then all of humanity would soon be doomed. Shaken by this prospect, Hans immediately called upon his various contacts in government and tapped into his financial resources to assemble a team of monster hunters.

# PROLOGUE

Three warriors were selected for their unique balance of skill and power. The first warrior was Logan Blackheart, a notorious pirate who had recently lost his ship to one of the unexplained incidents in the Atlantic. Thirsty for revenge and longing to return to the sea, Logan agreed to cooperate with Hans in exchange for a new ship and a chance to avenge his lost shipmates.

Next, there was Delphine de Soras, a skilled marksman from the mountains of France. Her father and brother were among the first killed by the Werewolf while hunting near their mountain home. In exchange for revenge and money to support herself and her mother, Delphine agreed to help Hans in his battle against evil.

Finally, there was Sundano, a noble warrior and shaman from the jungles of Africa. Sundano had come to Europe earlier to join one of the government's secret investigation units, but was labeled a savage and was not allowed to participate. Hans later found Sundano through his government contacts. When approached by Hans, Sundano was not interested in money. He agreed to fight simply to free his people from the curse of the evil Voodoo Queen, and restore balance to the world. With the help of these three brave warriors, Hans swore to put an end to the evil prophecy once and for all.

## Point Battle

The goal of a Point Battle is to clear the rooms of all the tortured creatures that inhabit them, and to earn more points than your fellow warriors. They generally have the same goals as you; however it's easy to take collateral damage from their attacks and vice versa. An intentional attack from you on a fellow warrior could have dire consequences, especially since they are your only potential allies in this battle. It's important to balance enemy kills with friendly defense as you work your way through the rooms.

If your character loses all HP during a Point Battle, he or she will be incapacitated. However, he or she can return from the brink of death by exchanging some of his/her points for HP. In this case, characters remain unconscious until the HP bar is fully replenished.

Once all rooms are cleared, the results are displayed.

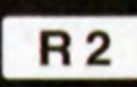

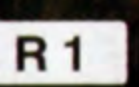

During the battle, press  to display a Mini-Map for navigational assistance.

## Results Screen

# INFORMATION MENU

## TARGET

## COMBO

Determines which move the character will favor—NORMAL, UPPER, SMASH, or WIDE.

## POSITION

Determines whether the character takes a FRONT, CENTER, GUARD, or BACK position. As this selection changes, the diagram on the left side of the screen changes as well.

A description of every setting, as well as the button commands required for each type of attack, is displayed at the bottom of the screen.

## Monster Cards

As you proceed through the game, you can collect cards that contain information on the monsters trying to destroy you. You may also find rare cards that reveal interesting facts about the characters on your team or the world of **McFarlane's Evil Prophecy™**. All of these cards can be viewed from this screen.

1. Press the up, down, left, or right directional buttons to highlight a card, and then press the  button to select it.

If a monster is selected, the card displays the monster's name, HP, Attack Level, Defense Level, Weapon, and Special Attacks. Also listed is the monster's vulnerability to each of the four elemental alignments of Light, Lightning, Fire, or Magic (indicated as Low Resistance, Normal Resistance, High Resistance, or No Effect).

# INFORMATION MENU

## World Map

This map shows the warriors' location in the overall Story of the Prophecy. Each "bubble" represents a chapter or mini-chapter in the Story. Your current location is highlighted. The area name is displayed in the bottom right corner of the screen along with the name of the main monster you are attempting to defeat. No commands are issued from this screen.

## Character Compatibility

Each of the four main characters in the team has various opinions of their teammates. Characters who have favorable opinions of each other will support and defend one another during battle, allowing them to fight more effectively as a team. A character's opinion of the currently selected player character is represented by their compatibility rating (colored bar above the red HP bar).

A blue bar extending to the right from the center of the compatibility gauge indicates that the character has a favorable impression of the currently selected character. On the other hand, a pink bar extending to the left means that the character does not get along with the currently selected character.

From the outset of your adventure, some characters mesh well with each other while others may not. You can improve your compatibility with other characters by assisting them in battle when they call for help ("HELP!" is displayed above the character's head). Compatibility with other characters can also be raised by performing Character Combination attacks. When you partner with another character to do a Character Combination attack, their compatibility with you improves. However, take note that even if a particular character feels close to another, the opposite is not always true.

# GAME MENU

1. Press  at any time during a fight to pause the action. The two choices are BACK TO GAME and QUIT GAME.
2. Press the up or down directional buttons to highlight your choice, and then press the  button to proceed.

## THE CHOSEN ONES

Call them what you will—chosen ones, great warriors, monster hunters—their contempt for the vile creatures they have come to defeat is matched only by their courage. Since you will be very closely involved with their activities during this adventure, it's probably best that you learn something about them.

### LOGAN BLACKHEART™

Dreaded captain of the infamous pirate ship "Blackwynd", Logan Blackheart was well known as both a skilled fighter and a notorious pirate. However, all of that changed one stormy night several weeks ago, when Logan's ship and crew fell victim to a mysterious rash of disappearances in the Atlantic. From this experience, Logan learned first-hand that the ships lost in the Atlantic did not simply vanish, they were attacked by terrible sea monsters. Logan alone survived the ordeal and swore vengeance on the monsters that had robbed him of his ship and crew. Meanwhile, Hans Jaeger heard rumors that the infamous pirate Blackheart was without a ship. Using his connections, Hans tracked down the ruined pirate and offered Logan a new ship in return for his help in vanquishing the evil that threatened humanity. Logan didn't particularly care about saving the world, but desperate to return to the sea and avenge his fallen comrades, he agreed to join Hans in his monster hunt.

# THE CHOSEN ONES

## DELPHINE DE SORAS™

Born and raised in the wild mountainous regions of France, Delphine is a skilled marksman and a resourceful survivor. Her father and brother were killed before her eyes by a giant werewolf in the mountains near her farmland home. Seeking vengeance, she recalled the folklore of her childhood and forged silver bullets to combat the monsters.

However, she soon found that even after selling all of her family's meager possessions, there were far more monsters standing in her way than silver bullets in her guns. Desperate, Delphine left her mountain home in search of help, promising her mother to return after she had killed the werewolf. In town she learned of a rich German aristocrat offering a huge reward for anyone capable enough to serve on his team of monster hunters. In exchange for her help in exterminating the monsters that had overrun the land, Hans promised to give Delphine her vengeance and enough money to support herself and her mother until the end of their days.

## SUNDANO™

A warrior shaman from the jungles of western Africa. Sundano's village was enslaved by the Voodoo Queen. Sensing the rising evil in the world, Sundano foresaw that it was not just his village, but the fate of all humanity that was in peril. Upon hearing that countries of the world were assembling teams to investigate the strange incidents, he traveled to Europe to lend his aid and represent his people.

However, he was labeled a savage and not allowed to participate. Sometime later, Sundano was contacted by a German scientist named Dr. Hans Jaeger, who had learned of Sundano's existence through members of the international council. Dr. Jaeger offered Sundano anything he wanted in exchange for his assistance in destroying the monsters that had appeared in Europe and elsewhere. Having no need for money, Sundano refused any reward and asked only that he be given the chance to free his people and destroy the evil shaman priestess known as the Voodoo Queen.

# THE CHOSEN ONES

## DR. HANS JAEGER™

Hans is a scientist and scholar who, until recently, had been a renowned university professor. His research on the free manipulation of electricity had earned him recognition and many prestigious awards. However, as he became increasingly obsessed with his research, he found himself labeled an eccentric outcast by his jealous peers in the scientific community. False accusations would ultimately cost Dr. Jaeger his work and his good reputation. However, Hans was a resilient man. Using the great wealth he had inherited from his father, Hans was able to survive comfortably and continue his research in private. When Hans learned of the strange events that had struck Europe and northern Africa, he realized that they were more than random occurrences. Based on a book of ancient prophecies that had been left to him years earlier by an old friend and colleague, Hans knew that if things were to continue on their current path, the entire world would soon be plunged into darkness. In an attempt to challenge fate, Hans took it upon himself to assemble a team of monster hunters and put an end to the progression of events outlined in this "evil prophecy".

# MONSTERS

It would be psychologically overwhelming to describe all of the hideous creatures that you'll encounter in the Evil Prophecy. There are six super monsters that appear at the end of each major level, but their minions number in the hundreds. Your goal is always to hack your way through the minions to reach the source of all evil at every stage.

## WEREWOLF

Bermon Mallory was a farmer and a family man until he fell ill one night after being attacked by a diseased wolf. After enduring a terrible and excruciating sickness for several days, Bermon awoke one morning to find his family brutally slain and his hands covered in their blood. Horrified, confused, and hunted as a murderer by his fellow villagers, he fled into the mountains. There, the mysterious disease took root in his soul. Soon, he began to see flashes of his nocturnal activities. He recalled relishing the terrified screams of his victims and delighting in the taste of human flesh. Afraid of the monster that he was becoming, Bermon tried in vain to take his own life, but found that any wounds he inflicted upon himself quickly healed. As the feral beast within him continues to grow in strength and influence, it is but a matter of time before the good man once known as Bermon Mallory fades away to nothing more than a memory.

## SEA CREATURE

On a small island off the coast of England, local legend tells of a fearsome monster from the depths of the ocean that is neither fish nor man. The creature is said to have terrorized the waters of ancient England until it was sealed away by the powers of a mysterious lost civilization centuries ago. However, after countless years of decay, and through Dracula's evil influence, the seal that once imprisoned this monster has finally been broken. Once again free to terrorize the seas, and enraged by centuries of confinement, the Sea Creature seeks to destroy all who dare to enter its realm.

## FRANKENSTEIN

The consequence of Dr. Frankenstein's blind ambition, this twisted shell of a man is a grotesque amalgamation of flesh brought to life by a mad experiment gone wrong. Disgusted and enraged by its own horrid appearance, the creature destroyed its creator, then attempted to take its own life. However, fifteen years after that incident, it would seem that the creature failed in its suicide attempt. Brought out of hiding by the shadowy figure known as Dracula, Frankenstein has set about abducting villagers and transforming them into monsters like himself as punishment for their arrogance. Like a proud child wishing to show their accomplishments to a parent, he carries the exhumed skeleton of his creator and namesake, Dr. Frankenstein, upon his back.

## VOODOO QUEEN

The Voodoo Queen was once a shaman priestess known as Shacari. However, after becoming frustrated with the limitations of shaman magic, she began to explore forbidden spells in her quest for power. After gaining enough strength to defeat her former spiritual master, the high shaman of her village, Shacari gathered an army of cultists and used her magic to enslave any who would not willfully join her by transforming them into undead monsters. Sensing her power, Dracula approached the rogue priestess and offered her immortality in exchange for sacrifices and her help in leading an army of the dead to conquer the world. Though Shacari was not fond of serving anyone, the prospect of immortality was too tempting to resist. Under Dracula's influence, Shacari's power increased, as did her wickedness and cruelty. Surrounding villages quickly fell victim to her evil, and it was not long before all of the region came to fear the one they called the "Voodoo Queen".

## MUMMY

Once feared as a merciless ruler, the ancient Egyptian king Akhensekhemet was slain by his younger brother, who objected to the king's cruel treatment of his subjects. Enraged by this betrayal, the king swore to return from the land of the dead, and used his dying breath to place a curse upon all of his subjects so that they be eternally bound to his will, even in death. Fearful of this curse, the new king ordered his brother's pyramid to be buried and sealed beneath a newly constructed temple designed to banish the vengeful king in the afterlife and prevent his return from the netherworld. For thousands of years the king remained sealed in his prison, until Dracula located the forbidden tomb and dispelled the protective barriers placed upon it. Now, back from the dead, the mummy king commands his cursed army of enslaved souls in an attempt to exact vengeance upon the living.

## DRACULA

A sadistic lord who delighted in torture and feasting upon the blood of his victims, Dracula was presumed slain centuries ago. However, the only thing to perish with the mortal flesh of this cruel oppressor was any semblance of humanity that remained in his black heart. After clawing his way back from the depths of hell, Dracula returned as a vampiric demon with a twisted body to match his demented soul. Using a long forgotten ancient astrological device to guide the heavens and shape destiny, Dracula spread the shadow of his will over the land and saw to the creation and resurrection of five great evils. Now, the forces of evil at their apex, this self-proclaimed Lord of Darkness is but a step away from creating an age of eternal darkness and commanding dominion over all of existence.
