3. Highlight a game and make sure a check mark appears on the left next to the game. Press the **○** button to check or uncheck a game.

4. Highlight the game you want to play and press the **X** button. The Select Controller screen appears.
5. Continue as you would in a Play Now game (> p. 15).

## POST SEASON

Check out the Heisman Memorial Trophy™ Winner, see who set new records, and then it's on to the Bowl Games.

- To simulate a Bowl Game, make sure that the game isn't checked in your team schedule and then press the **X** button.
- ❖ If you had a stellar year, your school may offer to extend your contract or another more prestigious school might offer you a contract. On the flip-side, if your team performs badly and you don't meet your goals, you could be summarily fired!
- ❖ After a great season, your school may be invited to join another, bigger conference. Or, if your stats didn't measure up, you might get booted out of your conference.

After you win or lose your bowl game, negotiate your coaching contract and any conference invitations and demotions, you are prompted to advance to the Off-Season.

## DYNASTY MODE™ OFF-SEASON MENU

Most of the Dynasty Mode Off-Season menu options are the same as regular season. The exceptions are listed below.

**OFF-SEASON SCHEDULE** See which players are leaving (and try and get them to stay, if possible), recruit new players, view training results, cut players, and more.

**RECRUITING RECAP** Review the Top Classes and Signings.

## OFF-SEASON SCHEDULE

There are six steps to the Off-Season Schedule. Complete them in order.

### PLAYERS LEAVING

See which of your players are flying the coop.

- To try and talk a player into staying, highlight him and press the **X** button. Send the Head Coach or the Assistant Coach on a visit, or have one of them give him a call. If you really want to hang on to him, you can do all of the above. For more on recruiting points, > *Recruiting* below.
- You can only talk players into staying if they're in their Junior year or lower.
- To export your draft class to *Madden NFL™ 2004*, press the **START** button.

### RECRUITING

You have a certain number of recruiting points (based on your previous year's performance and on your prestige) which you can assign to prospects. The farther away a recruit is from your school and the lower his interest level, the more points you will need to use to get him to sign.

#### TO RECRUIT A PLAYER:

1. From the Off-Season Schedule, choose RECRUITING. The Recruiting Central screen appears.
  2. Pick a state from which you want to recruit by pressing the D-button **↔** or **↕**, then press the **X** button. The Select A Report screen appears.
  3. To browse the recruits from your selected state, press the **X** button when the first selection is highlighted.
- To choose a recruit from another group (National Top 100, All Prospects, or Interested Prospects), highlight that selection and press the **X** button.

4. To visit or call a prospect, highlight his name and press the **X** button. The Recruiting pop-up window appears.
5. To choose a type of contact with the candidate, highlight it and press the **X** button. Then, highlight PITCH and choose the type of pitch you want to make for your school.
- ❖ There are four different pitches that you can use when talking to a prospect: Program Prestige, Location, Playing Time, and Coaching Style. Select the pitch that you think will be most effective with your prospect.
- ❖ You may choose up to all four contacts for any one recruit, but watch how you spend your recruiting points or you'll have one or two star players and a lot of walk-ons filling your roster.
- ➡ To get a quick overview of your team, press and hold the **○** button. The positions you need to recruit and fill are shown in red until you target enough prospects to fill them.
6. Once you've assigned contacts to all of the players you want to recruit for that week, return to the Recruiting Central menu and press the START button.
- ❖ You must retain a minimum number of players in each position to field a competitive team.
- ❖ To simulate a week or the remainder of the recruiting season, press the START button from the Recruiting Central screen. A prompt asks you if you want to advance to next. Week or simulate all weeks.

**EA SPORTS TIP:** Keep an eye on your lineup to stay competitive season after season. If your current roster is loaded with juniors and seniors, think about recruiting new players to fill the void when the upperclassmen graduate.

## TRAINING

After recruiting is finalized, the Training Results screen appears. See how your team is shaping up.

The screenshot shows the 'TRAINING RESULTS' screen for a player named RT #71 from Miami. The player is a Sophomore Tackle, 6' 5" tall, and weighs 308 lbs. The screen displays ratings for Overall (OVR), Speed (SPD), and Strength (STR) for the current player and other players on the roster. A comparison table shows the player's performance relative to other players on the team.

Annotations on the screenshot:

- Player position and number: RT #71
- View by school: MIAMI
- View by position: TACKLE
- Ratings per characteristic: Overall, Speed, Strength, Awareness
- How much your player improved: The difference between the current player's rating and the 'LAST YEAR' rating.

PLAYER	POS	+/-	OVR	SPD	STR
LAST YEAR			73	42	83
+/-			6	0	3

- ➡ After reviewing your players' training results, press the START button to continue on to Cut Players.

## CUT PLAYERS

Get rid of your players who aren't performing and free up team resources for the guys who are getting the job done.

**EA SPORTS TIP:** Be sure to keep some of your younger players even if they aren't the strongest. This way you'll have some developing talent to step in when your older players leave.
