If you experience any of the following symptoms while playing a video game—dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions—IMMEDIATELY discontinue use and consult your physician before resuming play.

WARNING TO OWNERS OF PROJECTION TELEVISIONS:

Do not connect your PlayStation 2 console to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

2. Make sure the MAIN POWER switch (located at the back of the console) is turned on.
3. Press the RESET button. When the power indicator lights up, press the open button and the disc tray will open.
4. Place the *NFL STREET* disc on the disc tray with the label side facing up. Press the open button again and the disc tray will close.
5. Attach game controllers and other peripherals, as appropriate.
6. Follow on-screen instructions and refer to this manual for information on using the software.

Note: When using the Multitap (for PlayStation®2), a controller must be connected to controller port 1-A.

Take it to the streets

On the street, there are no helmets. There are no offensive specialists. There are only serious ballers, who play both sides of the ball.

Quick Game

Show your style and make some huge hits with nothing on the line but bragging rights. Select two teams and leave it all on the field.

TO PLAY A QUICK GAME:

- ▶ From the Play It menu, select QUICK GAME. The Select Controller screen appears.

SELECT CONTROLLER SCREEN

- ▶ From the Select Controller screen, pick or create a User ID (➤ p. 10), then decide if you want the ball first. From here, advance to the Select Teams screen.
- Up to four players can play a multiplayer game, with a maximum of two players per team. Only one User ID can be used per team.

SELECT TEAMS SCREEN

- ▶ From the Select Teams screen, choose the teams that will battle it out on the streets.

SELECT TEAMS SCREEN

1. Pick your starting seven from the list of players or let the computer select them for you by selecting AUTO PICK.
2. Choose READY to start playing, or select LINEUPS to assign your players to positions on both sides of the ball.

EA BIG TIP: Remember that everybody plays offense and defense. A great running back might not be a very good linebacker, but a huge defensive lineman could be a good blocker on the offensive side of the ball.

SELECT FIELD SCREEN

► Pick a playing field to dominate. It's game time.

TIP: Each field has its own personality, which should alter your strategy when you play on it. For example, in the Pit, the muddy field makes juking and spinning risky, while the West Coast's sand makes it way harder to get up to speed. You also need to pay attention to field dimensions. On a narrow field, a power running game between the tackles is a good tactic; while on a wide field, speed-running and passing attacks might be the best strategies.

Winning

It doesn't matter if you win or lose—it's how you play the game. Yeah, right. Winning is everything.

You win by either reaching the play-to score or by being the first player to hit a certain amount of Style Points. Use the Options menu to choose which type of game you want to play.

User ID

Don't let all your accomplishments go to waste. Create a User ID and use it every time you play to keep track of your teams and players, rewards, and statistics.

Note: You must have a memory card (8 MB) (for PlayStation®2) to save a User ID.

Options

There are a lot of options you can adjust before trying to own the streets. They're easy to figure out, but if you're not sure what an option means, highlight it and read the description on the bottom of the screen.

On the Field

Think you've got game? Let's see about that.

Game Screen

Game Tips

On the playground, everybody plays both sides of the ball in this intense 7-on-7 showdown. That means your skinny quarterback might be a great passer, but he'll probably get run over on defense.

Stylin'

In *NFL STREET*, stylin' is what separates the players from the Playaz. The more stylin' you do, the more you show off your game, but more importantly, the more Style Points you earn.

- Style Points are huge in *NFL STREET*. Get enough of them to fill your GameBreaker Meter (➤ p. 12) and you get a GameBreaker.
- In a Style Point Challenge, the first player to a certain number of points wins.

Note: In a Style Point Challenge, each offensive possession begins with the same field position to give you plenty of room to rack up those points.

GameBreakers

Earn enough Style Points and you're rewarded with a GameBreaker.

GameBreakers ... well what do you think they do? GameBreakers break the game wide open. On offense, you're almost guaranteed a touchdown. Defensively, you can easily create a turnover.

- You earn GameBreakers by showing your skills, racking up some Style Points, and filling your GameBreaker Meter.
- ▶ After earning the points, activate your GameBreaker by pressing the  button before the play begins to start going off.

Note: When your opponent has an active GameBreaker, you can cancel it by activating one of your own. In this situation, your GameBreaker is also cancelled.

Bluff Mode

When you want to keep your opponents from seeing which play you've picked, you can fake them out using Bluff mode.

- ▶ When selecting a play, press the  button to select a play, then keep scrolling to throw off your opponent and press the  button to exit the Playcall screen. The last play you pressed the  button on is the play selected.

Note: All the sound effects are the same so there is no way for another user to recognize what play was called.

- When the team captain selects a play during a two-player cooperative game, the teammate's controller vibrates to indicate which play was selected. This is very important in Bluff mode to keep teammates on the same page.

Instant Replay

Sometimes your moves are so sweet you'll want to watch them again ... and again.

- ▶ Press the  button after a play to view the replay from the previous play.
- ▶ During the replay, press the  button to turn slow motion ON/OFF, press the  button for a different camera angle, and press the  button to cancel the replay.

Pause Menu

We know. It's rough out there. Press the **START** button to access the Pause menu and chill until you're ready for more.

- From the Pause menu, you can check out and adjust your lineup, change some of your options, review the controller layout, or quit the game and return to the Main menu.

Note: In NFL Challenge mode (> p. 17), you can review the status of your challenge in the Pause menu.

Other Game Modes

Play a pickup game full of NFL stars, or take on the league for a chance to unlock rewards for your team.

Pickup Game

Pick teams from a pool of current NFL players and old-school legends like Walter Payton and Barry Sanders. A Pickup Game is similar to a Quick Game, so follow the instructions on p. 7 to get yourself on the field.

NFL Challenge

It's time to take on the big boys. Go head to head against NFL teams to unlock rewards and develop your team into a playground powerhouse.

Creating a Team

Before you start competing with the best, you need to build a team from the ground up.

- You can choose a preset roster type or build a customized team with Development Points (> p. 15).

TO CREATE A TEAM:

- ▶ Choose NFL CHALLENGE from the Play It menu. Create a User ID, and then choose the details of your team, players (> p. 15), and gear (> p. 16).

CHALLENGE LOCATIONS SCREEN

Field name and location, and the name of the division

Edit your team's information and give your players life by developing their on-the-field attributes and choosing their gear.

The division's teams

Development Points

The only way to make your players better is with Development Points.

They're used to increase your players' ten key attributes (► p. 16).

You earn Development Points by winning challenges (► p. 17), so get busy and use them wisely.

Editing and Developing Players

Strategy comes into play when you edit and develop your players. Every Development Point spent on a certain attribute can go a long way in improving players' skills and winning you games.

TO EDIT/DEVELOP A PLAYER:

1. Pick PLAYER EDIT from the Team Editor screen.
 2. Select the player you want to develop.
 3. Choose his name, position, body height and weight, attributes (► p. 16), and more.
- A player's height and weight are very critical to the way he performs on the field. If you want a tall receiver that can jump over a defender or a massive offensive lineman, it's gonna cost you some serious Development Points.
 - Use the Signature Style category to pick the player's four go-to signature style moves. When you really want to rub it in, show your dominance with one of these preset moves (► *Advanced Controls* on p. 5).

ATTRIBUTES

Pick your players' attributes wisely if you want to them to grow into playground legends. These are the ten player attributes and a description of what they affect:

Passing	The speed and accuracy of passes
Speed	How fast a player runs
Blocking	Run- and pass-blocking ability
Agility	Jumping ability and the speed of jukes and spins
Catching	Pass-and pitch-catching ability
Run Power	Ability to break tackles
Carrying	How often a player fumbles
Tackling	Tackling ability and the accuracy of pursuit angles
Coverage	Defensive coverage skills and reaction to the ball on passes, which leads to interceptions
D-Moves	Ability to get through, around, and by blockers

TIP: Make sure players have the right skills for their positions. For example, quarterbacks need solid passing; wide receivers and defensive backs should have good speed, good agility, and coverage; and linemen need both blocking (for offense) and D-Moves (for defense). It also pays off to make all your players good tacklers since everyone plays defense.

GEAR

Not only does what a player wears make him look good on the field, it can also boost his attributes. Use the Gear category to select your player's getup.

- You need to win challenges (➤ p. 17) to unlock Impact Gear like super-fast shoes that make your players quicker, or armored shoulder pads to increase tackling ability. Impact Gear is the only way to increase attributes beyond Level 20.

NFL Division Ladders

Put your team to the test by matching up against seven of the best players each NFL team has to offer. When you beat all the teams in a divisional ladder, you earn 800 Challenge Tokens to use in NFL Challenge mode (➤ below), and you unlock another division and playing field. You win the championship by defeating every team in the NFL.

TO BEGIN AN NFL CHALLENGE:

1. After selecting your team, players, and gear, pick the division you want to take on.
2. Choose to enter NFL Challenge mode (➤ below) or go for the gold now by defeating every team in the division in a game to 36.

NFL Challenge Mode

Spend your Challenge Tokens and earn rewards for your team including Development Points, new plays, Impact Gear, and a chance to add NFL players to your squad.

The harder the challenge, the bigger the reward. You have to spend a lot of tokens to get the goods, but if you win, the payoff is worth it.

For example, you need to drop 760 tokens for a chance to add an NFL player to your team, whereas an Impact Gear challenge only costs you 80–200 tokens, and a shot at Development Points could require you to kick down anywhere from 20–160 tokens.

Note: If you lose a challenge, keep trying until you win. It doesn't cost you any more tokens.

CHALLENGE SCREEN

EA BIG TIP: Here's your chance to strategize, dawg. You might want to add proven players to your squad by picking up an NFL player or two in addition to using Development Points to build your created players. One thing to remember is that you can't use Development Points to improve the NFL players.
