WARNING: PHOTSENSITIVITY/EPILEPSY/SEIZURES

READ BEFORE USING YOUR PLAYSTATION®2 COMPUTER ENTERTAINMENT SYSTEM.

A very small percentage of individuals may experience epileptic seizures or blackouts when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or when playing video games may trigger epileptic seizures or blackouts in these individuals. These conditions may trigger previously undetected epileptic symptoms or seizures in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition or has had seizures of any kind, consult your physician before playing. IMMEDIATELY DISCONTINUE use and consult your physician before resuming gameplay if you or your child experience any of the following health problems or symptoms:

- dizziness
- altered vision
- eye or muscle twitches
- loss of awareness
- disorientation
- seizures
- any involuntary movement or convulsion

RESUME GAMEPLAY ONLY ON APPROVAL OF YOUR PHYSICIAN.

Use and handling of video games to reduce the likelihood of a seizure

- Use in a well-lit area and keep as far away as possible from the television screen.
- Avoid large screen televisions. Use the smallest television screen available.
- Avoid prolonged use of the PlayStation®2 system. Take a 15-minute break during each hour of play.
- Avoid playing when you are tired or need sleep.

Stop using the system immediately if you experience any of the following symptoms: lightheadedness, nausea, or a sensation similar to motion sickness; discomfort or pain in the eyes, ears, hands, arms, or any other part of the body. If the condition persists, consult a doctor.

WARNING TO OWNERS OF PROJECTION TELEVISIONS:

Do not connect your PlayStation®2 system to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

HANDLING YOUR PLAYSTATION®2 FORMAT DISC:

- This disc is intended for use only with PlayStation®2 consoles with the NTSC U/C designation.
- Do not bend it, crush it or submerge it in liquids.
- Do not leave it in direct sunlight or near a radiator or other source of heat.
- Be sure to take an occasional rest break during extended play.
- Keep this compact disc clean. Always hold the disc by the edges and keep it in its protective case when not in use. Clean the disc with a lint-free, soft, dry cloth, wiping in straight lines from center to outer edge. Never use solvents or abrasive cleaners.

SUPERSTAR MOVES

NHL 2K9 gives you unprecedented control over the game of hockey, and with Superstar Moves you will see some of the greatest moves out there. From the Main Menu, select Hit The Ice! and then Superstar Moves to get a walkthrough of this feature. With a little practice, you will be making through the legs shots, one-hand reaches and more. Not all players will have each of these Superstar Moves though - what they can do depends on their Agility rating and Puck Handling skills.

PRO TIPS

BACKWARDS SKATING

To skate backwards with the puck, hold down the L1 button. Your player will then face the net and move backwards without turning around. You can exit this mode by skating forward or using any form of speed burst. Your player will remain in this skating mode for a short period of time after you release the button, so you have time to let go of it and reach the pass and shoot controls.

FATIGUE

A good coach knows which players are going to be able to perform at 100% in the late stages of a game. Monitor your players' fatigue meters to find out who is going to have the most gas at the end of the game. Then you can edit your lines to build a better late game unit or put the right line on the ice at the end of the game.

PRO STICK™

Pro Stick™ makes its first appearance on the PlayStation 2 with NHL 2K9. Using the right analog stick, you now have the ability to stick handle left and right. You can also take a wrist shot by moving the right analog stick up, or a slap shot by moving it down, then up.

SHOT BLOCKING AND DIVING

To block a shot by kneeling or sliding in front of the puck, press the R2 button and your player will go down and sacrifice the body. In addition to blocking shots, this is a good way of blocking passes through the slot and long passes by an offensive player who is breaking out.

INTENSE CONTACT CONTROLS

These moves include hooking, slashing, spearing, and elbowing and will more often than not land you in the penalty box. Perform these by moving the right analog stick toward the opposing skater (or press and hold R3 and then move the right analog stick toward an opposing skater for maximum intensity). Be careful though - you are better off reserving use of intense contact controls for extreme situations only.
