PROLOGUE

The mid-western town of Raccoon City was completely decimated by the T-virus outbreak, an incident perpetrated by the international corporation known as "Umbrella."

Claire Redfield, who traveled to Raccoon City in search of her lost brother Chris, managed to escape from the city along with rookie police officer Leon S. Kennedy. But their ordeal is only a prelude of things to come.

Now, 3 months later . . .

Claire Redfield

Claire's inquisitive nature makes her more than just an ordinary college student who loves riding motorcycles. She went to Raccoon City in search of her brother Chris, who was missing under mysterious circumstances. But almost immediately she became involved in a series of eerie incidents engineered by the Umbrella Corporation.

Teaming up with rookie cop Leon S. Kennedy, Claire managed to escape the city. Three months later, she now heads to Europe, following up on clues about Chris. However, she is soon caught by the Umbrella Corporation and transferred to the corporation's prison on an isolated island.

A member of special tactics force S.T.A.R.S., Chris is a tough agent with a will of iron and body of steel. He is an expert at handling firearms. A former Air Force pilot, he's also a top-notch airman. After solving the "mansion incident," he transferred to Europe with his team members Jill and Barry to seek the truth.

Chris Redfield

Despite being young and often reckless, Steve is a good kid at heart. He has mixed feelings about his family, and his motivation remains wrapped in mystery. He was captured along with his father and held in the Umbrella prison on an isolated island. During a raid by an unknown organization, he escaped in the chaos. Steve now meets up with Claire as the adventure begins.
