RESIDENT EVIL® OUTBREAK FILE #2 is the second installment in Capcom®'s *RESIDENT EVIL® OUTBREAK* series, featuring even more intense gameplay and group scenarios you can enjoy offline with AI-controlled characters, or online with other players around the country.

Raccoon City is gripped by another mysterious rash of horror-filled episodes. Terror looms as Kevin and the rest of the survivors search for the truth behind the catastrophic events.

Only one thing IS for sure...***YOU CAN'T SURVIVE ALONE!***

- ▼ *HDD INSTALL* — You can install data on the special internal hard disk drive (40GB) (for PlayStation®2). Although you can play a game without installing data, doing so will shorten loading time and allow for more seamless play. (See page 20.)

GAME OBJECTIVES

For most of the game, your objective is to fight against time, escape or defeat enemies who are trying to take your life, and somehow survive. Figure out the riddles in each scenario as you work to discover the final objective.

DAMAGE

When attacked by an enemy, you incur damage. If you're attacked beyond a certain point, you reach critical status (crawling on the ground).

In that state, most of your activity is limited, and the speed of your Virus Gauge increases (see page 11). Try to use a healing item or get someone to help (shoulder) you. (See page 15.)

You can check your degree of damage on the Status Screen Electrocardiogram (see page 13). The color of the text shows your damage level.

- ▼ *GREEN* — Fine (normal)
- ▼ *YELLOW* — Caution (low damage)
- ▼ *ORANGE* — Caution (medium damage)
- ▼ *RED* — Danger (heavy damage)

UNUSUAL STATUS

The Electrocardiogram also displays your unusual status, if any: *BLEEDING* or *POISON*.

- ▼ *BLEEDING* — You will bleed when you are attacked by enemies, go through various events, and so on. In this state, your movements and physical power decrease slowly. After a fixed period of time, your status returns to normal. By using certain items, you can heal yourself instantly.
- ▼ *POISON* — Certain enemy attacks can also poison you. In this state, your physical power decreases slowly. You must use a specific item to heal yourself after a poison attack.

GAME OVER

The game ends as a result of viral infection or a fatal event.

- ▼ *VIRAL INFECTION* — You begin the game infected by the virus. The Virus Gauge in the Status Screen increases both over time and when an enemy attacks you. In Network Play, when the gauge reaches 100%, you become a Zombie. In this state you can attack other players, open doors, and so on by pressing the  button. After a fixed period of time, you die and the game ends.
- ▼ *FATAL EVENT* — Various kinds of events, puzzles, and so on can result in death for your character.

SAVING GAME DATA

Save game data includes game history, Results and Collection Mode features. After finishing a scenario, you'll have the option to save all game data. You can also save game data in Options from the Main Menu. (See page 20.)

Once game data is saved, you can load it from Options to continue play.

Warning: There is only one saved game for all scenario data. If you begin a new game with previous data already saved, any save during the new game will overwrite the older data. Once data is overwritten, it cannot be restored.

In Single Play Mode, you can save your game progress by using typewriters in set locations. After saving, you will return to the game.

HINTS

DEALING WITH ENEMIES

As your first line of defense, consider running! If you've got plenty of ammo or nearby characters are backing you up, then try to stand and fight. Each weapon has a special characteristic, so use the best weapon for the situation.

OPENING DOORS

If you can't find the key, or the door is guarded by enemies, then breaking it down is the best way to go. Using a gun to open a door consumes ammunition and a tackle works only in certain situations. Figure out the best method to fit the circumstances.

OTHER CHARACTERS

Listen for game sounds. You can hear characters' footsteps, screams, gunshots, etc. in nearby rooms. When you hear a scream, open the Map right away to pinpoint its location.

ENVIRONMENTAL OBJECTS

Items such as gas cans can be shot to damage nearby enemies. Try using these objects in the environment in different ways — they can help you survive a fight!

HIDDEN POWER OF ITEMS

Herbs, emergency spray, and other medicinal items can momentarily halt the Virus Gauge. Even if your health is fine, use these items to push back the spread of the virus if it gets too high. Combine green, blue, and red herbs to add more effects than if using them individually.

FALLEN & CAN'T GET UP?

If your character is unable to walk, try using healing items. If you don't have any, search the area or call for help.

AN EASIER WAY TO ATTACK

You can stay faced towards enemies with Action Aiming. Combine this with normal aiming to help you defeat enemies.

TROUBLESHOOTING

FIREWALLS

In order to join or host a *RESIDENT EVIL® OUTBREAK FILE #2* game from behind a router with NAT (Network Address Translation), or firewall, you may need to enable PORT FORWARDING. You will need to route, or forward, all data on port(s) 1027-65535 (UDP) and 10127 (TCP) to the IP address assigned to your PlayStation®2 console.

Note: Users using DHCP must ensure that their PlayStation®2 console is always assigned the IP address specified in the PORT FORWARDING setup; under these circumstances you may need to change your PlayStation®2 from "Auto Detect (DHCP)" to a "Static IP" address using the Network Configuration GUI or Network Adaptor Start-Up Disc to ensure that forwarded data always gets to your PlayStation®2 console.

If you are still having trouble connecting to other players, try bypassing the router or firewall by connecting your PlayStation®2 console directly to your broadband device.

RULES OF CONDUCT FOR ONLINE PLAY

These Rules of Conduct outline the rules that you need to follow. While it is by no means an all-inclusive list, it provides a starting point from which you can determine if your actions are appropriate. Failure to follow these rules may mean you will be banned from playing the Game.

What you can't do:

- Don't use the Game to do anything illegal. CEI isn't responsible for anything you say on the service or for anything that happens because of what you say; you alone are responsible.
- Don't violate any relevant law or posted guidelines or codes relating to the use of the Game.
- Don't provide or offer to provide services for the provision of gaming or wagering services.
- Don't abuse other players, CEI employees, CEI partners, CEI affiliates, or the GameMaster.
- Don't defame, abuse, harass, spam, stalk, threaten, or otherwise violate the legal rights (such as rights of privacy and publicity) of others.
- Don't use foul language, in any language.
- Don't publish, distribute, discuss or disseminate any inappropriate, profane, defamatory, infringing, obscene, indecent, or unlawful topic, name, material, file or information, and other unlawful materials like child pornography or illegal drugs.
- Don't create a Login Name with any profanity, sexually explicit language, sexual innuendo, or racial, ethnic, or religious slurs in it.
- Don't create a name that references controversial religious topics, notorious people, organizations, or sensitive current or historical events that may also be considered inappropriate.
- Don't publish, distribute or disseminate any topic, name, material, file or information that incites discrimination, hate or violence towards one person or a group because of their race, religion, nationality, transgender status, homosexual status or HIV/AIDS status, or that insults the victims of crimes against humanity by contesting the existence of those crimes.
- Don't give false information or intentionally hide any information when registering for your Account.
- Don't give out information that personally identifies you such as your real name, address, phone number, credit card number, etc. while you're playing. This includes names you create. This information could be used by other players for illegal or harmful purposes. Also, don't give out the personal information of other players.
- Don't harvest or otherwise collect information about others, including email addresses, without their consent.
- Don't create a false identity for the purpose of misleading others, like impersonating or attempting to impersonate CEI employees, its partners, affiliates or other game players.
- Don't view, intercept, or attempt to intercept private communications not intended for you.
- Don't cheat in a game unless cheats have been deliberately enabled.
- Don't use the Game or any material or information which is made available through the Game or the online service in any manner that infringes any copyright, trademark, patent, trade secret, or other proprietary right of any party.
- Don't upload files that contain viruses, Trojan horses, worms, time bombs, cancelbots, corrupted files, or any other similar software or programs that may damage the operation of CEI's game servers, another's video game console or other property of another.
- Don't flood the screen (i.e. hitting "enter" over and over again) which interferes with others' ability to chat.
- Don't advertise or offer to sell or buy any goods or services or post any web links associated with such offer.
- Don't sell or buy any items, equipment, or money in the game with real currency.

Always use caution when giving out any personally identifiable information about yourself or your children. Your communications are not private and can be recorded and used by others.

If you violate the Rules of Conduct or the Online End User License Agreement that you agreed to, action may be taken against your Account. For example, if you create an inappropriate Login Name you may be required to change it. If you use an inappropriate nickname you may be temporarily locked out of your Account. If we are notified that you have posted inappropriate content of any kind, it may be removed. Depending on the severity of the offense, you may even have your Account terminated. CEI is not obligated to send you a warning before these actions occur. If you are banned while participating in the Game CEI assumes no liability in the loss of any potential gain.
