WARNING: READ BEFORE USING YOUR PLAYSTATION®2 COMPUTER ENTERTAINMENT SYSTEM.

A very small percentage of individuals may experience epileptic seizures when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or while playing video games, including games played on the PlayStation 2 console, may induce an epileptic seizure in these individuals. Certain conditions may induce previously undetected epileptic symptoms even in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition, consult your physician prior to playing. If you experience any of the following symptoms while playing a video game—dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions—**IMMEDIATELY** discontinue use and consult your physician before resuming play.

WARNING TO OWNERS OF PROJECTION TELEVISIONS:

Do not connect your PlayStation 2 console to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

USE OF UNAUTHORIZED PRODUCT:

The use of software or peripherals not authorized by Sony Computer Entertainment America may damage your console and/or invalidate your warranty. Only official or licensed peripherals should be used in the controller ports or memory card slots.

COMPLETE CONTROLS

These are the default controls. To change your controller configuration, go to the Options section of the Extras menu.

THINGS YOU NEED TO KNOW

As you approach a jump, press the **■** button to jack up your speed, then press the **D**-button in the direction of your upcoming trick to pre-wind. The longer you hold the pre-wind the more rotations you get when you launch.

The key to long combos is linking air and ground tricks one after another. Use board and tail presses or pivots to link your tricks together on the ground.

TRICKS

So many tricks, so little time to show them off to your friends. Tricks are all about timing and they go a little something like this:

Press and hold the **×** button as you approach a jump. As soon as you hit the lip of the jump release the button to take off. In mid-air, use a combination of grabs, spins, flips, and tweaks to rack up points. Be sure to pre-wind your tricks to obtain maximum spinnage after you take flight.

MONSTER TRICKS

When you want to go huge — I mean REALLY huge — throw down a monster trick. Fill up your bodg+ bar by doing tricks and once the bar is either yellow or magenta, press the right analog stick up, down, left, or right to show your skills.

STARTING THE GAME

Green YOU'RE getting there. keep the tricks coming.

Yellow It's time to let loose some monster tricks.

Magenta At this point YOU have UNLIMITED boost, UNTIL YOU fall and have to start ALL OVER again, that is.

SAVING AND LOADING

EA SPORTS BIG™ Tip: be sure to turn the AutoSave feature ON when prompted OR in the Options menu so YOU never have to worry about losing YOUR progress.

SAVING and LOADING requires YOU to have a memory card (8MB) (for PlayStation²) in MEMORY CARD SLOT 1.

be CAREFUL how many user profiles YOU save because ONLY the first six profiles saved to a memory card are seen on the Load Profile screen.

NOTE: NEVER insert OR remove a memory card when loading OR saving files.

THE TOUR

create a rider or skier and build a career as you progress from a slope-side wannabe to a black-diamond rockstar. Start your career by competing in shred challenges before getting invited to The Tour, where you can enter medal events. Tear up the massive new mountain, but make sure you look good doing it because your reputation is always on the line. You create the hype — the hype creates a legend.

USER PROFILE

The first thing you do on The Tour is create a user profile and build a character from scratch. Choose a name, whether your character is male or female, a rider or a skier, and finally how he or she looks.

THE TOUR MENU

Press the  button from the map screen to access The Tour menu. From there you can customize your music playlists, switch user profiles, review your rewards, and set options for The Tour.

YOUR RANK

To become a black-diamond rockstar, you need to make a name for yourself and move up the charts. You start as a novice, but with a little time on the hill, you'll be somebody in no time. To see how far you've progressed, check out the charts from the rewards section of The Tour menu.

HYPE

To improve your rank, you need to earn hype. There are a few ways to create hype and none of them have anything to do with going slow or being nice. Earn hype by completing shred challenges and medal events, knocking down or terrifying tourists as you fly by them, and escaping the relentless ski patrol.

At the end of every event, you see a tally of your newly earned hype.

THE MAP

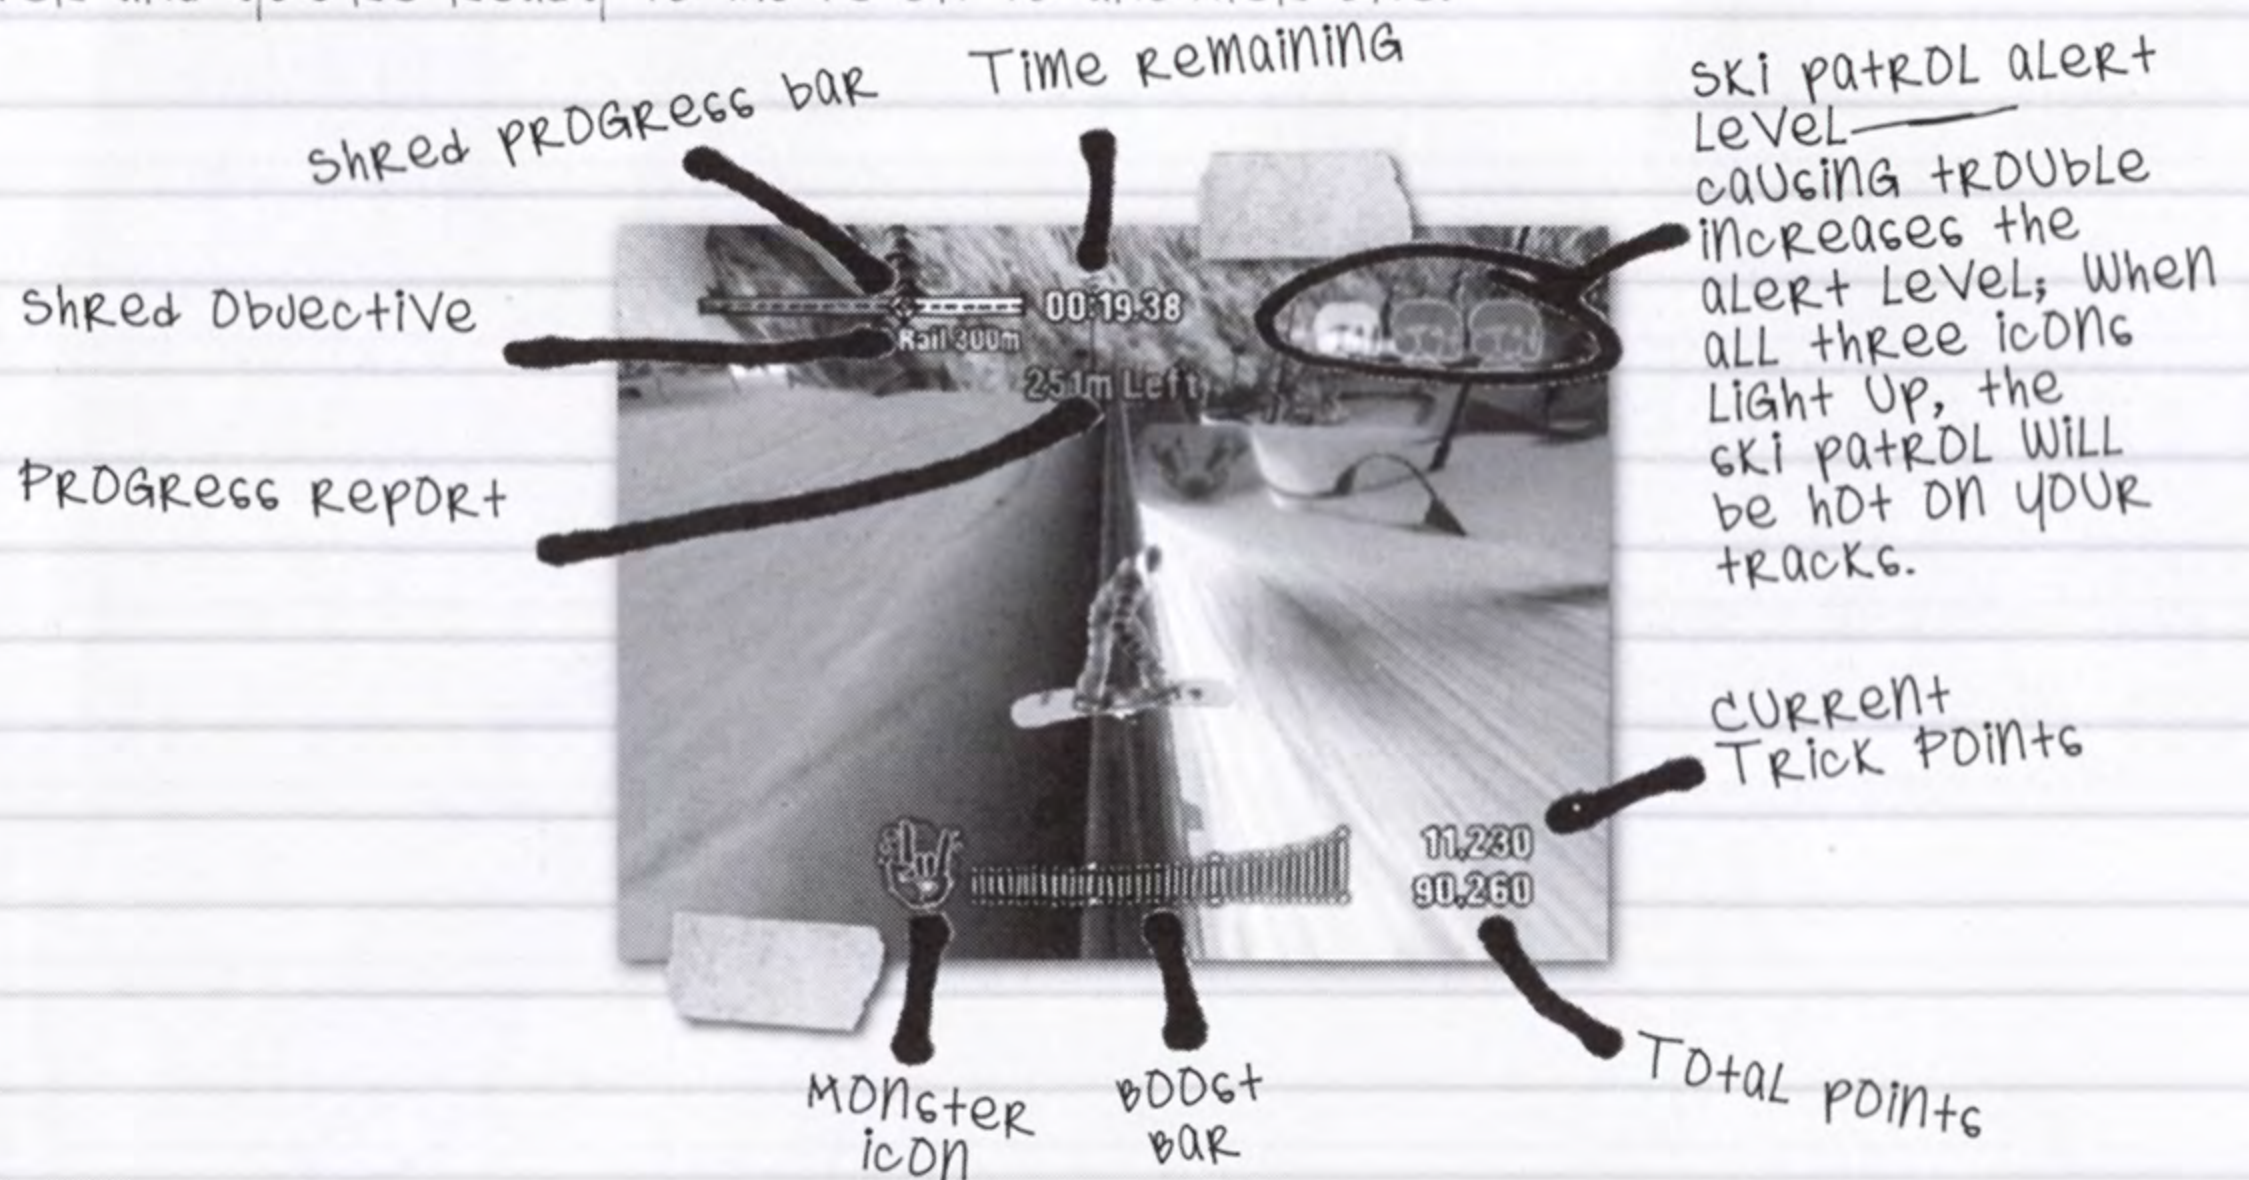

Use the map to navigate the mountain and enter any of the events available to you. Also visit the map to access the gear, clothing, and the barber/beauty shops.

After choosing an event on the map, be sure to review the objective as the event loads.

⚡ SHRED CHALLENGES ⚡

Start building your rep by successfully completing shred challenges. Each shred challenge has a goal and once you complete it, the challenge is over and you're ready to move on to another one.

★ MEDAL EVENTS ★

After becoming an amateur, you are invited to join The Tour and compete in medal events. The competition is tough, but the rewards are big enough to compensate you for the effort. Use the money you earn to buy better equipment and attributes from the shops.

FREERIDE

MASTER YOUR TRICKS AND LEARN THE MOUNTAIN FROM TOP TO BOTTOM IN FREERIDE MODE. NO PRESSURE. NO TIME LIMIT. ONCE YOU'VE UNLOCKED FREERIDE BY PLAYING THE TOUR, PRESS THE  BUTTON ON THE MAP TO ENTER FREERIDE MODE.

SHOPS

YOU KNOW ALL THAT CASH YOU'VE GOT BURNING A HOLE IN YOUR PARKA? THE SHOPS ARE THE PLACE TO SPEND IT. THEY'RE ALSO WHERE YOU NEED TO GO TO EQUIP PURCHASED AND UNLOCKED ITEMS.

GEAR SHOP

PURCHASE NEW BOARDS AND SKIS, TRICKS, AND ATTRIBUTES. BUYING BETTER BOARDS INCREASE YOUR ABILITIES, WHILE BUYING BETTER TRICKS GETS YOU MORE TRICK POINTS.
