THE STORY

The game follows Detective Vic Mackey and his Strike Team through the seedy, high-crime Farmington District, a.k.a. "The Farm." They will keep the streets safe...at all costs. Vic and his crew are not above breaking the rules when it comes to serving up their own brand of justice.

In The Shield game, you are Detective Vic Mackey. You're a no-holds-barred cop who engages in perilous police work that includes busting crack dens, keeping the gang-bangers in line, and apprehending the worst criminals in the city.

CHARACTERS

THE STRIKE TEAM

The Strike Team is Farmington District's anti-gang unit. They're highly effective at controlling Farmington's drug traffic, but they sometimes use questionable methods to achieve their goals.

DETECTIVE VIC MACKKEY

Vic Mackey is a different kind of cop. As the head of the Strike Team, Vic believes that the end will justify any means and uses tough tactics to fight crime. Vic is loyal to his allies and protects the innocent, but if you cross him, all bets are off.

DETECTIVE SHANE VENDRELL

Second in command of the Strike Team, Shane is often regarded as reckless and a loose cannon. He is fiercely loyal to Vic, who has bailed him out of many tough situations. Shane lives by the saying, "Work hard, play hard."

DETECTIVE RONNIE GARDOCKI

Quiet, cynical and introverted, Ronnie is the Strike Team's resident expert in the field of surveillance and law enforcement tools. Ronnie has a close friendship with Vic, but is often unaware of Vic's most questionable actions.

DETECTIVE CURTIS "LEMONHEAD" LEMANSKY

Lemonhead is the conscience of the Strike Team, and has deep reservations about Vic's apparent corruption, but he is also very loyal to Vic and the Strike Team. He adds some extra brawn to the team, and his relaxed attitude quickly disappears in tense situations.

CAPTAIN DAVID ACEVEDA

Captain of Farmington's police force, Aceveda's political ambitions clash with Vic's tactics. Aceveda would like nothing better than to see the Strike Team dissolved.

OFFICER DANIELLE "DANNY" SOFER

Danny is a patrol officer who aspires to become a detective. She was loyal to Vic, but now believes that he was behind her recent demotion.

OFFICER JULIEN LOWE

Julien was trained by Danny, and is partnered with her. Religious and with a strong moral compass, Julien genuinely wants to help the people of Farmington District.

DETECTIVE CLAUDETTE WYMS

A veteran detective, Claudette is highly respected by the force. She is partnered with Dutch Wagenbach, and takes a no-nonsense approach to her job. Claudette has much disdain for Vic's methods.

DETECTIVE HOLLAND "DUTCH" WAGENBACH

Dutch is a by-the-book cop who specializes in criminal profiling. He has an ongoing rivalry with Vic, and is determined to get to the bottom of the Strike Team's involvement with the Money Train heist.

THE BARN

The Farmington District's police headquarters is nicknamed "The Barn." The Clubhouse is a room in "The Barn" where Vic and his

Strike Team regroup at the end of a mission. "The Barn" is also where contraband is supposed to be turned in and where Vic stores his Retirement Fund.

RETIREMENT FUND

Vic and his Strike Team spend considerable effort building their Retirement Fund. This is done by keeping a piece of the cash and drugs confiscated from criminals in order to finance their own less-than-ethical ambitions. Their goal is to collect enough in the Retirement Fund in order to leave the police force completely. Collect cash by taking evidence during raids and depositing into Vic's locker. As Detective Vic Mackey, you decide how much cash to keep and how much to turn in when you head back to the Clubhouse in "The Barn." Earn enough for your Retirement Fund and you will unlock game extras (such as deleted scenes) at the end of the game. Keeping all the money for yourself isn't always a good thing, but your desire to build that Retirement Fund is strong!

CONTRABAND

Part of Vic's job is dealing with shady drug dealers. Ideally, any drugs Vic discovers will always be turned in at "The Barn"...but that's not always the case. As Vic, you can choose how much contraband to turn in. Turning in contraband lowers Vic's heat level.

Remember: Vic sometimes follows his OWN set of rules in order to catch the bad guys, and he'll use whatever means necessary.

DISPLAY

HEALTH

Vic's health is represented by the green bar. As Vic's health decreases, this bar changes from green to yellow to red. When Vic's health runs out, the mission is over. Criminal attacks impact his health.

Over time, Vic's health slowly regenerates. To restore health faster, find a first-aid kit. As Vic takes damage, the maximum amount of health that can be regenerated over time is decreased. Vic can only heal back up to the new health limit unless he finds a first-aid kit.

HEAT

Even though Vic is a crooked cop, he still has limits and is subject to the consequences of his criminal activities. Performing illegal activities, such as killing innocent suspects or having eye witnesses present when engaging in questionable interrogation tactics, raises the heat meter. If Vic accumulates too much heat, he fails the mission.

To lower heat, Vic must perform his duties within the limits of the law. Returning evidence to the Barn and arresting criminals lowers heat. Hiding Vic's bad behaviors, such as planting evidence, also lowers heat.

You must carry out Vic's unique brand of justice and maximize his Retirement Fund earnings while keeping heat levels low enough not to get caught.

EYE WITNESS

An eye icon displays when an eye witness is present. Extra heat is added when Vic performs questionable acts when someone is watching.

ADRENALINE

The blue meter represents Vic's adrenaline. Adrenaline increases during intense situations, such as fighting. When Vic's health is low, adrenaline kicks in to assist him during combat. Adrenaline decreases over time.

WILL METER

The meter above a criminal or suspect's image represents his will and his ability to be intimidated. The higher a suspect's will, the less likely he will give in to Vic's methods of interrogation. When suspects have low will, they readily give into questioning, physical force, and handcuffing.

There are several ways to intimidate a suspect. Not everyone can easily be broken...as Vic, you must find the best way to intimidate people. Sometimes, punching a suspect in the face is enough. Other times, Vic may have to resort to more drastic methods such as smashing a gun in a criminal's face or shoving a criminal's head in a toilet.

CONTROLS

The lower left menu displays the actions available to Vic. These actions vary, depending on the situation. Choose Vic's next move by selecting the appropriate button as displayed on the screen. To see the list of all actions, see page 12.

GOING INTO COVER MODE

Move Vic towards an object and press . This allows Vic to move left or right while crouched. Pressing the right or left directional buttons will make Vic lean out from behind cover. Cover Mode permits Vic to target enemies without taking damage. When an enemy is targeted, hold **L1** to briefly pop out of cover to shoot. Release **L1** to return to cover.

GOING INTO WALL MODE

Move Vic towards a wall and press . This allows Vic to move along the wall. Pressing the right or left directional buttons will make Vic lean around a corner. Wall Mode permits Vic to target enemies and avoid most damage. When an enemy is targeted, hold **L1** to briefly pop away from the wall to shoot. Release **L1** to return to hiding behind the wall. Wall Mode also gives Vic a chance to regenerate health.

HAND-TO-HAND COMBAT

Use hand-to-hand combat to attack and subdue a suspect. Single button presses result in Vic executing a variety of different attacks. Multiple, consecutive button presses will result in Vic performing short combinations of kicks and punches.

GRAPPLING

Grappling is an attack where Vic grabs a suspect. Grappling can occur while standing or kneeling on the ground. A grapple is initiated by pressing the grapple button when a suspect is within range. Once Vic is in grapple mode, Vic can inflict damage by punching and elbowing the suspect. Use grappling for apprehending fleeing criminals, handcuffing, and intimidation.

MINI-GAMES

INTERROGATION MINI-GAME

In this mini-game, Vic must grapple a perpetrator and force him into an interrogation position at a flashing interrogation station object. When prompted, perform the proper button matching

technique to lower the suspect's will and get Vic the answers he needs.

SEARCH MINI-GAME

In this mini-game, Vic must quickly search for contraband to increase his Retirement Fund or evidence to turn in lower Vic's heat. The speed in which you solve the puzzle specifies the size of the contraband reward. Move the cursor along the police badge. The smaller the cursor gets, the closer Vic is to finding the contraband. The cursor also changes from blue (cold) to red (hot) when Vic is close.

WEAPONS AND SHOOTING

Weapons are assigned at the start of a mission. Vic also acquires weapons and ammo by searching perpetrators over the course of the game. Some missions are so perilous that Vic is outfitted with Kevlar body armor. This may save Vic's torso from gunfire, but his head is still vulnerable...he is not immune when wearing body armor!

Each time Vic goes back to the Barn at the end of the mission, he must turn in his weapons.
