## **⚠️ WARNING: PHOTSENSITIVITY/EPILEPSY/SEIZURES**

### **READ BEFORE USING YOUR PLAYSTATION®2 COMPUTER ENTERTAINMENT SYSTEM.**

A very small percentage of individuals may experience epileptic seizures or blackouts when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or when playing video games may trigger epileptic seizures or blackouts in these individuals. These conditions may trigger previously undetected epileptic symptoms or seizures in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition or has had seizures of any kind, consult your physician before playing. IMMEDIATELY DISCONTINUE use and consult your physician before resuming gameplay if you or your child experience any of the following health problems or symptoms:

- dizziness
- altered vision
- eye or muscle twitches
- loss of awareness
- disorientation
- seizures
- any involuntary movement or convulsion

RESUME GAMEPLAY ONLY ON APPROVAL OF YOUR PHYSICIAN.

---

### **Use and handling of video games to reduce the likelihood of a seizure**

- Use in a well-lit area and keep as far away as possible from the television screen.
  - Avoid large screen televisions. Use the smallest television screen available.
  - Avoid prolonged use of the PlayStation®2 system. Take a 15-minute break during each hour of play.
  - Avoid playing when you are tired or need sleep.
- 

Stop using the system immediately if you experience any of the following symptoms: lightheadedness, nausea, or a sensation similar to motion sickness; discomfort or pain in the eyes, ears, hands, arms, or any other part of the body. If the condition persists, consult a doctor.

### **WARNING TO OWNERS OF PROJECTION TELEVISIONS:**

Do not connect your PlayStation®2 system to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

### **HANDLING YOUR PLAYSTATION®2 FORMAT DISC:**

- This disc is intended for use only with PlayStation®2 consoles with the NTSC U/C designation.
- Do not bend it, crush it or submerge it in liquids.
- Do not leave it in direct sunlight or near a radiator or other source of heat.
- Be sure to take an occasional rest break during extended play.
- Keep this compact disc clean. Always hold the disc by the edges and keep it in its protective case when not in use. Clean the disc with a lint-free, soft, dry cloth, wiping in straight lines from center to outer edge. Never use solvents or abrasive cleaners.

# RACE SCREEN

## **RACE EVENT**

A race event is a series of stages throughout the day. Races begin in the late afternoon and ends in the late evening. A full format race consists of a qualifying round, 2 heats, a semi and main race, while a quick race format consists of a qualifying and main race only.

### **Tuning**

This is where you change the your cars setup and get the most out of it on the given track. Each car is tuned by default to work well, but you may want to change it to fit your driving style or to increase your car's performance.

### **Practice**

Get to know the track in the Practice session.

### **Qualifying**

At the qualifying sessions you get one warm-up lap to achieve top speed and 4 timed laps to determine your spot in the heat .

### **Heats**

Your qualifying position determines if you will race in Heat 1 or Heat 2. Race against opponents to qualify for the main event. The top 8 races from each heat qualify for the Main event. Finish in 9th through 18th place in the heats to make it to the Semi race.

### **Semi**

This is a second chance for those who did not place high enough in the heats to qualify for the main event. The top four racers in the semi qualify for the main event.

### **Main**

This is the main event race for the evening. The top drivers from heat 1 and 2 take the top 16 spots, with the remaining spots being filled from the top 4 Semi race winners. The winner in the main is the winner of the event!

## **RACE FLAGS**

The Race Flags are displayed on the Race Screen just above the cars damage indicator.

### **Green Flag**

The green flag is shown at the start of the race and at a restart of the race to indicate the race is underway and racing conditions are normal.

## **Green and White Flag (Crossed Flags)**

This flag is shown when the race leader has reached the halfway point in the race. They have completed half the laps of the race.

## **White Flag**

The white flag is shown to indicate that the race leader is on their final lap and only one lap remains before they finish the race.

## **Yellow Flag**

A yellow flag indicates that a car has been damaged enough that it is unable to complete the race or is in a dangerous position on the track in relation to other cars.

In either situation the screen will fade to black and the race will continue at the start line. The damaged vehicle will be removed from the track and all cars will be in the positions they were in when the flag was displayed.

## **Black Flag**

The Black Flag is the penalty flag. When you try to cut a corner too closely, or end up off the racing surface for an extended period of time you will see a black flag.

## **Checkered Flag**

The checkered flag is displayed at the end of the final lap of a race to notify all drivers that the race is over.
