A very small percentage of individuals may experience epileptic seizures when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a television screen or while playing video games, including games played on the PlayStation 2 console, may induce an epileptic seizure in these individuals. Certain conditions may induce previously undetected epileptic symptoms even in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition, consult your physician prior to playing. If you experience any of the following symptoms while playing a video game—dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions—**IMMEDIATELY** discontinue use and consult your physician before resuming play.

**WARNING TO OWNERS OF PROJECTION TELEVISIONS:**

Do not connect your PlayStation 2 console to a projection TV without first consulting the user manual for your projection TV, unless it is of the LCD type. Otherwise, it may permanently damage your TV screen.

**USE OF UNAUTHORIZED PRODUCT:**

The use of software or peripherals not authorized by Sony Computer Entertainment America may damage your console and/or invalidate your warranty. Only official or licensed peripherals should be used in the controller ports or Memory Card slots.

# SETTING UP YOUR PLAYSTATION®2 SYSTEM

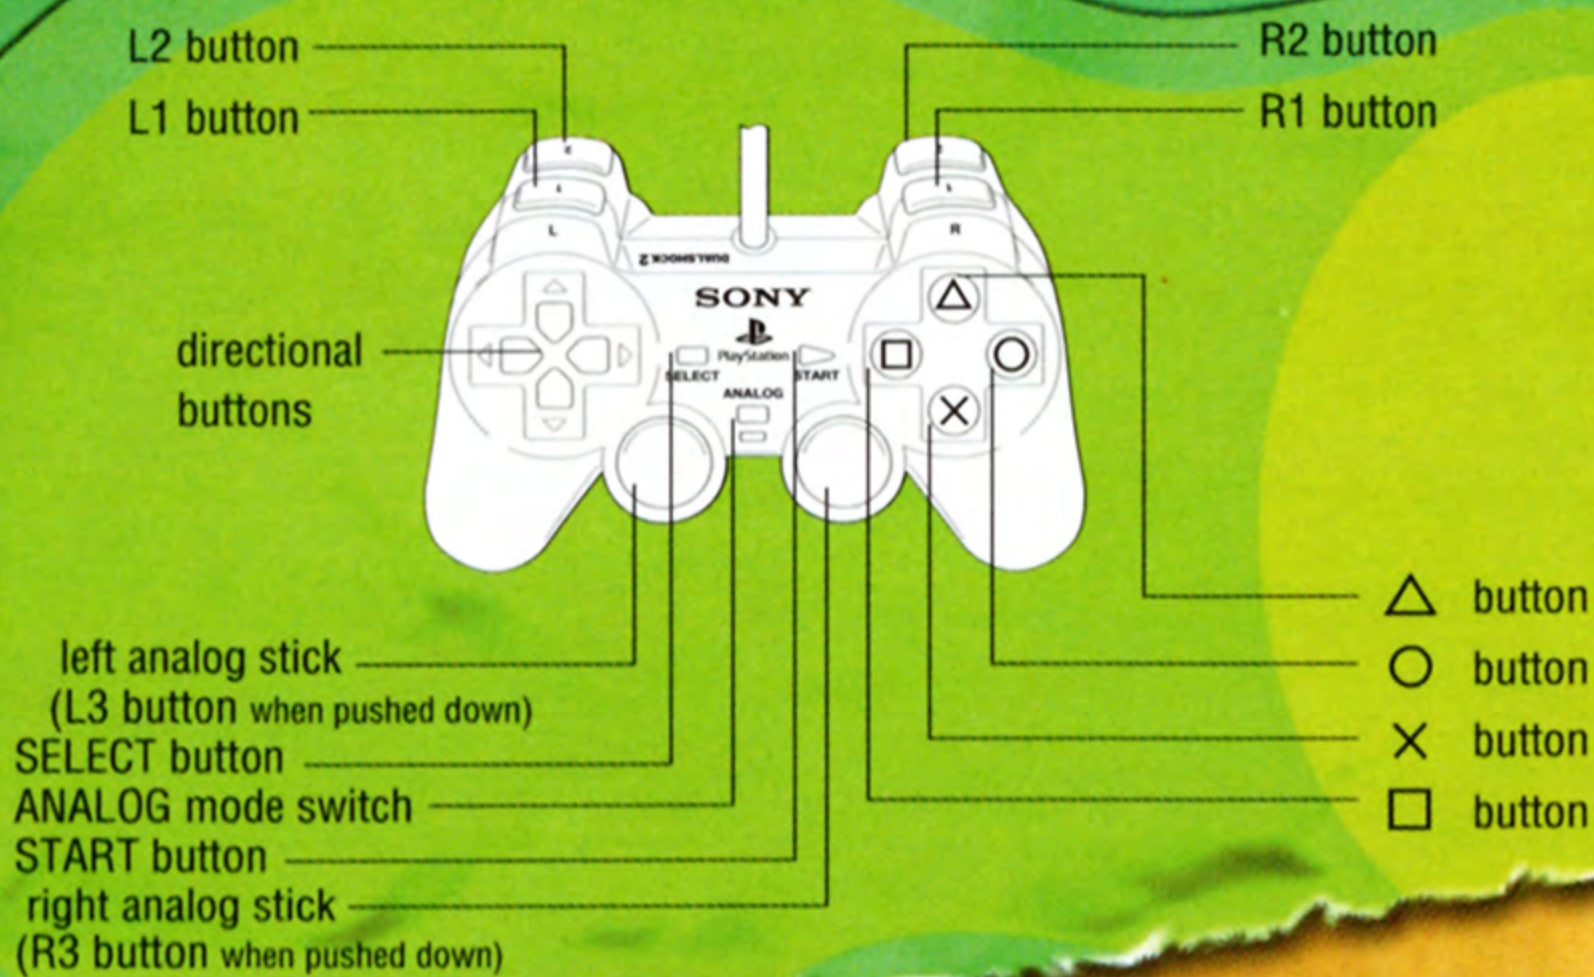

*"I've gotten a hold of the information you need to start your adventure. So read it carefully, Sly."*

Set up your PlayStation®2 computer entertainment system according to the instructions in the manual. Make sure the MAIN POWER switch (located in the back of the console) is turned ON. Press the RESET button. When the power indicator turns green, press the OPEN button and the disc tray will open. Place the **Sly Cooper and the Thievis Raccoonus™** disc on the disc tray with the label side facing up. Press the OPEN button again and the disc tray will close. Attach a game controller and other peripherals, as appropriate. Follow on-screen instructions and refer to this manual for information on using the software.

## MEMORY CARD

*"Sly, if you get tired, be sure to rest. You can save your progress with a Memory Card. Here are some instructions on how to save."*

To save game settings and progress, insert a memory card (8MB) (for PlayStation®2) into the MEMORY CARD slot 1 of your PlayStation 2 computer entertainment system. You can load saved **Sly Cooper and the Thievis Raccoonus** game data from the same card or any memory card (8MB) (for PlayStation®2) containing previously saved games.

*"I've got these moves down pat.  
Thanks for watching my back, Bentley."*

## **CONTROLS**

## STARTING A NEW GAME

**SLY COME IN! ARE YOU THERE?** Before we get started, the first thing you have to do is create a **SAVE File** to save your progress through the missions. On the **Save File** prompt screen

highlight **YES** and press the **X** button to create that file. Press the **START** button and we're on our way to recovering the **Thievius Raccoonus**.

*I know, Bentley...it's better to be safe than sorry. But don't jump out of your shell yet, we're just gettin' started!*

## BENTLEY'S MISSION STRATEGY

**SLY! DO YOU READ ME?!!**

*Yeah, yeah - I hear ya. So what's the plan Bentley?*

*I've got the whole mission mapped out ... including the best places to break in, locations of security devices, vaults and escape routes.*

*But before you do anything, we've got to get into Inspector Carmelita Montoya Fox's safe. It holds a police report and profile on YOU! - including your family history and some vital intelligence on the Fiendish Five. Once you get into her office, I'll give you the combination to her safe.*

*Ah yes, Carmelita. She's always hot on my trail - she's quite a fox and one very arresting young lady if you know what I mean!*

Swing your cane as though your elbow  
will not bend... this will speed up your spin,  
and give you the upper-hand in any battle.

Your brain is your best defense!  
Keep your senses about you in the  
most trying of circumstances  
and you will always come  
out on top!

When going up a ladder, never look down.  
If the enemy is behind you... concentrate on getting  
up that ladder. Jump up, skipping steps  
if necessary. But by all means, Be Safe!!!

CLIMBING LADDER

Excellent!!!

Super

Fair

Throwing your weight of your body in front of your nose is never a good idea. Keep in a crouched position, with your nose to your knees when spinning.

*SLY! Focus and pay attention. Carmelita IS smart and she'll be ready for you!*

*Relax Bentley - you worry too much.*

*Once we have that report secure, we can move on to retrieve the pages of the stolen Thievious Raccoonus. You'll have to sneak into each one of the Fiendish Five's criminal operations but be careful! Each operation consists of several hideouts, treasure stashes and they run tons of criminal activities. Every inch of the Fiend's empires are under guard by an army of security forces and thugs. I'll provide regular intelligence updates and decipher codes to help you crack every vault you find. I'll also warn you of any danger. Speaking of danger, the perils here far exceed my original evaluation. I recommend we scrap the mission!*

*We're not scraping anything! Don't lose it on me now Bentley, just relax in the van and watch the master at work.*

*Hmmm. The Fiendish Five seem to have left their stolen gold coins scattered everywhere...well let's give them all a taste of their own medicine. While I'm taking back what is rightfully mine, I think I'll just take their fortune from them, and see how they like it.*

*Oh Sly - I don't know about that. I'm really....*

*It'll be fine, Bentley.*

*You have some basic weapons, attacks and manuevers you can use to accomplish your missions, Sly. I just want to cover it with you to make sure you....*

*I know, I know but go ahead.*

## **USING THE CANE**

*The cane is both a weapon and a tool. To swing your cane, press the  button. Use it to break into places, smash objects and attack enemies. You can also jump first () button) and then press the  button for a jumping attack. As we recover pages from the Thievius Raccoonus, additional secrets of your cane will be revealed.*

*Oh yeah. I'll really get use out of this one!*

## **GRABBING, HANGING AND SWINGING**

*You can also grab onto rings, hooks or ropes that are out of reach. Press the  button to jump and press the  button to grab with your cane. Once you are hanging, press the Left analog stick to swing back and forth. To let go, press the  button.*

*My favorite part. Come on Bentley - I can't wait...let's get going!*

## ATTACKING

Press the  button to swing the cane for a basic attack. Jump first for a jumping attack. Some thugs are too tough to attack head-on. You'll need to use stealth and ambush them. You can discover Super Moves that include attacks.

*I love a good fight but sometimes it's even more fun and better to just sneak by right under their noses.*

## CLIMBING

OK Sly, to climb a ladder or pipe, stand next to it and press the  button. Then use the Left analog stick or Directional Pad to climb up or down. Oh, and on ropes, too.

*Thieving 101, Bentley? I know, you're just covering the basics, right? Got it!*

## ALARM SYSTEMS

Sly, alarm systems are everywhere and they really make me nervous. Try to sneak through every mission area undetected. Avoid search lights and laser traps designed to turn you into the ashes formerly known as Sly Cooper.

*Hey, sneaking is what I do best! There isn't an alarm system made that I can't sneak past or break into pieces which, by the way, deactivates the traps!*

*Sly, don't make fun of this, it's serious stuff here.*

*Right, Master Bentley.*

### **WATER**

*Avoid water that is over your head. Fall in the drink and you lose one life.*

*No kidding. The only way I like water is in a glass but I can jump through the shallow stuff just fine.*

### **LIVES**

*Sly, you've got five lives when you start. Lose all your lives and select **CONTINUE** to keep playing from the beginning of the current area.*

*I hear ya. Trust me, I don't plan on losing any.*

## CHECKING OUT THE SURROUNDINGS

I've invented the Binocucom so you can scan the mission area.

When I have an intelligence report, you'll automatically look through the binocucom at the specified area I am talking about. If you return to that area again, my Bentley Icon will appear at the bottom left of the screen. Just press the **L1** button and I will repeat the intelligence report for that area.

OK, one time is fine - but if I don't have time to listen to you the second time, I can just press the **R1** button to quiet you down, right?

Sly, please pay attention, this is important and I'm really worried that...

I gottcha Bentley. You're gonna crack that shell of yours if you don't loosen up.

Press the Right analog stick to swing the camera view anytime you want to see around you. You can click on the Right analog stick to move the camera behind you.

To use the binocucom anytime:

- Press the **L1** or **R1** button to look through it or put it away.
- Use the Left analog stick to scan the area.
- Use the Right analog stick **↑/↓** to zoom in and out.
- A compass at the top of the display shows the direction you are looking.

Got it!

## VAULTS AND CLUES

Vaults have combination locks. They hold pages of the Thievious Raccoonus and other goodies. The combinations are encoded in clues and stuffed in bottles.

*Those numbers clicking into place are music to my ears.*

To enter a vault combination:

1. Walk up to the vault and press the **○** button.
2. Press the **×** or **△** buttons to change the numbers.
3. Use the Left/Right directional buttons or the **□**/**○** buttons to move your hand to the next tumbler and repeat the process.

## ADVANCED TECHNIQUES

Break open safes and vaults and you'll discover advanced techniques. To use advanced techniques press the **△** button. Once you have more than one advanced technique, you can toggle between them by pressing the **R2** and **L2** buttons before pressing the **△** button.

*Great, I'm going for the gold! Just point me in the right direction here Bentley!*

## **THIEVERY AT ITS BEST**

Sometimes you'll see blue auras sparkling in an area. They mark a Thieving Opportunity that only a Raccoon Master Thief can see. Get close to them. Then press and hold the  button to perform a super sneaky Master Thief maneuver. Use the Left analog stick to sneak around while still holding the  button.

*Now, you're talking my language.*

## **BATTLING THE FIENDISH FIVE**

Sly, you have to finish each mission by defeating one of the Fiendish Five. During the battle, the power meter of the fiend is displayed on the left side of the screen so you'll know when you are inflicting damage. Keep attacking until the power meter runs out. These guys are dangerous Sly, are you sure you want to go through with this?

*They've had it coming for a long time.  
Tell Murray to keep the van warmed up,  
I'll be out in a minute.*

## FIND THESE ITEMS! LUCKY HORSESHOE

A Lucky Horseshoe will keep you from losing a life one time if you are attacked or injured. Find them throughout a mission. When you have a lucky Horseshoe it will appear on your back. You can carry multiple Lucky Horseshoes and can tell how many you have by the color of the Horseshoe.

*A little extra good luck never hurts. Wouldn't want to slip off a cliff or something.*

1. Horseshoe - Blue
2. Horseshoes - Gold

## GOLD COINS

Steal all the gold coins you find or take them from defeated thugs. Find hidden coins by striking an object with your cane. Every 100 coins buys a Lucky Horseshoe.

*Nothing perks up a Cooper like making off with the loot. My guess is these guys have coins stashed in some pretty weird places. But no worries. Just watch the master at work.*

## CLUES

Find these messages in bottles to discover valuable clues. They may include codes, vault combinations or other important information which I can analyze. Find all the clues, Sly. Check every location to unlock their secrets.

*Speaking of clues, make sure Murray doesn't fall asleep at the wheel.*

### **SLY LIFE**

*This gives you one extra Sly life. Sometimes defeating an enemy or breaking something open will reveal one.*

*An extra life? I'm all for that!*

### **KEY**

*Find these to gain entry to another area. Once you have a key, you can walk up to locked doors, gates or equipment and automatically insert the key. Sometimes you need multiple keys to completely gain access to an area.*

*Coopers don't normally need keys, but once in a while, I guess they could make things a little easier for me.*

### **BENTLEY'S SIGNAL REPEATERS**

*Sly, I've launched signal repeaters throughout the operational areas. They are a checkpoint to mark your progress. If you lose a life, you'll restart at the last signal repeater you passed.*

*10-4, little buddy.*

## NAVIGATING THE MAP

Once you have visited an area in any Fiend's operation, you can return using the Map.

1. Press the START button to display the Pause Menu and select VIEW MAP or press the SELECT button.
2. Press the Directional Button or Left analog stick to highlight the area you want to revisit and press the  button to warp back to that region.

*A map!? My father always said that maps were the way to ensure perfection!*

## THE HIDEOUT

After defeating one of the Fiends, return to the hideout to prepare for your next mission.

Press the Directional button or Left analog stick to view a location and press the  button to get a closer look.

- Select Me (Bentley) to get a look at the movies you've won by defeating members of the Fiendish Five. Press the Left analog stick or Directional buttons to highlight a movie and press the  button to play it.
- Select any one of your old mission maps to travel back to a Fiend's operation you've already raided. You can have another go at a place to pick up anything you missed on the previous visit.

*Have no fears, wealth and fame is on your side.*

## **HOT VEHICLES FOR COOL THIEVERY**

*Sometimes you need a special ride to get the job done. You might be stealing computers, shooting ghosts or racing for a key. In addition to the getaway van, you'll have access to a submarine and a swamp skiff. I'll give you a quick tutorial on controls before you operate a vehicle.*

*A driving lesson from you?*

*Hmmm - alright, Bentley let's hear it.*

- *Press the Left analog stick to steer the vehicle.*
- *Fire weapons with the  button or Right analog stick.*
