When you accumulate a certain number of Experience Points, your character's level will increase by one. By leveling up, your character's base abilities (Life Gauge capacity, Musou Gauge capacity, Attack, Defense, Speed) will increase or improve.

Another way of leveling up your characters is by using Growth Points, which are awarded at the end of every successful battle. These can be distributed among characters by selecting Character Growth at the Camp screen.

*You can check on the status of your Experience Points in Team Info.

How to Level Up

- Defeat enemy officers in battle and acquire EXP Items.
- From the Camp screen, select Character Growth, and allot Growth Points to the character you wish to level up.

Strengthening Weapons

If you acquire a Treasure Box during battle, you will receive weapons for all three characters once you are victorious in that battle.

- Pick up a Treasure Chest during battle to acquire a weapon after clearing the battle.
- Equip the acquired weapon by choosing Weapon from the Camp screen.

The more your Proficiency increases, the stronger your Special Attacks become (P.14).

*You can only increase the Proficiency of the active character. No matter how many enemies the active character defeats, the Proficiency of the characters in waiting will not increase.

*You can check your Proficiency in Team Info.
