# Basic Moves

While going forward

## PUSH

Accelerate by moving the board forward. Change your speed by the number of times you move the board forward (Push).

Speed 1 • Low speed

Speed 2 • Medium speed.

Speed 3 • Maximum speed. Accelerate for a brief moment when character's foot kicks the ground.

While going forward

## TURN

Move the board left/right to turn while going forward. When not moving, change your direction by holding the board left/right. Move the board to the direction you want to land when you are in the air.

Use a turn to change directions when you are stuck in narrow areas and cliffs.

While going forward

## BRAKE

Move (pull) the board to slowly reduce speed. Holding the controller longer will make the speed decrease.

Use the brake early. The skateboard cannot stop suddenly.

While going forward

## U-TURN

Press the front of the board while you are going forward to make a U-Turn. This also works when standing still. When on a ramp, do a U-Turn to get to the top of the ramp. You can't do a U-Turn when holding the board forward.

While going forward

# Ollie

Press the back of the board to do an Ollie. This is a basic trick you need to learn.

1 Do a Push close to the ramp. Push to speed 2 for best results.

2 Coast until you get close to the ramp.

3 Do another Push near the beginning of a ramp to accelerate.

4 Press the rear of the board at the top (edge) of the ramp. The faster the speed, the higher the Ollie.

While in the air

# Shifty

A Shifty allows you to Ollie farther. Move the board forward while in the air right after an Ollie. Holding down the board will make you go farther. After a Spin, do a Shifty to regain your balance in the air.

1 Shifty is a technique often used on ramps.

3 Don't wobble when you land or you will lose 30% of the score from your trick.

# Gawoo Diary

We are finally in paradise. The city is beautiful. There are nice houses where nobody lives. And it's only for us, Gawoo. If this is not paradise then what is? I heard that King Gawoo has declared the new Gawoo Kingdom here. But, it's too soon to be happy. Some creatures called humans, with skateboards, are changing our paradise. Somehow we Gawoo get excited when we see those skateboarding tricks and disappear with the excitement. We don't even know why this happens! We must protect our paradise and our people from these human creatures.

King Gawoo declaring the new Gawoo kingdom. He's an honorable man.

Excited Gawoo citizens. Me on the right.

Skateboarders. They are all over the city.

# Street Mode - Front Side

Clear various stages one by one. You can advance to the Hard Stage when you clear the entire mission on Normal Stage (default). Bring peace back in the city by making the Gawoo disappear. Kick all the Gawoo out of the city.

### • Color Gawoo

Different colors of Gawoo have their favorite tricks

### • Shape

Each shape of Gawoo has limited vision and can only see certain types of tricks.

• **Level** There are different levels of Gawoo. Wimpy ones are of course easy to beat.

Wow! They know everything! What are we going to do?

## How to show a Gawoo your tricks

### Challenge Mode

Practice tricks and get familiar with basic controls in this mode. Clear practice missions within the given time frame.

- **Courses**
  - [Basic Control]** Practice basic controls like the Push and Ollie. (Recommended for beginners.)

# RAMP mode

Make music (or play a song) by landing tricks on a set stage like the ramp or bowl. Complete cool background music with your tricks. There are three stages.

## The Game Screen

**Wobble (lose balance) on your landing:**  
Trick is pulled off, but not cleared.

The game is over when you loop the same tune 8 times.

Try to clear both normal and hard stages.

Choose from easy, normal or hard stages.

Land the given tricks.

With your tricks, make enough music to complete a song.

Check the replay when you clear the stage and be the 1st.

## Gawoo Diary

Yesterday, Green Gawoo Pucholin has disappeared. Ah, I hate these guys on skateboards. All we do is climb up on the trees, daydream on the street, or dance on top of roofs. We don't do any harm to them. Well, King Gawoo sometimes attacks with bombs...but then why don't they just do tricks on King Gawoo? We just can't help looking at the tricks though. We don't even know why we like looking at them so much. Why! Why!! Why!!!

Pucholin disappears after seeing a 1080° spin. His last word was "Aouhh!"

Yanya Caballista: City Skater

# VERSUS mode

In 2-player mode, capture all Gawoo on the stage before your opponent. There are three stages.

Tips for Stage 4 flip side

Have you mastered Early Flip-Chain Flip combo? If you have, defeating Topper is a piece of cake.

## The Game Screen

Gawoo say "hee" when they notice you and "hoo hoo" while watching your tricks.

Gawoo will run away when you blow the landing.

Move the board quickly left to right to get back into position.

Choose a stage.

Find a Gawoo!

Land a trick near Gawoo!

Attack the opponent with a "sonic wave" and steal their Gawoo!

Return to the starting point when you capture three Gawoo!

Nothing will happen when you bring the Gawoo one by one.

You win when you get to the starting point before your opponent!

It is a tie game when time runs out.

## Gawoo Level and Points

Gawoo health is varied by its color and level.

Level		Hit Point

## GAWOO DIARY

King Gawoo finally came up with a plan to fight the humans.

Place large coins where they are hard to reach.

Humans are greedy and they love coins. Put large coins where they are hard to get and distract them from finding us. Good spots are: on the roof of buildings, the sea, and somewhere very high.

Don't stay in a group.

Stay away from a crowd. If you stay in a group, all of you could disappear if a human does just one trick. When alone, get together with different color Gawoo just to be safe.

Don't stimulate the humans.

Don't laugh when the humans blow tricks. If you can't help laughing, try to change the way you laugh from, "ke ke ke" to "ha ha ha".

Is this really going to work?

# Street Mode - Flip Side

Appears when you clear certain challenges in the stage.

## The Game Screen

Number of Gawoo in the stage.

Time

Gawoo

### PROCESS 1

Defeat the Gawoo in the stage. You will get bonus time when you beat them within the given time frame. There are 20 Gawoo in one stage. The bonus time you get depends on the level of Gawoo you beat.

The amount of the bonus time depends on a kind of Gawoo you defeated.

### PROCESS 2

Keep defeating the Gawoo until time runs out. The game is over when you get all of the Gawoo, or when time runs out. When the game is over, the number of Gawoo you defeated will be shown in the Gawoo gauge.

When the time runs out, the number of Gawoo you defeated within the given time frame appears on the Gawoo gauge.

### PROCESS 3

Results! Look in the Gawoo gauge. You can open the next stage when you pass the given defeating ratio.

#### Defeat ratio and available stage

The number of Gawoo you defeated is shown on the Gawoo gauge screen. Study your score.

# TRICK! (Basic tricks)

## SPIN

While in the air

Rider: Max

Don't forget to throw a Shifty before landing. Make a tight landing for a perfect trick.

1 Do a Push to speed 3, and do an Ollie from the ramp.

2 Twist the board when in the air. Check the number of spins.

3 Do a Shifty when you land.

## GRAB

While in the air

Rider: Aimee

Use the grab at the end of combos. How long can you hold a grab in the air?

1 Do a Push to speed 3, and do an Ollie from the ramp.

2 Hold the front of the board and the time indicator will appear.

3 Let go just before landing to land perfectly.

## FLIP

While in the air

Rider: Clarice

This is a trick to get the board off your feet and spin it 360°. You might fall if you do this too close to the ground.

1 Do a Push to speed 3, and do an Ollie from the ramp.

2 Press the back of the board once you are in the air. Let go right away.

3 Letting go of the board assures a safe landing.

## Rail Slide (Grind)

While in the air near the rail

Rider: Blue Bee

Move your board left/right to position yourself when getting on the rail after an Ollie.

1 You can slide farther if the speed is high when you Ollie.

2 Do a Shifty, moving the board to the front, when getting on the rail.

3 Land in a safe area with an Ollie before reaching the end of the rail.

Yanya Caballista: City Skater

## Over car

Near a car

Rider: Honda

You can jump over a car with this trick. Use ramps or rails to avoid crashing into a car when jumping.

1 Do an Ollie from the ramp or rail.

2 Pull off a trick when jumping and cross over the top of a car.

3 If performed successfully, this is a high scoring trick.

## Ramp Trick

On a ramp

Rider: Gramma B

You can't do this trick without enough Push. You don't want to do a Shifty for long either. Can a beginner like you pull off a trick like this?

1 Start a Push from the edge of a ramp.

2 Do a trick when in the air.

3 Adjust the landing point by moving the board back and forth when landing.

## Stack

Near stairs

Rider: Mei Fa

It's all about the timing of the Push you do. Check out how I do it.

1 Get closer to the stairs with a Push, to speed 2.

2 Do another Push when you get to where the picture shows. Accelerate early.

3 After a Push, do an Ollie in front of Stairs.

4 After the Ollie, do a jump trick.

5 After the trick, do a Shifty to go farther.

6 You score for every step you cross. The more steps you cross, the more points you get.

# COMBOS

**SPIN** → **FLIP** → **GRAB**

Rider: Jet

The basic combo. Focus on Ollie to land perfect combo.

1 Do a Push to speed 3, and do an Ollie from the ramp.

2 Start doing a Spin right after the Ollie.

3 Do a Flip while spinning when going up.

4 Finally do a grab.

5 Remove your finger from the board when landing. Try not to fall.

**SPIN** → **FLIP** → **GRAB**

**RAMP VERSION**

Rider: Mei Fa

Pay close attention to landing when using this trick on a ramp.

1 Get enough speed with Push and jump from a ramp.

2 Do a Spin when going up.

3 Do a Flip when Spinning.

4 Do a Grab when going down.

5 Do a Shifty to ensure a smooth landing.

**SPIN** → **Late Flip**

Rider: Aimee

While Spinning, do a Flip right when you face the direction you were going. This makes the perfect spin. This is one of the coolest tricks you can master. Timing for the Flip is crucial.

1 Do a Push to speed 3, and do an Ollie from the ramp.

2 After the Ollie, do a Spin and get ready for a Flip.

3 Do a Flip when you face the direction you were going (where the picture shows.)

4 Practice until you get the timing of Flip right.

**Yanya Caballista:** City Skater

## EARLY FLIP

Rider: Max

With this technique, you pull off a Flip before you turn 90° when doing a Spin. You can score more than a normal Spin-Flip trick. Early Flip is my specialty. Pick me when practicing Early Flips. It's my specialty, but that doesn't mean it's the only thing I'm good at.

Do a Push to speed 3, and do an Ollie from the ramp.

When you spin 10-30°, do a Flip.

You need to press the back of the board for the Flip right after twisting the board for the Spin.

After getting used to the trick, try throwing a Grab before landing.

## CHAIN FLIP

Rider: Clarice

With this trick, you do multiple Flips while still in the air. Make sure to press the back of the board just before each Flip is finished. That will make an easier transition to the next Flip. You need to press the board right before the feet touch the board but not continue to press it.

Do a Push to speed 3, and do an Ollie from the ramp.

Do the first Flip right after the Ollie.

Do the second Flip just before the feet touch the board.

Landing is easy when you do the Ollie successfully.

## Tips for combos

### How combos work

If you want high scores, pull a Spin after an Ollie. You can expand combos farther that way. You can't do any other tricks if you do a Grab after an Ollie.

### White circle on trick display

When pulling combos, a white circle appears on the upper right screen. The white circle covers different tricks that are accepted as a combo. This tells you whether your combo attempt was successful or not.

The white circle covers both Spin and Flip. One combo is successfully performed.

No white circle. Spin and Flip are separate tricks, not a combo.

# SUPER TRICK

## SUPER TRICK

### 360° Late Flip Rocket

High score and easy. This is a useful trick from beginning to end.

Rider: Blue Bee

Do a Push to speed 3, and an Ollie from the ramp.

After an Ollie, start a Spin and get ready for a Flip.

Do a Flip when facing the direction you are going to go.

Do a Grab at the end.

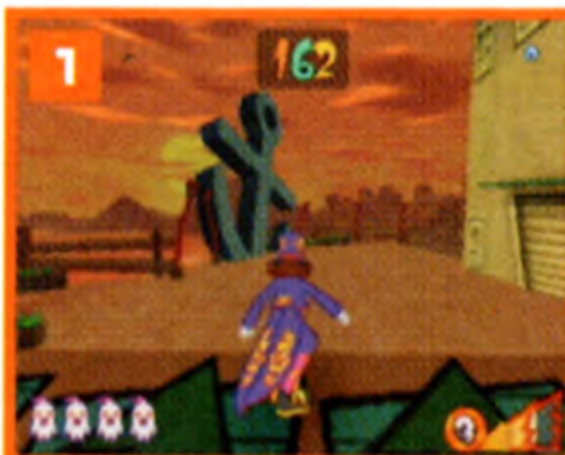

Let the finger go just before landing. That's all you need to do.

## SUPER TRICK

### 360° Late Flip, Hard Flip

It all depends on how well you do with an Ollie. Do a Push to speed 3 to pull off a perfect Ollie.

Rider: Honda

Do a Push to speed 3, and an Ollie from the ramp.

After the Ollie, do a Spin and get ready for a Flip.

Do a Flip when you face the direction you were going. Make the Spin stop.

Do one more Flip before your feet touch the board.

Keep the finger on the board before landing, and throw a Shifty.

## SUPER TRICK

### B/S 1080° Early Heel Flip Rocket

A Shifty after a Grab is very important here. You might fall down if you do a Grab too late. If you do a B/S (back spin) instead, a Heel Flip becomes a Kick Flip. Pick whichever you like. Can you pull off all of these tricks?

Rider: Gramma B

Do a Push to speed 3, and an Ollie from the ramp.

When going up, do an Early Flip.

When the Spin is over, do a Grab, and move the board forward.

Land successfully. The difficulty level is pretty high on this trick.

Yanya Caballista: City Skater

## SUPER TRICK

### 5-0 Grind B/S 720°s Early Flip, Hard Flip Out

Extreme trick using a rail. Do tricks quickly after getting off the rail. Choose a character that can connect from Spin to Flip smoothly, like me.

Rider: Jet

1 Do a Push to speed 2 to get closer to the rail.

2 Get on the rail doing an Ollie, and then do a Shifty.

3 Speed up by doing a Rail Slide, and throw another Ollie.

4 Right when getting off the rail, pull an Early Flip.

5 Throw another Flip.

6 Do a Shifty if you have enough time before landing.

## SUPER TRICK

### F/S Big Spin 1800° Kick Flip, Hard Flip, Mellon Grab

I'll show you my favorite stunt here. You score over 80,000 points if you pull off this trick.

Rider: Mei Fa

1 Let's try this on a ramp. First start out with a Push.

2 Right when you jump from the ramp, do an Early Flip.

3 Do a Flip right before your feet touch the board.

4 Do another Flip just like picture 3.

5 Do a Grab, and remove the finger from the board right away.

## GAWOO DIARY

The humans got their final weapon, "Trick Gauge". King Gawoo has panicked. He's screaming and mumbling things like, "It's a Gawoo eating monster! It's going to scream Gauge, Gauge!" Is this the end of the Gawoo kingdom? Oh boy. When I am reborn, I want to be a human. I'm going to skateboard everywhere, catching all the attention with the coolest tricks ever done. I will show off my awesome tricks to some cute girl and steal her heart. And then...

Is this what a Trick Gauge does? It's sure causing major damage to our fellow Gawoo.

# Game Strategy

## Street Mode: Hard Stages

### Front Side

[Mission 1]

Every Gawoo develops. They get stronger and harder to defeat. Practice connecting combos like Early Flip, Chain Flip, etc. Do tricks after a Rail Slide or Over Car to get higher scores and give higher damage to the Gawoo. The Boss moves quickly on this stage. Watch and follow his moves closely to throw a trick that is perfectly timed.

[Mission 2]

Pull off some tricks after a Rail Slide. Use this often. You can defeat Gawoo efficiently by finding a group of Gawoo and getting them all at once with one trick. The Boss on this stage has a narrower view than in the Normal stage. Choose which ramps to use carefully.

[Mission 3]

There's Swabby (has narrow view) all over this stage. Tricks after a Rail Slide are hard to be seen. Watch your speed during sliding, and wait for the perfect timing tricks. The Minister on this stage is quick and hard to get. Give major damage with high scoring tricks using a Rail Slide. Wait until a Gawoo is close to the rail to pull off a trick.

[Mission 4]

You have less time in this mission. Collect large coins immediately to increase your time. To beat Topper, who doesn't take damage easily, accumulate combos in the trick gauge and try again. Using a strategic route is the secret to clearing this stage. It is hard to defeat the boss without accumulating combo tricks. Try to save as many combos as you can so that you can be prepared to defeat stronger Gawoo.

[Mission 5]

It is important to master the Push Ollie for this stage. Control the timing of a jump with Cancel Dash. If you can't beat the colored Gawoo with one trick, try again after saving combos in the trick gauge.

### Flip Side

[Mission 1]

It's a good idea to retry a mission when you make a mistake. Try not to blow tricks and take a strategic route to win. Use Over Car trick to shorten your time.

[Mission 2]

There is a route that you can take to easily defeat high-level Gawoo. Try to find the route when you are frustrated with the game. Advanced techniques like Early Flips and Combos are a must in the Flip Side, Hard Stage. Master those techniques to clear this stage.

[Mission 3]

Save combo tricks from the beginning to defeat the high-level Gawoo. Yellow Gawoo (Grab) is the key to winning this mission. Think how efficiently you can damage the Yellow Gawoo.

[Mission 4]

Topper is everywhere. And you can't defeat him without accumulated combos. Be careful where and how many combos you save. The Yellow Gawoo is the key again. Don't limit yourself to Flip tricks. Throw in some Grab tricks for higher scores.

[Mission 5]

Connecting combos is a must technique here. You need to accumulate at least 10 combos to clear this mission. Start over when you fall from high spots or in the water.
